[Docket No., CD15-23-000]

Los Angeles County Public Works; Notice of Preliminary Determination of a Qualifying Conduit Hydropower Facility and Soliciting Comments and Motions To Intervene

On April 14, 2015, Los Angeles County Public Works filed a notice of intent to construct a qualifying conduit hydropower facility, pursuant to section 30 of the Federal Power Act (FPA), as amended by section 4 of the Hydropower Regulatory Efficiency Act of 2013 (HREA). The proposed M7W Pressure Reducing Station Hydroelectric Project would have an installed capacity of 215 kilowatts (kW) and would be located at the Quartz Hill Water Treatment Plant, which treats water for municipal consumption. The project would be located near the Town of Palmdale in Los Angeles County, California.

Applicant Contact: Paul Maselbas, Los Angeles County Public Works, Waterworks Division, 900 S. Freemont Ave., Alhambra, CA 91803, (626) 300-3302.

FERC Contact: Robert Bell, Phone No. (202) 502-6062, email: robert.bell@ferc.gov.

Qualifying Conduit Hydropower Facility Description: The proposed project would consist of: (1) an existing 51-foot by 38-foot building, which will serve as the powerhouse; (2) an existing 30-inch-diameter pipe to the treatment plant; (3) one proposed turbine-generator unit with an installed capacity of 215 kW, which will replace pressure reducing valve CV5; (4) an existing 125-foot-long, 30-inch-diameter discharge pipe that delivers potable water to storage tanks for distribution to parts of the City of Palmdale, California and (5) appurtenant facilities. The proposed project would have an estimated annual generating capacity of 730 megawatt-hours.

A qualifying conduit hydropower facility is one that is determined or deemed to meet all of the criteria shown in the table below.

TABLE 1—CRITERIA FOR QUALIFYING CONDUIT HYDROPOWER FACILITY

<i>Statutory provision</i>	<i>Description</i>	<i>Satisfies (Y/N)</i>
FPA 30(a)(3)(A), as amended by HREA.	The conduit the facility uses is a tunnel, canal, pipeline, aqueduct, flume, ditch, or similar manmade water conveyance that is operated for the distribution of water for agricultural, municipal, or industrial consumption and not primarily for the generation of electricity.	Y
FPA 30(a)(3)(C)(i), as amended by HREA.	The facility is constructed, operated, or maintained for the generation of electric power and uses for such generation only the hydroelectric potential of a non-federally owned conduit.	Y
FPA 30(a)(3)(C)(ii), as amended by HREA.	The facility has an installed capacity that does not exceed 5 megawatts	Y
FPA 30(a)(3)(C)(iii), as amended by HREA.	On or before August 9, 2013, the facility is not licensed, or exempted from the licensing requirements of Part I of the FPA.	Y

Preliminary Determination: Based upon the above criteria, Commission staff preliminarily determines that the proposal satisfies the requirements for a qualifying conduit hydropower facility, which is not required to be licensed or exempted from licensing.

k. *Description of Proceeding:* The exemptee is in violation of Standard Article 1 of its exemption, which was granted on October 8, 1982 (21 FERC ¶62,018). Article 1 provides, among other things, that the Commission may terminate an exemption if any term or condition of the exemption is violated.

Commission records show The Dardanelles Creek Hydroelectric Project has been non-operational since before 2009. The project is located on lands managed by the Bureau of Land Management (BLM) and the Bureau of Reclamation (BOR) and has ongoing compliance issues with both agencies. By letter dated September 26, 2011, BLM copied the Commission on a fully executed duplicate original 5-year license (permit to use federal lands) to Mr. Bradley Reeves, exemptee for the project. On October 17, 2011, Mr. Reeves advised the Commission that he had sold the project to Mr. Kevin Drone as of September 15, 2011. By letter

dated October 28, 2011, to the new owner, Mr. Drone, the Commission requested the filing of documentation he has the rights to use or occupy the federal lands affected by the project, and a plan and schedule for making the project operational. On March 6, 2012, Mr. Drone filed a letter with the Commission stating he declined the exemption transfer until Mr. Reeves resolves non-compliance and outstanding debt liability issues. Commission, BLM, and BOR staff has tried to contact both parties. The parties have shown no movement towards restoring project operation or removing abandoned equipment, and no longer claim ownership of the project. Last correspondence with Mr. Reeves was returned with no forwarding address. The Commission is pursuing an implied surrender of the exemption due to noncompliance with its Standard Article 1. Doing so will also facilitate the BLM and/or the BOR efforts to pursue legally the current and/or the previous owner of the project.
