SUPPLEMENTARY INFORMATION: DOE published a NOPR in the **Federal Register** to make available and invite public comments on its analysis regarding potential energy conservation standards for certain residential furnaces. 80 FR 13120 (March 12, 2015). The document set a deadline for the submission of written comments by June 10, 2015. The American Gas Association (AGA) and the Southern California Gas Company (SoCalGas) each requested an extension of the public comment period, stating that additional time is necessary to review the published analysis in order to prepare and submit comments. After careful consideration of these requests, DOE has determined that extending the comment period to allow additional time for interested parties to submit comments is appropriate based on the foregoing reason. DOE believes that extending the comment period by 30 days will provide the public with sufficient time to submit comments responding to DOE's analysis. Accordingly, DOE is extending the comment period to midnight of July 10, 2015 and will deem any comments received (or postmarked) by that date to be timely submitted.

Issued in Washington, DC, on May 12, 2015.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency and Renewable Energy.

Energy Conservation Program for Consumer Products: Energy Conservation Standards for Residential Boilers

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Extension of public comment period.

SUMMARY: On March 31, 2015, the U.S. Department of Energy (DOE) published in the **Federal Register** a notice of proposed rulemaking (NOPR) and technical support document (TSD) that analyze the potential economic impacts and energy savings that could result from potential energy conservation standards for residential boilers. DOE published this NOPR and analysis so stakeholders can review and provide input on the relevant outputs and the underlying assumptions and calculations. The comment period for the NOPR pertaining to residential boilers was scheduled to end June 1, 2015. After receiving requests for additional time to comment, DOE has decided to extend the comment period for the NOPR pertaining to the energy conservation standards for residential boilers until July 1, 2015.

DATES: The comment period for the notice of proposed rulemaking published March 31, 2015, at 80 FR 17222, is extended. DOE will accept comments, data, and information no later than July 1, 2015.

ADDRESSES: Instructions: All comments submitted must identify the NOPR for Energy Conservation Standards for Residential Boilers, and provide docket number EE-2012-BT-STD-0047 and/or regulatory information number (RIN) number 1904-AC88. Comments may be submitted using any of the following methods:

1. *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.

2. *Email:* ResBoilers2012STD0047@ee.doe.gov. Include the docket number

and/or RIN in the subject line of the message. Submit electronic comments in Word Perfect, Microsoft Word, PDF, or ASCII file format, and avoid the use of special characters or any form on encryption.

3. *Postal Mail*: Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Office, Mailstop EE-5B, 1000 Independence Avenue SW., Washington, DC 20585-0121. If possible, please submit all items on a compact disc (CD), in which case it is not necessary to include printed copies.

Wassenaar Arrangement 2013 Plenary Agreements Implementation: Intrusion and Surveillance Items

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Proposed rule, with request for comments.

SUMMARY: The Bureau of Industry and Security (BIS) proposes to implement the agreements by the Wassenaar Arrangement (WA) at the Plenary meeting in December 2013 with regard to systems, equipment or components specially designed for the generation, operation or delivery of, or communication with, intrusion software; software specially designed or modified for the development or production of such systems, equipment or components; software specially designed for the generation, operation or delivery of, or communication with, intrusion software; technology required for the development of intrusion software; Internet Protocol (IP) network communications surveillance systems or equipment and test, inspection, production equipment, specially designed components therefor, and development and production software and technology therefor. BIS proposes a license requirement for the export, reexport, or transfer (in-country) of these cybersecurity items to all destinations, except Canada. Although these cybersecurity capabilities were not previously designated for export control, many of these items have been controlled for their "information security" functionality, including encryption and cryptanalysis. This rule thus continues applicable Encryption Items (EI) registration and review requirements, while setting forth proposed license review policies and special submission requirements to address the new cybersecurity controls, including submission of a letter of explanation with regard to the technical capabilities of the cybersecurity items.

BIS also proposes to add the definition of "intrusion software" to the definition section of the EAR pursuant to the WA 2013 agreements.

DATES: Submit comments on or before July 20, 2015.

ADDRESSES: Comments on this rule may be submitted to the Federal rulemaking
