Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2012-0154; FMCSA-2012-0332]

Qualification of Drivers; Application for Exemptions; Hearing

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to grant requests from 4 individuals for exemptions from the Agency's physical qualifications standard concerning hearing for interstate drivers. The current regulation prohibits individuals who do not meet the standard from operating CMVs in interstate commerce. After notice and opportunity for public comment, the Agency concluded that granting exemptions for these CMV drivers will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions. The exemptions are valid for a 2-year period and may be renewed, and the exemptions preempt State laws and regulations.

DATES: The exemptions are effective April 23, 2015. The exemptions expire on April 24, 2017.

B. Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the safety regulations for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The statute also allows the Agency to renew exemptions at the end of the 2-year period. The current provisions of the FMCSRs concerning hearing state that a person is physically qualified to drive a CMV if that person:

First perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5-1951.

49 CFR 391.41(b)(11). This standard was adopted in 1970, with a revision in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid, 35 FR 6458, 6463 (April 22, 1970) and 36 FR 12857 (July 3, 1971).

FMCSA grants 4 individuals an exemption from the regulatory requirement in § 391.41(b)(11) allowing individuals who do not meet the hearing requirements to operate CMVs in interstate commerce for a 2-year period. The Agency's decision on these exemption applications is based on the current medical literature and information and the "Executive Summary on Hearing, Vestibular Function and Commercial Motor Driving Safety" (the 2008 Evidence Report) presented to FMCSA on August 26, 2008. The evidence report reached two conclusions regarding the matter of hearing loss and CMV driver safety: (1) No studies that examined the relationship between hearing loss and crash risk exclusively among CMV drivers were identified; and (2) evidence from studies of the private driver license holder population does not support the contention that individuals with hearing impairment are at an increased risk for

a crash. In addition, the Agency reviewed the applicant's driving record found in the CDLIS,¹ for CDL holders, and interstate and intrastate inspections recorded in MCMIS.² The Agency acknowledges there could be potential consequences of a driver being hearing impaired and/or deaf while operating a CMV under some scenarios. However, the Agency believes the drivers covered by the exemptions do not pose a risk to public safety.

C. Comments

FMCSA announced the exemption applications and requested public comment for each of the applicants in the notices below. For those applicants discussed in a previous notice but who are not mentioned in this notice, the Agency has announced its decision in a previous notice.

Docket # FMCSA-2012-0154

On May 25, 2012, FMCSA published a notice of receipt of exemption applications and requested public comment on 45 individuals. The comment period ended on July 30, 2012. This application was in response to a request from the National Association of the Deaf (NAD). In response to this notice, FMCSA received 570 comments and granted 40 exemptions. The 570 comments were addressed in the Agency's notice published on February 1, 2013 (78 FR 7479).

Docket # FMCSA-2012-0332

On July 16, 2013, FMCSA published a notice of receipt of exemption applications and requested public comment on 9 individuals. The comment period ended on August 15, 2013. In response to the notice, FMCSA received seven comments. All seven commenters support the idea of granting exemptions.

D. Exemptions Granted

Following individualized assessments of the exemption applications, FMCSA grants exemptions from 49 CFR 391.41(b)(11) to 4 individuals. Under current FMCSA regulations, all of the 4 drivers receiving exemptions from 49 CFR 391.41(b)(11) would have been

considered physically qualified to drive a CMV in interstate commerce except that they do not meet the hearing requirement. FMCSA has determined that the following applicants should be granted an exemption.

Donald Lynch

Mr. Lynch, 38, holds a driver's license from the state of Florida.

Zachary Rietz

Mr. Rietz, 32, holds a driver's license from the state of Texas.

Byron Smith

Mr. Smith, 28, holds a driver's license from the state of Louisiana.

Billy J. Warnock

Mr. Warnock, 43, holds a driver's license from the state of Indiana.

E. Basis for Exemption

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the hearing standard in 49 CFR 391.41(b)(11) if the exemption is likely to achieve an equivalent or greater level of safety than would be achieved without the exemption. With the exemption, applicants can drive in interstate commerce. Thus, the Agency's analysis focuses on whether an equal or greater level of safety is likely to be achieved by permitting each of these drivers to drive in interstate commerce as opposed to restricting him or her to driving in intrastate commerce. Based on its review of each driver's record, the Agency has concluded that allowing these applicants to drive in interstate commerce will achieve an equal level of safety. Each driver must comply with the terms and conditions of the exemption. This includes reporting any crashes or accidents as defined in 49 CFR 390.5 and reporting all citations and convictions for disqualifying offenses under 49 CFR part 383 and 40 CFR part 391.

Conclusion

The Agency is granting exemptions from the hearing standard, 49 CFR 391.41(b)(11), to 4 individuals based on an evaluation of each driver's safety experience. Safety analysis of information relating to these 4 applicants meets the burden of showing that granting the exemptions would achieve a level of safety that is equivalent to or greater than the level that would be achieved without the exemption. By granting the exemptions, the CMV industry will gain 4 additional CMV drivers. In accordance with 49 U.S.C. 31315, each exemption will be valid for 2 years from the effective date

with annual recertification required unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136 and 31315.

FMCSA exempts the following 4 drivers for a period of 2 years from the physical qualification standard concerning hearing: Donald Lynch (FL); Zachary Rietz (TX); Byron Smith (LA); and Billy J. Warnock (IN).

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2014-0305]

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of applications for exemptions, request for comments.

SUMMARY: FMCSA announces receipt of applications from 35 individuals for exemption from the vision requirement in the Federal Motor Carrier Safety Regulations. They are unable to meet the vision requirement in one eye for various reasons. The exemptions will enable these individuals to operate commercial motor vehicles (CMVs) in interstate commerce without meeting the prescribed vision requirement in one eye. If granted, the exemptions would enable these individuals to qualify as drivers of commercial motor vehicles (CMVs) in interstate commerce. **DATES:** Comments must be received on or before May 26, 2015. All comments will be investigated by FMCSA. The exemptions will be issued the day after the comment period closes.
