DEPARTMENT OF STATE**22 CFR Parts 120, 123, 124, 125, and 126**

RIN 1400–AC88

[Public Notice 9139]

Amendment to the International Traffic in Arms Regulations: Exports and Temporary Imports Made to or on Behalf of a Department or Agency of the U.S. Government; Procedures for Obtaining State Department Authorization To Export Items Subject to the Export Administration Regulations; Revision to the Destination Control Statement; and Other Changes

AGENCY: Department of State.

ACTION: Proposed rule.

SUMMARY: As part of the President's Export Control Reform (ECR) effort, the Department of State is proposing to amend the International Traffic in Arms Regulations (ITAR) to: clarify regulations pertaining to the export of items subject to the Export Administration Regulations (EAR); revise the licensing exemption for exports made to or on behalf of an agency of the U.S. government; revise the destination control statement in ITAR § 123.9 to harmonize the language

with the EAR; and make several minor edits for clarity. The proposed revisions contained in this rule are part of the Department of State's retrospective plan under E.O. 13563.

DATES: The Department of State will accept comments on this proposed rule until July 6, 2015.

ADDRESSES: Interested parties may submit comments by one of the following methods:

SUPPLEMENTARY INFORMATION: The Department proposes to make the following revisions in this rule:

Items subject to the EAR: This proposed rule adds clarifying language to various provisions of the ITAR pertaining to the export of items subject to the EAR pursuant to a Department of State authorization, when such exports are made in conjunction with items subject to the ITAR. These revisions include guidance on the use of licensing exemptions for export of such items, as well as clarification that items subject to the EAR are not considered defense articles, even when exported under a

license or other approval (to include exemptions, *see* § 120.20) issued by the Department of State.

Items exported to or on behalf of an agency of the U.S. government: This proposed rule revises the licensing exemption language in ITAR § 126.4 to clarify when exports may be made to or on behalf of an agency of the U.S. government without a license. Additionally, the scope of this exemption is expanded in that it will allow for permanent exports, rather than only temporary exports. The Department seeks comments from the public on whether the proposed revision adequately eliminates ambiguity as to when the exemption may be applied, and whether it creates any unintended compliance burden.

Revision to the Destination Control Statement: This proposed rule revises the destination control statement in ITAR § 123.9 to harmonize its language with the EAR. This change is being made to facilitate the President's Export Control Reform initiative, which has transferred thousands of formerly ITAR-controlled defense article parts and components, along with other items, to the Commerce Control List in the EAR under the jurisdiction of the Department of Commerce.

This change in jurisdiction for many parts and components, along with other items, for military systems has increased the incidence of exporters shipping articles subject to both the ITAR and the EAR in the same shipment. Both regulations have a mandatory destination control statement that must be on the export control documents for shipments that include items subject to both sets of regulations. This has caused confusion to exporters as to which statement to include on mixed shipments, or whether to include both. Harmonizing these statements will ease the regulatory burden on exporters.

Procedures for Obtaining State Department Authorization to Export Items Subject to the EAR: This proposed rule revises the ITAR in a number of places to clarify how parties may obtain authorization from the Department to export or retransfer items subject to the EAR. Section 120.5 is revised to clarify that items subject to the EAR may be authorized pursuant to an exemption with certain conditions. A new paragraph (d) is added to ITAR § 123.9 to clarify the requirements for retransferring items subject to the EAR pursuant to a letter of General Correspondence. Section 124.16 is revised to clarify that the special retransfer authorization of this section may be used for items subject to the EAR with certain conditions.

Other changes in this rule: The Department proposes to make a number of minor edits to the ITAR that will address erroneous or outdated reporting requirements. This rule would remove the requirement to provide seven paper copies for various export license requests in §§ 124.7, 124.12, 124.14, 125.2, 125.7 and 126.9, which has not been necessary for many years due to the use of electronic license submissions, change the identification of the agency responsible for permanent import authorizations in § 123.4 from the Department of the Treasury to Department of Justice, and impose the Code of Federal Regulations paragraph structure on § 124.8. Additionally, the Department proposes removing the pilot filing requirement found in § 123.13, given that it does not take into account the practices of modern airport operations and is no longer necessary.

Regulatory Analysis and Notices

Administrative Procedure Act

The Department of State is of the opinion that controlling the import and export of defense articles and services is a foreign affairs function of the United States government and that rules implementing this function are exempt from §§ 553 (rulemaking) and 554 (adjudications) of the Administrative Procedure Act (APA). Although the Department is of the opinion that this rule is exempt from the rulemaking provisions of the APA, the Department is publishing this rule with a 45-day provision for public comment and without prejudice to its determination that controlling the import and export of defense services is a foreign affairs function.

