### Foreign-Trade Zones Board

[B-31-2015]

#### Foreign-Trade Zone (FTZ) 44—Mount Olive, New Jersey; Notification of Proposed Production Activity; Robertet Inc. (Fragrance Compounds), Mt. Olive, New Jersey

Robertet Inc. (Robertet) submitted a notification of proposed production activity to the FTZ Board for its facility

within Site 1 of FTZ 44. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on May 6, 2015.

The Robertet facility is used for the blending of fragrance ingredients into fragrance compounds for consumer goods such as perfumes, cosmetics, toiletries, soaps, and household products. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Robertet from customs duty payments on the foreign status components used in export production. On its domestic sales, Robertet would be able to choose the duty rates during customs entry procedures that apply to fragrance compounds (duty-free to 17 cents/kg + 1.9% duty rate) for the foreign status inputs noted below. Customs duties also could possibly be deferred or reduced on foreign status production equipment.
