

Preconstruction Review, incorporates by reference 40 CFR 52.21(l), which specifies that air modeling be conducted in accordance with 40 CFR part 51, Appendix W “Guideline on Air Quality Models.” These regulations demonstrate that Florida has the authority to provide relevant data for the purpose of predicting the effect on ambient air quality of the 2008 Lead NAAQS. Additionally, Florida supports a regional effort to coordinate the development of emissions inventories and conduct regional modeling for several NAAQS, including the 2008 Lead NAAQS, for the Southeastern states. Taken as a whole, Florida’s air quality regulations demonstrate that FL DEP has the authority to provide relevant data for the purpose of predicting the effect on ambient air quality of the 2008 Lead NAAQS. EPA has made the preliminary determination that Florida’s SIP and practices adequately demonstrate the State’s ability to provide for air quality and modeling, along with analysis of the associated data, related to the 2008 Lead NAAQS when necessary.

11. 110(a)(2)(L)—Permitting fees: This element necessitates that the SIP require the owner or operator of each major stationary source to pay to the permitting authority, as a condition of any permit required under the CAA, a fee sufficient to cover (i) the reasonable costs of reviewing and acting upon any application for such a permit, and (ii) if the owner or operator receives a permit for such source, the reasonable costs of implementing and enforcing the terms and conditions of any such permit (not including any court costs or other costs associated with any enforcement action), until such fee requirement is superseded with respect to such sources by the Administrator’s approval of a fee program under title V. Florida statute subsection 403.087(6)(a), F.S., *Permit Fees* directs FL DEP to require a processing fee in an amount sufficient for the reasonable cost of reviewing and acting upon PSD and NNSR permits. The local air program costs are covered by the Air Pollution Control Trust Fund which is comprised of various funding sources. Additionally, Florida has a fully approved title V operating permit program at subsection 403.0872, F.S., *Annual Emissions Fee*. and Chapter 62.213, F.A.C. *Operation Permits For Major Sources of Air Pollution* that covers the cost of implementation and enforcement of PSD and NNSR permits after they have been issued. EPA has made the preliminary determination that Florida’s statutes and practices adequately provide for permitting fees related to the 2008 Lead NAAQS, when necessary.

12. 110(a)(2)(M)—Consultation/participation by affected local entities: This element requires states to provide for consultation and participation in SIP development by local political subdivisions affected by the SIP. Chapter 62–204, *Air Pollution Control Provisions*, requires that SIPs be submitted in accordance with 40 CFR part 51, subpart F. Florida statute subsection 403.061(21), F.S. authorizes FDEP to “advise, consult, cooperate and enter into agreements with other agencies of the state, the Federal Government, other states, interstate agencies, groups, political subdivisions, and industries affected by the provisions of this act, rules, or policies of the department.” EPA has made the preliminary determination that Florida’s SIP and practices adequately demonstrate consultation with affected local entities related to the 2008 Lead NAAQS, when necessary.

V. Proposed Action

With the exception of the PSD permitting requirements for major sources contained in sections 110(a)(2)(C), prong 3 of D(i) and (J), EPA is proposing to approve Florida’s October 14, 2011, SIP submission to incorporate provisions into the Florida SIP to address infrastructure requirements for the 2008 Lead NAAQS. EPA is proposing to approve these portions of Florida’s infrastructure submission for the 2008 Lead NAAQS because this submission is consistent with section 110 of the CAA.

VI. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this proposed action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities

under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The Florida SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

SUPPLEMENTARY INFORMATION: LSC is extending the public comment period

stated in the **Federal Register** notice for this rulemaking. 80 FR 21692, Apr. 20, 2015 [FR Doc. No. 2015–8951]. In that notice, LSC proposed amendments to its regulations governing transfers of LSC funds (45 CFR part 1610), subgrants to third parties (45 CFR part 1627), and cost standards and procedures (45 CFR part 1630). LSC has received requests for an extension of the comment period to allow interested parties and stakeholders additional time to develop their comments on the proposed rulemaking, including obtaining data about the potential effects of proposed changes. LSC is therefore extending the comment period for 21 days, from May 20, 2015, to June 10, 2015.

Dated: May 18, 2015.

Stefanie K. Davis,

Assistant General Counsel.
