AGENCY: National Park Service, Interior.

ACTION: Notice; correction.

SUMMARY: Grand Valley State University has corrected an inventory of human remains published in a Notice of Inventory Completion in the **Federal Register** on February 2, 2015. This notice corrects the minimum number of individuals listed in that notice. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to Grand Valley State University. If no additional requestors come forward, transfer of control of the human remains to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Grand Valley State University at the address in this notice by June 22, 2015.

ADDRESSES: Janet G. Brashler, Professor and Curator of Anthropology, Grand Valley State University, 1 Campus Drive, Allendale, MI 49401, telephone (616) 331-3694, email *brashlej@gvsu.edu*.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the correction of an inventory of human remains under the control of Grand Valley State University, Allendale, MI. The human remains were removed from near Muir, Ionia County, MI.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25

U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

This notice corrects the minimum number of individuals published in a Notice of Inventory Completion in the **Federal Register** (80 FR 6014, February 4, 2015). Re-inventory of a collection donated to Grand Valley State University by an avocational archeologist in 2001 revealed the presence of several cranial elements from a minimum number of one individual. No other human remains were identified in the collection. Transfer of control of the items in this correction notice has not occurred.

Correction

In the **Federal Register** (80 FR 6018, February 4, 2015), paragraph 3 is corrected by inserting the following paragraph:

On an unknown date between 1950 and 1990, human remains representing, at minimum, one individual were removed from an archeological site in the vicinity of Muir Michigan in Ionia County by avocational archeologist Buerl Guernsey. Guernsey subsequently donated his collection in 2001 to the Grand Valley State University Department of Anthropology Laboratory. The remains are those of an adult of undetermined sex and were recovered during surface collection from one of a series of sites in the vicinity. The date and time period for the remains is unknown because sites from the Woodland to Late Prehistoric (600 B.C.–A.D. 1640) are present in the area. No known individuals were identified. No associated funerary objects are present.

In the **Federal Register** (80 FR 6018, February 4, 2015), paragraph 4 is corrected by substituting the following paragraph:

Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 112 individuals of Native American ancestry.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR part 250, subpart B, *Plans and Information.*

OMB Control Number: 1014-0024.

Abstract: The Outer Continental Shelf (OCS) Lands Act, as amended (43 U.S.C. 1334), authorizes the Secretary of the Interior to prescribe rules and regulations necessary for the administration of the leasing provisions of that act related to mineral resources on the OCS. Such rules and regulations will apply to all operations conducted under a lease, right-of-use and easement, or unit. Operations on the OCS must preserve, protect, and develop oil and natural gas resources in a manner that is consistent with the need to make such resources available to meet the Nation's energy needs as rapidly as possible; to balance orderly energy resource development with protection of human, marine, and coastal environments; to ensure the public a fair and equitable return on the resources of the OCS; and to preserve and maintain free enterprise competition.

In addition to the general rulemaking authority of the OCSLA at 43 U.S.C. 1334, section 301(a) of the Federal Oil and Gas Royalty Management Act (FOGRMA), 30 U.S.C. 1751(a), grants authority to the Secretary to prescribe such rules and regulations as are reasonably necessary to carry out FOGRMA's provisions. While the majority of FOGRMA is directed to royalty collection and enforcement, some provisions apply to offshore operations. For example, section 108 of FOGRMA, 30 U.S.C. 1718, grants the Secretary broad authority to inspect lease sites for the purpose of determining whether there is compliance with the mineral leasing laws. Section 109(c)(2) and (d)(1), 30 U.S.C. 1719(c)(2) and (d)(1), impose substantial civil penalties for failure to permit lawful inspections and for knowing or willful preparation or submission of false, inaccurate, or misleading reports, records, or other information. Because the Secretary has delegated some of the authority under FOGRMA to BSEE, 30 U.S.C. 1751 is included as additional authority for these requirements.

The Independent Offices Appropriations Act (31 U.S.C. 9701), the Omnibus Appropriations Bill (Pub. L. 104-133, 110 Stat. 1321, April 26, 1996), and OMB Circular A-25, authorize Federal agencies to recover the full cost of services that confer special benefits. Under the Department

of the Interior's implementing policy, the Bureau of Safety and Environmental Enforcement (BSEE) is required to charge fees for services that provide special benefits or privileges to an identifiable non-Federal recipient above and beyond those which accrue to the public at large. Deepwater Operations Plans are subject to cost recovery, and BSEE regulations specify a service fee for this request.

Regulations implementing these responsibilities are among those delegated to BSEE. The regulations under 30 CFR 250, Subpart B, pertain to plans and information that are either submitted to BSEE and/or reviewed by BSEE.

We use the information under § 250.282, we analyze the information to verify that an ongoing/completed OCS operation is/was conducted in compliance with established environmental standards placed on the activity. Under §§ 250.286-295 we analyze and evaluate the information to ensure that planned operations are safe; will not adversely affect the marine, coastal, or human environment; and will conserve the resources of the OCS. We use the information to make an informed decision on whether to approve the proposed deepwater operations plans (DWOPs), or whether modifications are necessary without the analysis and evaluation of the required information.

No questions of a sensitive nature are asked. We protect proprietary information according to the Freedom of Information Act (5 U.S.C. 552) and DOI's implementing regulations (43 CFR 2); 30 CFR 250.197, *Data and information to be made available to the public or for limited inspection*; and 30 CFR part 252, *OCS Oil and Gas Information Program*. Responses are mandatory or are required to obtain or retain a benefit.

Frequency: On occasion.

Description of Respondents: Potential respondents comprise Federal oil, gas, or sulphur lessees and/or operators.

Estimated Reporting and Recordkeeping Hour Burden: The currently approved annual reporting burden for this collection is 18,256 hours. In this submission, we are requesting a total of 37,084 burden hours and \$39,589 non-hour cost burdens. The following chart details the individual components and respective hour burden estimates of this ICR. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.
