SUPPLEMENTARY INFORMATION:

Title: EIB 15–01, Generic Clearance for the Collection of Feedback on Electronic Interfaces with Customers.

OMB Number: TBD.

Type of Review: New.

Need and Use: This is a request for a new three-year generic clearance for the Export-Import Bank of the United States (Ex-Im Bank) that will allow it to develop, test and improve its digital customer interfaces—including on-line applications for financing support, other on-line reporting, and the agency's Web site. The procedures used to this effect include, but are not limited to, tests of various interfaces through focus groups, cognitive testing, web-based experiments and usability testing.

Ex-Im Bank is requesting the generic clearance in order to test new or proposed methodologies for customer interfaces, data collection activities, and Web site design. We believe the generic clearance will be a helpful vehicle for evaluating the usability and effectiveness of these methodologies.

In the past, Ex-Im Bank has approached design and testing through convenience samples of nine or fewer persons to provide input and feedback or by relying on employee feedback. Neither of these approaches meets Ex-Im Bank's needs to collect meaningful information on the usability and effectiveness of its customer interfaces.

In the reference document we have provided a description of the scope of possible activities that might be covered under this clearance. The requested clearance is important to Ex-Im Bank's usability testing program, because of the length of time required to develop customer interfaces.

The specific methods proposed for coverage by this clearance are listed below. Also outlined are the procedures Ex-Im Bank plans to put in place for keeping OMB informed about the identity of the usability tests and the nature of the research activities being conducted.

The methods proposed for use in system development are as follows:

- Pilot testing,
- Behavior coding,
- Exploratory interviews,
- Split sample experiments,
- Cognitive and usability interviews, and

- Focus groups.

Before each testing activity is undertaken, Ex-Im Bank will provide OMB with a memo describing the study to be conducted and a copy of the instrumentation and instruction materials that will be used. Depending on the stage of instrumentation development, this may be a printed questionnaire, a set of prototype items showing each item type to be used and the range of topics to be covered by the questionnaire, or an interview script. When split sample experiments are conducted, either in small group sessions or as part of a field test, the different versions of the questionnaires to be used will be provided. For a test of alternative procedures, the description and rationale for the procedures will be submitted. A brief description of the planned field activity will also be provided.

Affected Public: Individuals representing companies engaged in business with the Export-Import Bank of the U.S.

Annual Number of Respondents: 72.

Estimated Time per Respondent: 12 hours.

Annual Burden Hours: 864 hours.

Frequency of Reporting or Use: On occasion.

FEDERAL RESERVE SYSTEM

Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

AGENCY: Board of Governors of the Federal Reserve System.

SUMMARY: Notice is hereby given of the final approval of proposed information collections by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority. Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act Submission, supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

FOR FURTHER INFORMATION CONTACT:

Federal Reserve Board, Acting Clearance Officer—Mark Tokarski—Office of the Chief Data Officer, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202) 452-3829. Telecommunications Device for the Deaf (TDD) users may contact (202) 263-4869, Board of Governors of the Federal Reserve System, Washington, DC 20551. OMB Desk Officer—Shagufta Ahmed—Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street NW., Washington, DC 20503.

Final approval under OMB delegated authority of the extension for three years, without revision, of the following reports:

1. *Report title:* Senior Loan Officer Opinion Survey on Bank Lending Practices.

Agency form number: FR 2018.

OMB control number: 7100-0058.

Frequency: Up to six times a year.

Reporters: Domestically chartered large commercial banks and large U.S. branches and agencies of foreign banks.

Estimated annual reporting hours: 1,248 hours.

Estimated average hours per response: 2 hours.

Number of respondents: 104.

General description of report: This information collection is authorized by Sections 2A, 11 and 12A of the Federal Reserve Act (12 U.S.C. 225a, 248(a) and 263) and Section 7 of the International Banking Act (12 U.S.C. 3105(c)(2)) and is voluntary. Individual survey responses from each respondent can be held confidential under section (b)(4) of the Freedom of Information Act (5 U.S.C. 552(b)(4)). However, certain data from the survey is reported in aggregate form and the information in aggregate form is made publicly available and not considered confidential.

Abstract: The FR 2018 is conducted with a senior loan officer at each respondent bank, generally through electronic submission, up to six times a year. The purpose of the survey is to provide qualitative and limited quantitative information on credit availability and demand, as well as evolving developments and lending practices in the U.S. loan markets. Consequently, a portion of the questions in each survey typically covers special topics of timely interest. There is the option to survey other types of respondents (such as other depository institutions, bank holding companies, or other financial entities) should the need arise. The FR 2018 survey provides crucial information for monitoring and

understanding the evolution of lending practices at banks and developments in credit markets.

Current Actions: On February 11, 2015, the Federal Reserve published a notice in the **Federal Register** (80 FR 7592) requesting public comment for 60 days on the extension, without revision, of the Senior Loan Officer Opinion Survey on Bank Lending Practices. The comment period for this notice expired on April 13, 2015. The Federal Reserve did not receive any comments. The information collection will be extended for three years, without revision, as proposed.

2. *Report title:* Senior Financial Officer Survey.

Agency form number: FR 2023.

OMB control number: 7100-0223.

Frequency: Up to four times a year.

Reporters: Domestically chartered large commercial banks.

Estimated annual reporting hours: 960 hours.

Estimated average hours per response: 3 hours.

Number of respondents: 80.

General description of report: This information collection is authorized by Sections 2A, 11 and 12A of the Federal Reserve Act (12 U.S.C. 225a, 248(a), and 263) and is voluntary. The ability of the Federal Reserve to maintain the confidentiality of information provided by respondents to the FR 2023 surveys will be determined on a case by case basis depending on the data collected under a particular survey. The individual survey responses from each respondent can be held confidential under section (b)(4) of the Freedom of Information Act (5 U.S.C. 552(b)(4)).

Abstract: The Federal Reserve uses this voluntary survey to collect qualitative and limited quantitative information about liability management, the provision of financial services, and the functioning of key financial markets. Responses are obtained from a senior officer at each participating institution usually through an electronic submission. The survey is conducted when major informational needs arise and cannot be met from existing data sources. The survey does not have a fixed set of questions; each survey consists of a limited number of questions directed at topics of timely interest. The survey helps pinpoint developing trends in bank funding practices, enabling the Federal Reserve to distinguish these trends from transitory phenomena.

Current Actions: On February 11, 2015, the Federal Reserve published a notice in the **Federal Register** (80 FR 7592) requesting public comment for 60 days on the extension, without revision,
