

that it would not be in the public interest to incur a disruption in the services associated with holding a new T&FASEG competition in FY 2015. Rather, it would be more effective to maintain the continuity of current projects by allowing grantees the opportunity to continue to provide high-quality direct educational services in support of the Secretary's priorities to students and teachers in the U.S. Territories and the Republic of Palau without interruption. Consistent with the scope, goals, and objectives of the current projects, grantees would continue to support initiatives on standards and assessments, effective teachers and leaders, and projects that are designed to improve student achievement or teacher effectiveness through the use of high-quality digital tools or materials, which include preparing teachers to use technology to improve instruction, as well as developing, implementing, or evaluating digital tools or materials. Moreover, we believe that a longer project period will better enable grantees to carry out project objectives and anticipate providing for longer project periods in future competitions. Additionally, given that all eligible applicants currently receive grant awards under the T&FASEG program, the proposed waiver and extension would have limited impact on those entities.

We intend to fund the extended project period by using funds Congress appropriates under the current statutory authority, including FY 2014 funds available for awards made in FY 2015 and, if the grants are extended for two years, FY 2015 funds available for awards made in FY 2016.

Under this proposed waiver and extension of the project period—

(1) Current grantees would be authorized to receive T&FASEG continuation awards annually for up to two years through FY 2017;

(2) We would not announce a new T&FASEG competition or make new T&FASEG grant awards in FY 2015;

(3) During the extension period, any activities carried out would be consistent with, or a logical extension of, the scope, goals, and objectives of each grantee's approved application from the 2012 T&FASEG program competition;

(4) The requirements established in the program regulations and the 2012 Notice Inviting Applications would continue to apply to each grantee that receives a continuation award; and

(5) All requirements applicable to continuation awards for current T&FASEG grantees and the requirements in 34 CFR 75.253 would

apply to any continuation awards received by current T&FASEG grantees.

If we announce this proposed waiver and extension as final, we will make decisions regarding annual continuation awards based on grantee performance as demonstrated through program narratives, budgets and budget narratives, and performance reports, and based on the regulations in 34 CFR 75.253. We intend to award continuation grants based on information provided to us annually by each grantee, indicating that it is making substantial progress performing its T&FASEG program activities based on substantial performance and progress.

Regulatory Flexibility Act Certification

The Secretary certifies that the proposed waiver and extension and the activities required to support additional years of funding would not have a significant economic impact on a substantial number of small entities. The entities that would be affected by this proposed waiver and extension are the five current T&FASEG program grantees receiving Federal funds. There are no other potential applicants.

The Secretary certifies that the proposed waiver and extension would not have a significant economic impact on these entities because the extension of an existing project imposes minimal compliance costs, and the activities required to support the additional years of funding would not impose additional regulatory burdens or require unnecessary Federal supervision.

Paperwork Reduction Act of 1995

This proposed waiver and extension does not contain any information collection requirements.
