Authority and Background

On December 18, 2014, the President signed into law the Protecting and Securing Chemical Facilities from Terrorist Attacks Act of 2014 (the Act) (Pub. L. 113–254). The Act amended the Homeland Security Act of 2002 (Pub. Participation in the Expedited Approval Program is optional for Tier 3 and Tier 4 chemical facilities. If a Tier 3 or Tier 4 chemical facility opts not to participate in the Expedited Approval Program, it must comply with the other CFATS requirements for submission of a Site Security Plan (or an Alternative Security Program) to DHS for review, and for implementation of the submitted plan. *See generally* 6 CFR part 27, subpart B (describing requirements for submission and implementation of Site Security Plans and Alternative Security Programs outside of the Expedited Approval Program). Under the Expedited Approval Program, a Tier 3 or Tier 4 chemical facility may submit a Site Security Plan to DHS, which must either follow the prescriptive measures described in the guidance document announced by this Notice of Availability, or the Tier 3 or Tier 4 chemical facility must certify that any material deviations from the guidance meet the risk-based performance standards contained in CFATS.⁵ If a Tier 3 or Tier 4 chemical facility chooses to submit a Site Security Plan in accordance with the guidance, DHS can review the Site Security Plan for facial deficiency within 100 days after the date on which the Plan is received by DHS, as outlined in section 2102(c)(4)(G)(i) of the Homeland Security Act of 2002.
