#### (i) Exception

Oxygen mask regulators having a date of manufacturing (DMF) code of November 2008 (112008 or 11-08) or earlier, and those with a DMF code of January 2011 (012011 or 01-11) or later; and those having a part number listed in paragraph 1.A.(4), "Not Concerned Equipment," of Zodiac Aerospace Service Bulletin MXH-35-240, Revision 7, dated September 1, 2011, are excluded from the inspection and replacement requirements of paragraphs (g) and (h) of this AD, provided it can be demonstrated that the inflatable harness has not been replaced on those masks with an inflatable harness having a part number and batch number identified in Appendix I of the applicable service information specified in paragraph (i)(1) or (i)(2) of this AD. A review of airplane delivery or maintenance records is acceptable to make the determination specified in this paragraph, if the part number and batch number of the harness assembly, and the DMF code of the mask assembly, can be conclusively determined from that review.

FR Federal Register  
NPRM Notice of Proposed Rulemaking

#### A. Regulatory History and Information

On Tuesday, March 24, 2015, the Coast Guard published a notice of proposed rulemaking (NPRM) entitled "Special Local Regulations and Safety Zones; Recurring Events in Northern New England" in the **Federal Register** (80 FR 15532). We received no comments on the proposed rule. No

public meeting was requested and none was held.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after final publication in the **Federal Register**. Delaying this rule would be impracticable and contrary to the public interest because the first scheduled marine event covered by this rule is scheduled for May. The Coast Guard did not receive the updated information on listed events in time to publish more than thirty days before the first events. The rule must become effective as soon as practicable to provide for the safety of all users of the waterway during the scheduled events.

#### B. Basis and Purpose

The legal basis for the rule is 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05-1, 6.04-1, 6.04-6, and 160.5; and Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to establish safety zones and special local regulations.

Swim events, fireworks displays, and marine events are held on an annual recurring basis on the navigable waters within the Coast Guard Sector Northern New England COTP Zone. In the past, the Coast Guard has established special local regulations, regulated areas, and safety zones for these annual recurring events on a case-by-case basis to ensure the protection of the maritime public and event participants from the hazards associated with these events. In the past year, events were assessed for their likelihood to recur in subsequent years and were added to the tables accordingly. In addition, the event titled "5.1 Hawgs, Pies, & Fireworks" in Gardiner, ME. was changed to "5.1 Ride into Summer".

This rulemaking updates the existing regulation in order to meet the Coast Guard's intended purpose of ensuring safety during these events.

#### C. Discussion of Comments, Changes and the Final Rule

No comments were received and no changes have been made to the Final Rule.

#### D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes and executive orders.

##### 1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of
