B. Regulatory History and Information

The Coast Guard has a long history working with local, state, and federal agencies in areas to improve emergency response, to prepare for events that call for swift action, and to protect our nation. The Coast Guard is proposing to establish this safety zone on the waters of the Allegheny and Monongahela Rivers in Pittsburgh, Pennsylvania for the Southside Outside Paddleboard Marine Event. The marine event is scheduled to take place from 8:00 a.m. to 4:00 p.m. on September 5, 2015. This proposed rule is necessary to protect the safety of the participants, spectators, commercial traffic, and the general public on the navigable waters of the United States during the event.

C. Basis and Purpose

The legal basis and authorities for this proposed rule are found in 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1; 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1, which collectively authorize the Coast Guard to propose, establish, and define regulatory safety zones. The purpose of this proposed safety zone is to protect public boaters and their vessels from potential safety hazards associated with the Paddleboard marine event on the Allegheny and Monongahela Rivers, Pittsburgh, Pennsylvania.

D. Discussion of Proposed Rule

This proposed rule is necessary to establish a Safety Zone that will encompass certain waters of the Allegheny and Monongahela Rivers in Pittsburgh, Pennsylvania. The proposed Safety Zone regulations would be enforced from approximately 8:00 a.m.

to 4:00 p.m. for approximately 8 hours on September 5, 2015. As proposed, the Safety Zone would extend 200 feet from the left bank of the Allegheny River Mile 0.0 to 0.25 and extend 200 feet from the right bank of the Monongahela River Mile 0.0 to 3.09 from 8:00 a.m. to 11:00 a.m. September 5, 2015. A safety zone is also proposed to extend 300 feet from the left bank of the Monongahela River Mile 2.32 to 3.09 from 11:00 a.m. to 4:00 p.m. September 5, 2015. All persons and vessels, except those persons and vessels participating in the paddleboard marine event and those vessels enforcing the areas, would be prohibited from entering, transiting through, anchoring in, or remaining within the proposed safety zone areas.

Persons and vessels may request authorization to enter, transit through, anchor in, or remain within the enforcement areas by contacting the Captain of the Port Pittsburgh by telephone at (412) 221–0807, or a designated representative via VHF radio on channel 16. If authorization to enter, transit through, anchor in, or remain within the enforcement areas is granted by the Captain of the Port Pittsburgh or a designated representative, all persons and vessels receiving such authorization must comply with the instructions of the Captain of the Port Pittsburgh or a designated representative.

E. Regulatory Analyses

We developed this proposed rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes or executive orders.

1. Regulatory Planning and Review

This proposed rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, as supplemented by Executive Order 13563, Improving Regulation and Regulatory Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of Executive Order 12866 or under section 1 of Executive Order 13563. The Office of Management and Budget has not reviewed it under those Orders. The temporary safety zone listed in this proposed rule will only restrict vessel traffic from entering, transiting, or anchoring within a small portion of the Allegheny and Monongahela Rivers. The effect of this proposed regulation will not be significant for several reasons: (1) this rule will not affect vessel traffic; (2) the impacts on routine navigation are expected to be minimal because notifications to the marine community will be made through local

notice to mariners (LNM) and broadcast notice to mariners (BNM). Therefore, these notifications will allow the public to plan operations around the proposed safety zone and its enforcement times.

2. Impact on Small Entities

The Regulatory Flexibility Act of 1980 (RFA), 5 U.S.C. 601–612, as amended, requires federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this proposed rule will not have a significant economic impact on a substantial number of small entities.

This proposed rule will affect the following entities, some of which may be small entities: the owners or operators of vessels intending to transit the Allegheny River from mile 0 to mile 0.25 and Monongahela River mile 0 to mile 3.09 effective from 8:00 a.m. to 4:00 p.m. on September 5, 2015. This proposed safety zone will not have a significant economic impact on a substantial number of small entities because this proposed rule will not impede navigational traffic. Traffic in this area is limited to almost entirely recreational vessels and commercial towing vessels. Notifications to the marine community will be made through BNMs and electronic mail. Notices of changes to the proposed safety zone and scheduled effective times and enforcement periods will also be made. Deviation from the proposed restrictions may be requested from the COTP or designated representative and will be considered on a case-by-case basis.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this rule would have a significant economic impact on it, please submit a comment (see **ADDRESSES**) explaining why you think it qualifies and how and to what degree this rule would economically affect it.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this proposed rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person

listed in the **FOR FURTHER INFORMATION CONTACT**, above. The Coast Guard will not retaliate against small entities that question or complain about this proposed rule or any policy or action of the Coast Guard.

4. Collection of Information

This proposed rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520.).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this proposed rule under that Order and determined that this rule does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this proposed rule would not result in such expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This proposed rule would not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This proposed rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children From Environmental Health Risks

We have analyzed this proposed rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This proposed rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it would not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This proposed rule is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This proposed rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this proposed rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have made a preliminary determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This proposed rule involves establishing temporary safety zones. Safety Zone extending 200 feet from the left bank Allegheny River Mile 0.0 to 0.25 and extending 200 feet from the right bank Monongahela River Mile 0.0 to 3.09 from 8:00 a.m. to 11:00 a.m. September 5, 2015. A safety zone will also be established extending 300 feet from the left bank Monongahela River Mile 2.32 to 3.09 from 11:00 a.m. to 4:00 p.m. September 5, 2015. This rule is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. A preliminary environmental analysis checklist

supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this proposed rule.

Proposed Priority: This notice contains one proposed priority.

Institute on Rehabilitation Issues.

Background: For more than 55 years, the Institute on Rehabilitation Issues (IRI) has been a national forum for discussing the important challenges facing the State VR Services Program. The IRI has also developed publications for use in training and TA for VR counselors, consumers, administrators, and other partners in the VR process. IRI publications have provided a unique perspective on emerging issues and promising practices in VR and are widely used by counselors and supervisors, human resource development (HRD) specialists, community-based rehabilitation service providers, administrators, researchers, and education and policy analysts (The George Washington University and University of Arkansas CURRENTS, 2015).

The Workforce Innovation and Opportunity Act of 2014 (WIOA) places a greater emphasis on incorporating job-driven training approaches into the VR service delivery system and on increasing employment outcomes for individuals with disabilities. One of these approaches includes working with employers to create on-the-job training opportunities that are responsive to the needs of employers and that provide individuals with skills that they need to obtain competitive integrated