Regulatory Flexibility Act

Since the Department of State is of the opinion that this proposed rule is exempt from the provisions of 5 U.S.C. 553, there is no requirement for an analysis under the Regulatory Flexibility Act.

Unfunded Mandates Reform Act of 1995

This proposed rulemaking does not involve a mandate that will result in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Small Business Regulatory Enforcement Fairness Act of 1996

The Department does not believe this rulemaking is a major rule as defined in 5 U.S.C. 804.

Executive Orders 12372 and 13132

This proposed rulemaking will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, in accordance with Executive Order 13132, it is determined that this proposed rulemaking does not have sufficient federalism implications to require consultations or warrant the preparation of a federalism summary impact statement. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this proposed rulemaking.

Executive Orders 12866 and 13563

Executive Orders 12866 and 13563 direct agencies to assess costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributed impacts, and equity). These executive orders stress the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. These rules have been designated “significant regulatory actions,” although not economically significant, under Executive Order 12866. Accordingly, this proposed rule has been reviewed by the Office of Management and Budget (OMB).

Executive Order 12988

The Department of State has reviewed this proposed rulemaking in light of Executive Order 12988 to eliminate ambiguity, minimize litigation, establish clear legal standards, and reduce burden.

Executive Order 13175

The Department of State has determined that this proposed rulemaking will not have tribal implications, will not impose substantial direct compliance costs on Indian tribal governments, and will not preempt tribal law. Accordingly, the provisions of Executive Order 13175 do not apply to this proposed rulemaking.

Paperwork Reduction Act

This rule does not impose any new reporting or recordkeeping requirements subject to the Paperwork Reduction Act, 44 U.S.C. Chapter 35. This rule removes provisions that previously required the applicant to provide seven additional copies for various export license requests. The Department believes that there will be little or no practical burden reduction since the use of electronic methods of filing has made the requirement for “seven copies” obsolete.

The following information collections are affected by this rulemaking:

1. Application/License for Permanent Export of Unclassified Defense Articles and Related Unclassified Technical Data, OMB Control No. 1405–0003;
2. Application/License for Temporary Import of Unclassified Defense Articles, OMB Control No. 1405–0013;
3. Application/License for the Permanent/Temporary Export or Temporary Import of Classified Defense Articles and Classified Technical Data, OMB Control No. 1405–0022;
4. Application/License for Temporary Export of Unclassified Defense Articles, OMB Control No. 1405–0023;
5. Application for Amendment to License for Export or Import of Classified or Unclassified Defense Articles and Related Technical Data OMB Control No. 1405–0092;
6. Request for Approval of Manufacturing License Agreements, Technical Assistance Agreements, and Other Agreements, OMB Control No. 1405–0093;
7. Request to Change End User, End Use and/or Destination of Hardware, OMB Control No. 1405–00173; and
8. Request for Advisory Opinion, OMB Control No. 1405–0174.

The Department is requesting public comment on its estimate that there will be little or no change in the burdens associated with these information collections as a result of this rulemaking.

Date: Comments will be accepted until July 21, 2015.

Addresses: Interested parties may submit comments within 60 days of the date of publication by one of the following methods:

- *Email:* DDTCPublicComments@state.gov, with the subject line “AC88 PRA Burden Reduction”;
- *Internet:* At www.regulations.gov; please search for this proposed rule by using this proposed rule’s RIN (1400–AC88) and indicate that you are commenting on the paperwork burden change in any (or all) of the eight information collections identified above.

Those items subject to the EAR exported pursuant to a Department of State license or other approval would remain under the jurisdiction of the Department of Commerce for any subsequent transactions. The inclusion of items subject to the EAR on a Department of State license or other approval does not change the licensing jurisdiction of the items. ■ 17. Section 126.4 is revised to read as follows:

§ 126.4 Exports and temporary imports made to or on behalf of a department or agency of the U.S. government.

(a) A license is not required for the export or temporary import of a defense article or the performance of a defense service, when made:

(1) To a department or agency of the U.S. government for official use. Defense articles exported or temporarily imported under this provision may only be provided to a regular employee or contractor support personnel of the U.S. government;

Note 1 to paragraph (a): Contractor support personnel means those U.S. persons who provide administrative, managerial, scientific or technical support under contract with a U.S. government department or agency within a U.S. government owned or operated facility or under the direct supervision of a regular U.S. government employee (e.g., Federally Funded Research and Development Center or Systems Engineering and Technical Assistance contractors). For purposes of this section, private security contractors are not considered contractor support personnel, and “direct supervision” refers to the control over the manner and means in which contractor support personnel conduct their day-to-day work activities as well as control over the contractor’s access to defense articles authorized under this paragraph.

Note 2 to paragraph (a): Any retransfer, reexport, disposal, or change in end-user of a defense article exported pursuant to this section must be performed in accordance with § 123.9 of this subchapter.

