

government energy offices or agencies, clean energy non-profits with existing residential energy programs and other organizations who believe peer sharing will help them improve their effectiveness in encouraging homeowners to complete energy upgrades. DOE proposes to collect information about the participants such as their names and addresses, their evaluations of training they received about the programs, descriptions of their qualifications to conduct training for the programs, their plans to get people to participate in the programs, their certifications describing how they can assess homes, estimates of how many homes they can get to participate in the programs, and information about the homes. The DOE published a notice and request for comments related to this current request for OMB clearance to collect information on May 15, 2014 (79 FR 27867) and received no comments. That notice asked for comments for four voluntary programs at DOE, three of which are the same as for this current request for clearance and one is different. The DOE decided not to request clearance to collect information for the Building America Program that was part of that May 15, 2014 request for comments. The DOE, however, added the HPwES program to this current request for clearance. The reason is that operation of part of the HPwES program is to be transferred to the DOE from the Environmental Protection Agency (EPA). The DOE intends to operate HPwES substantially similarly to the way EPA operates the program. The difference in estimates of numbers of responses, number of respondents, burden hours, and costs to respond between the HPwES that was approved by OMB for EPA and the one requested to be approved by DOE are minor. The OMB did give the EPA clearance for collection of information in the HPwES program on August 14, 2014. OMB gave it the ICR Control Number 2060-0586. There are 3 Information Collections associated with that control number.

In place of EPA, DOE wants to collect the information for only one of the three collections associated with Control Number 2060-0586; the one with the Information Collection title "ENERGY STAR Program in the Residential Sector: States and Locals". EPA did not receive any comments in either the 30 or 60 day **Federal Register** Notices for that collection of information; (5) *Annual Estimated Number of Respondents*: 11,585; (6) *Annual Estimated Number of Total Responses*: 46,909; (7) *Annual Estimated Number of Burden Hours*:

22,926; (8) *Annual Estimated Reporting and Recordkeeping Cost Burden*: zero dollars.
