companies where the Department determined that the exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter’s case number (i.e., at that exporter’s rate) will be liquidated at the PRC-wide rate.7

We intend to issue assessment instructions to CBP 15 days after the date of publication of the final results of review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of these final results of review for all shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date as provided by section 751(a)(2)(C) of the Act: (1) For previously investigated or reviewed PRC and non-PRC exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the exporter-specific rate; (2) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the PRC-wide entity of 114.9 percent; (3) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements shall remain in effect until further notice.

Notification

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to the liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary’s presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

These final results of review are issued and published in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.213.

Paul Piquado,
Assistant Secretary for Enforcement and Compliance.

Appendix I

List of Topics Discussed in the Issues and Decision Memorandum
1. Summary
2. Background
3. Scope of the Order
4. Separate Rate/PRC-Wide Entity
5. Discussion of the Issues
   - Comment 1: Whether Rongxin is Entitled to a Separate Rate
   - Comment 2: Whether Dixon is a U.S. Manufacturer of Subject Merchandise, and, therefore, Entitled to Request an Administrative Review of Rongxin
6. Recommendation

DEPARTMENT OF COMMERCE
National Institute of Standards and Technology
[Docket Number: 150501413–5413–01]

Manufacturing Extension Partnership
State Competitions and Regional Forums

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Institute of Standards and Technology (NIST) announces that the Hollings Manufacturing Extension Partnership Program (MEP) intends to publish and post two (2) separate announcements of funding availability for MEP Centers in calendar year 2016. The list of specific states that will be involved in the competitions will be posted on the NIST MEP Web site at: http://www.nist.gov/mep/. The funding announcements will be provided both in the Federal Register and on Grants.gov. Prior to or in conjunction with each publication, MEP will conduct approximately two to three Regional Forums.

DATES: The two separate announcements of funding availability are expected to be published and posted in January 2016 and July 2016, respectively. The Regional Forums will take place prior to or in conjunction with each publication, with notification to the public posted at: www.nist.gov/mep/.

ADDRESS: The FRNs will be published in the Federal Register at https://www.federalregister.gov/, and the FFOs will be posted on http://www.grants.gov. More information about MEP and past funding opportunities may be obtained from the MEP Web site: www.nist.gov/mep/.

FOR FURTHER INFORMATION CONTACT: Diane Henderson, Manufacturing Extension Partnership, National Institute of Standards and Technology, 100 Bureau Drive, Mail Stop 4800, Gaithersburg, Maryland 20899–4800, telephone number (301) 975–5105, email: mepffo@nist.gov.

SUPPLEMENTARY INFORMATION: NIST MEP, through a state-federal network of 60 centers and 1,200 manufacturing experts, helps small and medium-sized manufacturers across the country to improve their production processes, upgrade their technological capabilities, and bring new products to market. MEP helps small and medium-sized manufacturers compete, thereby increasing employment and investment across the country and generating a high return on public investment.

Every dollar of federal investment in the MEP translates into $19 of new sales for small and medium-sized manufacturers, or almost $2.5 billion annually across the 30,000 small and medium-sized manufacturers that MEP serves. See http://www.nist.gov/mep/about/index.cfm and http://www.nist.gov/mep/about-impact.cfm.

Since it was founded in 1988, MEP has worked with nearly 80,000 manufacturers, leading to $88 billion in sales and $14 billion in cost savings, and helping small manufacturers create more than 729,000 new jobs. See http://www.nist.gov/mep/about/index.cfm.

The MEP program is in the process of a multi-year effort to conduct full and open competitions to select operators for MEP centers. On August 1, 2014, NIST launched the first round of competitions for MEP centers in 10 states, focusing on states where the MEP investment in terms of dollars per manufacturing establishment was below its national average, making them the most underfunded of MEP’s 60 centers. See 79 FR 44746 (Aug. 1, 2014). In February 2015, NIST MEP awarded cooperative agreements with start dates of July 1, 2015, to winning applicants in each of the 10 states.

On March 9, 2015, NIST announced funding opportunities in 12 states, with
an application deadline of June 1, 2015. See 80 FR 12451 (March 9, 2015); http://www.grants.gov/web/grants/search-grants.html?keywords=NIST MEP. The primary objective of these competitions is to optimize the impact of the Federal investment on U.S. manufacturing and to allocate additional funds to areas with higher concentrations of manufacturers. Nonprofit organizations, including public and private nonprofit organizations, nonprofit or State colleges and universities, public or nonprofit community and technical colleges, and State, local or Tribal governments, are eligible to apply for a NIST cooperative agreement for the operation of an MEP Center. In turn, MEP Centers work directly with small and medium-sized manufacturers to expand the range of growth, innovation, lean production, supply chain innovation, technology acceleration and workforce development offered to small and medium-sized manufacturers. In addition to a continued focus on growing all sectors of U.S. manufacturing, it is expected that an increased emphasis will be given to offering these services to very small firms, rural firms, and start-up firms. The competitions provide an opportunity to expand the number of small and medium-sized manufacturers served by the network and to align the program activities with the strategic goals of the states.

