

allow NSPM to continue to maintain the 10 CFR 73.51 performance objectives of high assurance of public health and safety and the common defense and security. Therefore, granting the exemption would not endanger life or property or the common defense and security. Lastly, issuance of the exemption would facilitate effective security management at the PI site. Therefore, issuance of the exemption is in the public interest.

C. Environmental Assessment

The NRC also considered whether there would be any significant environmental impacts associated with the exemption. For this proposed action, the NRC performed an environmental assessment pursuant to 10 CFR 51.30. The proposed action is the approval of a request to exempt the applicant from certain requirements of 10 CFR 73.51(d)(3).

The environmental assessment concluded that the proposed action would not significantly impact the quality of the human environment. The NRC concludes that the proposed action would not result in any changes in the types or amounts of any radiological or non-radiological effluents that may be released offsite, and there would be no significant increase in occupational or public radiation exposure because of the proposed action. The environmental assessment and the finding of no significant impact were published in the **Federal Register** on October 24, 2014 (79 FR 63649).

IV. Conclusion

Accordingly, the Commission has determined that, pursuant to 10 CFR 73.5, this exemption is authorized by law, will not endanger life or property or the common defense and security, and is otherwise in the public interest. Therefore, the Commission hereby grants NSPM an exemption from certain requirements of 10 CFR 73.51(d)(3), as specified in the SER. The licensee did not request, and the Commission does not grant, relief from any other requirement in 10 CFR 73.51(d)(3) or any other provision.

Dated at Rockville, Maryland, this 23rd day of April 2015.

For the Nuclear Regulatory Commission.

Anthony H. Hsia,

Deputy Director, Division of Spent Fuel Management, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-10; NRC-2013-0002]

Northern States Power Company; Prairie Island Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) reviewed an application by Northern States Power Company (NSPM) for amendment of Materials License No. SNM-2506 which authorizes NSPM to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials. The amendment sought to revise the cask cavity pressurization Technical Specifications for the spent fuel storage casks utilized at the Prairie Island (PI) Independent Spent Fuel Storage Installation (ISFSI).

DATES: Notice of amendment to Materials License No. SNM-2506 given on May 1, 2015.

ADDRESSES: Please refer to Docket ID NRC-2013-0002 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2013-0002. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individuals listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The Prairie Island License Amendment Request No. 9 package is available electronically under ADAMS Accession No. ML14143A202.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One

White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Chris Allen, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-6877; email: William.Allen@nrc.gov.

SUPPLEMENTARY INFORMATION: By application dated May 23, 2014, as supplemented November 19, 2014, NSPM submitted to the NRC, in accordance with part 72 of Title 10 of the *Code of Federal Regulations* (CFR), a request to amend Special Nuclear Materials License No. SNM-2506 for its PI ISFSI site located in Welch, Minnesota. License No. SNM-2506 authorizes NSPM to receive, possess, store, and transfer spent nuclear fuel and associated radioactive materials resulting from the operation of the PI Power Plant in an ISFSI at the power plant site for a term of 20 years. Specifically, the amendment proposed to revise the cask cavity pressurization technical specifications for the spent fuel storage casks utilized at the PI ISFSI.

The NRC issued a letter dated July 30, 2014, notifying NSPM that the application was acceptable for review. In accordance with 10 CFR 72.16, a notice of docketing was published in the **Federal Register** on September 3, 2014 (79 FR 52375). The notice of docketing included an opportunity to request a hearing and to petition for leave to intervene. No requests for a hearing or petitions for leave to intervene were submitted.

The NRC prepared a safety evaluation report (SER) (ADAMS Accession No. ML15092A166) to document its review and evaluation of the amendment request. In addition, the NRC evaluated an assertion by PI that the amendment request satisfied the categorical exclusion criteria specified in 10 CFR 51.22(c)(11). Under 10 CFR 51.22(c)(11), a categorical exclusion is allowed for amendments to materials licenses which are administrative, organizational, or procedural in nature, or which result in a change to process operations or equipment, provided that (i) there is no significant change in the types or significant increase in the amounts of any effluents that may be released offsite, (ii) there is no significant increase in individual or cumulative occupational radiation exposure, (iii) there is no significant construction impact, and (iv) there is no significant increase in the potential for or consequences from radiological accidents. As explained in the SER, the NRC determined that the license

amendment satisfied the 10 CFR 51.22(c)(11) categorical exclusion criteria. Consequently, an environmental assessment and finding of no significant impact are not required.