(2)(i) By, or on behalf of, a department or agency of the U.S. government for carrying out any foreign assistance, cooperative project, or sales program authorized by law and subject to control by the President by other means, provided:

(B) The United States government performs or directs all aspects of the transaction (export, carriage, and delivery abroad) or the export is covered by a U.S. government Bill of Lading.

(ii) This section does not authorize a U.S. government agency to act as a transmittal agent on behalf of a private individual or firm, either as a convenience or in satisfaction of security requirements.

Note to paragraph (a)(2): Approval of a foreign assistance, cooperative project, or sales program authorizing a U.S. government department and agency to permanently export a defense article described on the Missile Technology Control Regime Annex should be reviewed by the Missile Technology Export Committee, unless

authorized by statutory authority providing export authority notwithstanding the Arms Export Control Act.

(b) This section does not authorize any department or agency of the U.S. government to make any export that is otherwise prohibited by virtue of other administrative provisions or by any statute.

(c) An Electronic Export Information (EEI) filing, required under § 123.22 of this subchapter, and a written statement by the exporter certifying that these requirements have been met must be presented at the time of export to the appropriate Port Directors of U.S. Customs and Border Protection or Department of Defense transmittal authority. For any export made pursuant to paragraph (a)(1) of this section, the shipment documents (bill of lading, airway bill, or other transportation documents) must include the following statement:

“For official use by [insert U.S. government department or agency]. Property will not enter the trade of the country to which it is shipped. No export license required per CFR Title 22, section 126.4. U.S. government point of contact: [insert name and telephone number]”.

■ 18. Section 126.9 is amended by revising paragraph (a) to read as follows:

§ 126.9 Advisory opinions and related authorizations.

(a) *Advisory opinion.* A person may request information from the Directorate of Defense Trade Controls on whether it would likely grant a license or other approval for a particular defense article or defense service to a particular country. Such information from the Directorate of Defense Trade Controls is issued on a case-by-case basis and applies only to the particular matters presented to the Directorate of Defense Trade Controls. These opinions are not binding on the Department of State and may not be used in future matters before the Department. A request for an advisory opinion must be made in writing and must outline in detail the equipment, its usage, the security classification (if any) of the articles or related technical data, and the country or countries involved.

COURT SERVICES AND OFFENDER SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

28 CFR Part 810

RIN 3225-AA00

Community Supervision: Administrative Sanctions and GPS Monitoring as a Supervision Tool

AGENCY: Court Services and Offender Supervision Agency for the District of Columbia.

ACTION: Proposed rule.

SUMMARY: In this document, the Court Services and Offender Supervision Agency for the District of Columbia (CSOSA) is proposing to amend its current rule regarding the conditions of release requirements for offenders under CSOSA supervision. In addition, CSOSA will expand the language of the regulation to detail and provide notice of when CSOSA Community Supervision Officers will use electronic monitoring as a tool to assist in supervision.

DATES: Comments must be submitted July 21, 2015.

ADDRESSES: Address all comments concerning this proposed rule to the Office of General Counsel, CSOSA, 13th Floor, 633 Indiana Avenue NW., Washington, DC 20004.

FOR FURTHER INFORMATION CONTACT: Stephanie Carrigg, Assistant General Counsel, at (202) 220-5352 or by email at stephanie.carrigg@csosa.gov.

Questions about this publication are welcome, but inquiries concerning individual cases cannot be answered over the telephone.

SUPPLEMENTARY INFORMATION: The Court Services and Offender Supervision Agency for the District of Columbia (CSOSA) is proposing to amend its regulations concerning the conditions of release requirements for offenders under CSOSA supervision. Specifically, these regulations pertain to the conditions of release that are imposed on an offender when under CSOSA supervision; specifically, the requirement to maintain a certain frequency of face-to-face contact with one's community supervision officer, and the conditions of release that are articulated in the accountability contract that the offender signs with CSOSA. These regulations also detail the consequences that an offender may face for violating the conditions of his or her supervision.

With this amendment, CSOSA will revise the language to reflect that the regulations apply to probationers as well as parolees, and to offenders who

are under supervised release. In addition, CSOSA will expand the language of the regulation to detail and provide notice of when CSOSA Community Supervision Officers will use electronic monitoring as a tool to assist in supervision. Currently, the regulations only reference electronic monitoring as an administrative sanction for an offender who has violated the general or specific conditions of release or who has engaged in criminal activity. The amended language will specify the circumstances under which electronic monitoring is used as a supervision tool, including but not limited to: instances when CSOSA's Community Supervision Services (CSS) Division issues directives to place offenders who fit a certain criminal behavioral pattern on electronic monitoring; and instances when CSS makes an individualized determination to place an offender on electronic monitoring based on an offender's noncompliance with the conditions of his supervised release or for other extenuating circumstances.
