#### Grand Coulee Project Hydroelectric Authority; Notice of Surrender of Preliminary Permit

Take notice that Grand Coulee Project Hydroelectric Authority, permittee for the proposed Scooteney Outlet Drop Hydroelectric Project, has requested that its preliminary permit be terminated. The permit was issued on March 26, 2013, and would have expired on February 29, 2016.<sup>1</sup> The project would have been located on the Potholes East Canal, near Othello in Franklin County, Washington.

The preliminary permit for Project No. 14317 will remain in effect until the close of business, June 14, 2015. But, if the Commission is closed on this day, then the permit remains in effect until the close of business on the next day in which the Commission is open.<sup>2</sup> New applications for this site may not be

submitted until after the permit surrender is effective.

Dated: May 15, 2015.

#### Southeast Alaska Power Agency; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 Code of Federal Regulations Part 380, Commission staff has reviewed the Southeast Alaska Power Agency's application for amendment of license for the Swan Lake Hydroelectric Project (FERC Project No. 2911) and has prepared an environmental assessment (EA). The project is located on Falls Creek on Revillagigedo Island near Ketchikan, Alaska. The project occupies federal lands administered by the U.S. Forest Service within the Tongass National Forest.

The EA contains Commission staff's analysis of the potential environmental effects of adding spillway gates to the project dam, raising the maximum elevation of the project impoundment by 15 feet, inundating an additional 93 acres, and making structural modifications to the dam and intake structure. The EA concludes that authorizing the amendment, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the e-Library link. Enter the docket number (P-2911) in the docket number field to access the document.
