SUPPLEMENTARY INFORMATION:

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for

determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Using datasets and initial assessment analysis recommended from the In-person Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.

2. Panelists will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Record of Decision for the Piñon Canyon Maneuver Site Training and Operations Final Environmental Impact Statement

AGENCY: Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army and Fort Carson announce the decision to conduct training using new tactics, equipment, infrastructure improvements, and management methods at Piñon Canyon Maneuver Site (PCMS), CO. The action was the preferred alternative identified in the Final Environmental Impact Statement (EIS) for proposed training and operations at PCMS. PCMS is the maneuver site for Fort Carson and is located near Trinidad, CO, approximately 150 miles southeast of Fort Carson. The Record of Decision (ROD) explains the potential environmental and socioeconomic impacts associated with the selected action, which is to conduct realistic, coordinated, large-scale training that integrates the ground and air resources of Fort Carson's mechanized, infantry, support, and combat aviation units. The selected alternative provides the proper balance of initiatives for the protection of environmental and mission-essential actions. The ROD also adopts mitigation that will reduce or eliminate adverse impacts.

The selected action will establish new brigade-level training intensity measures, update brigade training and equipment requirements, enable the Stryker family of vehicles to train at PCMS, and add enhanced readiness training, to include new activities and infrastructure at PCMS. The action does not include, nor would it require, land expansion of PCMS.

ADDRESSES: The ROD can be obtained at <http://www.carson.army.mil/DPW/nepa.html>. Written requests to obtain a copy of the ROD may be sent by email to usarmy.carson.imcom-central.list.dpw-ed-nepa@mail.mil or by postal service to the Fort Carson NEPA Program Manager, Directorate of Public Works, Environmental Division, 1626 Evans Street, Building 1219, Fort Carson, CO 80913-4362.