The benefits of competition include:
- Opportunity to realign MEP center activities with State economic development strategies;
- Resetting of NIST MEP funding levels by State to reflect the regional importance of manufacturing and the national distribution of manufacturing activities;
- Reduction and simplification of reporting requirements; and
- Five-year awards reducing the annual paperwork burden.

It should be noted that the MEP Program is not a Federal research and development program. It is not the intent of the program that awardees will perform systematic research. To learn more about the MEP Program, please go to http://www.nist.gov/mep/.

NIST MEP anticipates announcing the competitions for approximately eleven (11) states in January 2016, with new MEP Center cooperative agreement awards anticipated to start in October 2016. NIST MEP anticipates announcing the competitions for an additional eleven (11) states in July 2016, with new MEP Center cooperative agreement awards anticipated to start in April 2017. The proposed list of states for the January 2016 and July 2016 announcements of funding availability will be posted on the MEP Web site at http://www.nist.gov/mep/. The list of specific states may change from time to time until finalized in the announcements of funding availability.

This notice contains information based on the current planning for NIST MEP’s activities in calendar year 2016, with the competitions expected to be completed by December 2016. NIST reserves the discretion to add and/or remove states from the list of states participating in the MEP competitions. The final list of states participating in each of the MEP Center competitions and the funding amounts available will be published in the announcements of funding availability that will be published in the Federal Register and posted simultaneously on www.grants.gov.

In addition to issuing the two announcements of funding availability described above, NIST MEP intends to conduct approximately two to three regional forums prior to or in conjunction with each publication of these announcements. These forums will provide general information regarding MEP and offer general guidance on preparing proposals. NIST/MEP staff will be available at the forums to answer general questions. During the forums, proprietary technical discussions about specific project ideas will not be permitted. Also, NIST/MEP staff will not critique or provide feedback on any project ideas during the forums or at any time before submission of a proposal to MEP. However, NIST/MEP staff will provide information about business model approaches, developing proposals and sharing lessons learned from the 2015 MEP competition. NIST/MEP staff will also discuss the MEP eligibility and cost-sharing requirements, evaluation criteria and selection factors, selection process, and the general characteristics of a competitive MEP proposal.

Once specific dates, locations and agendas have been identified for each of these Regional Forums, NIST MEP will post this information on its public Web site, http://www.nist.gov/mep/.

Kevin Kimball,
Chief of Staff.

RIN 0648–XD722

ENDANGERED AND THREATENED WILDLIFE AND PLANTS: NOTICE OF 12-MONTH FINDING ON A PETITION TO LIST THE UNDULATE RAY AND THE GREENBACK PARROTFISH AS THREATENED OR ENDANGERED UNDER THE ENDANGERED SPECIES ACT (ESA)

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Status review; notice of finding.

SUMMARY: We, NMFS, have completed comprehensive status reviews under the Endangered Species Act (ESA) for two foreign marine species in response to a petition to list those species. These species are the undulate ray (Raja undulata) and the greenback parrotfish (Scarus trispinosus). We have determined that, based on the best scientific and commercial data available, listing the undulate ray under the ESA is not warranted and listing the greenback parrotfish under the ESA is not warranted. We conclude that the undulate ray and the greenback parrotfish are not currently in danger of extinction throughout all or a significant portion of their respective ranges and are not likely to become so within the foreseeable future.

DATES: The finding announced in this notice was made on May 11, 2015.

ADDRESSES: You can obtain the petition, status review reports, the 12-month finding, and the list of references electronically on our NMFS Web site at http://www.nmfs.noaa.gov/pr/species/petition81.htm.

FOR FURTHER INFORMATION CONTACT: Ronald Salz, NMFS, Office of Protected Resources (OPR), (301) 427–8171.

SUPPLEMENTARY INFORMATION:

Background

On July 15, 2013, we received a petition from WildEarth Guardians to list 81 marine species or subpopulations as threatened or endangered under the Endangered Species Act (ESA). This petition included species from many different taxonomic groups, and we prepared our 90-day findings in batches by taxonomic group. We found that the petitioned actions may be warranted for 24 of the species and 3 of the subpopulations and announced the initiation of status reviews for each of...