Upon completing its review, the NRC staff determined the request complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), as well as the NRC's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR chapter I, which are set forth in the license amendment. The NRC approved and issued Amendment No. 9 to Special Nuclear Materials License No. SNM-2506, held by NSPM for the receipt, possession, transfer, and storage of spent fuel and associated radioactive materials at the PI ISFSI. Pursuant to 10 CFR 72.46(d), the NRC is providing notice of the action taken. Amendment No. 9 was effective as of the date of issuance, April 10, 2015.

Dated at Rockville, Maryland, this 10th day of April 2015.

For the Nuclear Regulatory Commission.

Michele Sampson,

Chief, Spent Fuel Licensing Branch, Division of Spent Fuel Management, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 72-1; NRC-2015-0113]

GE-Hitachi Nuclear Energy Americas, LLC; GE-Hitachi Morris Operation Independent Spent Fuel Storage Installation

AGENCY: Nuclear Regulatory Commission.

ACTION: License amendment application; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) reviewed an application by GE-Hitachi Nuclear Energy Americas, LLC, for an amendment of Special Nuclear Materials License No. SNM-2500, which authorizes GE-Hitachi Nuclear Energy Americas, LLC, to possess, store, and transfer spent nuclear fuel and associated radioactive materials at the GE-Hitachi Morris Operation's (GEMO) independent spent fuel storage installation (ISFSI). The requested amendment would change section 8.2.1 of the GEMO's technical specification to ensure that annual environmental

reports are submitted in accordance with regulatory requirements. The application included adequate justification for the proposed changes. The NRC has docketed, approved and issued the amendment.

DATES: May 1, 2015.

ADDRESSES: Please refer to Docket ID NRC-2015-0113 when contacting the NRC about the availability of information regarding this document. You may access publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2015-0113. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual(s) listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced. The GE-Hitachi Morris Operation License Amendment Request No. 14 package is available electronically under ADAMS Accession No. ML15106A008.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Pamela Longmire, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-7000; email: Pamela.Longmire@nrc.gov.

SUPPLEMENTARY INFORMATION: On December 21, 2004, the NRC renewed Special Nuclear Materials License No. SNM-2500 for the GEMO ISFSI (ADAMS Accession No. ML043630433), located near Morris, Illinois. The renewed license authorizes GE-Hitachi Nuclear Energy Americas, LLC to possess, store, and transfer spent

nuclear fuel and associated radioactive materials at the GEMO-ISFSI for a term of 20 years. The NRC also issued an environmental assessment and finding of no significant impact related to the issuance of the renewed ISFSI license on November 30, 2004 (ADAMS Accession No. ML043360409), in accordance with the National Environmental Policy Act, and in conformance with the applicable requirements of Title 10 of the Code of Federal Regulations (10 CFR part 51).

On June 25, 2013, GE-Hitachi Nuclear Energy Americas, LLC submitted to the NRC a request for a license amendment in accordance with § 72.56, "Application for amendment of license." The requested amendment would change section 8.2.1 of the GEMO technical specification to ensure that annual environmental reports are submitted in accordance with regulatory requirements. The application included adequate justification for the proposed changes.

Pursuant to 10 CFR 72.46, the NRC has docketed, approved and issued Amendment No. 14 to Special Nuclear Materials License No. SNM-2500, held by GE-Hitachi Nuclear Energy Americas, LLC, for the possession, transfer and storage of spent fuel at the GEMO ISFSI. Amendment No. 14 is effective as of the date of issuance.

Amendment No. 14 complies with the standards and requirements of the Atomic Energy Act of 1954, as amended, and the Commission's rules and regulations. The Commission has made appropriate findings, as required by the Act and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in Amendment No. 14. The issuance of Amendment No. 14 satisfied the criteria specified in 10 CFR 51.22(c)(11) for a categorical exclusion. Therefore, the preparation of an environmental assessment or an environmental impact statement is not required.

In accordance with 10 CFR 72.46(b)(2), the NRC has determined that Amendment No. 14 does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

Dated at Rockville, Maryland, this 16th day of April 2015.
