SUPPLEMENTARY INFORMATION: FRA is issuing Emergency Order No. 30 (EO or Order) to require that trains transporting large amounts of Class 3 flammable liquid through certain highly populated areas adhere to a maximum authorized operating speed limit. FRA has determined that public safety compels issuance of the Order. The Order is necessary due to the recent occurrence of railroad accidents involving trains transporting petroleum crude oil and ethanol and the increasing reliance on railroads to transport voluminous

amounts of those hazardous materials in recent years. Under the EO, an affected train is one that contains: (1) 20 or more loaded tank cars in a continuous block, or 35 or more loaded tank cars, of Class 3 flammable liquid; and (2) at least one DOT Specification 111 (DOT–111) tank car (including those built in accordance with Association of American Railroads (AAR) Casualty Prevention Circular 1232 (CPC–1232)) loaded with a Class 3 flammable liquid. Affected trains must not exceed 40 miles per hour (mph) in high-threat urban areas (HTUAs) as defined in 49 CFR 1580.3. This Order takes effect immediately.

post-accident investigations and to ensure that stakeholders are fully aware of each agency’s investigative authority and cooperate with agency personnel conducting such investigations, where time is of the essence in gathering evidence, the agencies are issuing a Safety Advisory (FRA Safety Advisory 2015–02 and Docket NO. PHMSA–2015–0118, Notice No. 15–11) to remind railroads operating HHFTs—defined as a train comprised of 20 or more loaded tank cars of a Class 3 flammable liquid in a continuous block, or a train with 35 or more loaded tank cars of a Class 3 flammable liquid across the entire train—as well as the offerors of Class 3 flammable liquids transported on such trains, of their obligation to provide PHMSA and FRA, as expeditiously as possible, with information agency personnel need to conduct investigations immediately following an accident or incident.

[Docket No. PHMSA–2014–0002 (PDA–36(R))]

Pittsburgh, Pennsylvania Permit Requirements for Transportation of Hazardous Material

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Notice.

SUMMARY: In accordance with statutory requirements, PHMSA is publishing a notice of delay in processing the American Trucking Associations, Inc.’s (ATA) application for a preemption determination concerning requirements of the City of Pittsburgh, Pennsylvania for a permit to transport hazardous materials by motor vehicle and the fee to obtain the permit. PHMSA is conducting fact-finding and legal analysis in response to the request, and is delaying issuance of its determination in order to allow time for appropriate consideration of the issues raised by the application.

FOR FURTHER INFORMATION CONTACT: Vincent Lopez, Office of Chief Counsel (PHC–10), Pipeline and Hazardous Materials Safety Administration, U.S.

Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590; telephone No. 202–366–4400; facsimile No. 202–366–7041.

SUPPLEMENTARY INFORMATION: ATA applied for an administrative determination concerning whether Federal hazardous material transportation law, 49 U.S.C. 5101 *et seq.*, preempts requirements of the City of Pittsburgh, Pennsylvania for a permit to transport hazardous materials by motor vehicle and the fee to obtain the permit. PHMSA published notice of ATA’s application in the **Federal Register** on April 17, 2014. 79 FR 21840.

Title 49 U.S.C. 5125(d)(1) requires PHMSA to issue a decision on an application for a preemption determination “within 180 days after the date of the publication of the notice of having received such application, or the Secretary shall publish a statement in the **Federal Register** of the reason why the Secretary’s decision on the application is delayed, along with an estimate of the additional time necessary before a decision is made.”

ATA’s application for a preemption determination is still under consideration by PHMSA. The Agency is currently conducting fact-finding and legal analysis in response to the application. Because of this additional fact-finding and legal analysis, it was impracticable to issue a decision within the 180-day timeframe. In order to allow time for full consideration of the issues raised by the application, PHMSA delays issuance of its determination, and estimates a decision will be published in approximately 120 days.

Issued in Washington, DC, on April 21, 2015.

Joseph Solomey,

Senior Assistant Chief Counsel.
