FOR FURTHER INFORMATION CONTACT: Michel Smyth by telephone at 202-693-4129, TTY 202-693-8064, (these are not toll-free numbers) or by email at DOL_PRA_PUBLIC@dol.gov.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Disclosures by Insurers to General Account Policyholders information collection. Regulations 29 CFR 2550.401(c)-1 imposes specific requirements on insurers that are parties to transition policies, in order to ensure fiduciaries acting on behalf of plans have adequate information and understanding of how the transition policies work. Certain of these requirements constitute information collections subject to the PRA. Specifically, to the extent a transition policy first issued prior to January 1, 1999, to or for the benefit of an employee benefit plan is not a guaranteed benefit policy, the insurer must annually disclose to the plan fiduciary: (1) The methods by which income and expenses of the insurer's general account are allocated to the policy, the actual annual return to the plan, and other pertinent information; (2) the extent to which alternative

arrangements supported by the assets of the insurer's separate accounts are available; (3) any rights under the policy to transfer funds to a separate account and the terms governing such right; and (4) the extent to which support by assets of the insurer's separate accounts might pose differing risks to the plan. Employee Retirement Income Security Act section 404(c) authorizes this information collection. See 29 U.S.C. 1104(c).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1210-0114.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on June 30, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on October 15, 2014 (79 FR 61903).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1210-0114. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

NATIONAL SCIENCE FOUNDATION

Proposal Review; Notice of Meetings

In accordance with the Federal Advisory Committee Act (Pub., L. 92-463, as amended), the National Science Foundation (NSF) announces its intent to hold proposal review meetings throughout the year. The purpose of these meetings is to provide advice and recommendations concerning proposals submitted to the NSF for financial support. The agenda for each of these meetings is to review and evaluate proposals as part of the selection process for awards. The review and evaluation may also include assessment of the progress of awarded proposals. The majority of these meetings will take place at NSF, 4201 Wilson Blvd., Arlington, Virginia 22230.

These meetings will be closed to the public. The proposals being reviewed include information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are exempt under 5 U.S.C. 552b(c), (4) and (6) of the Government in the Sunshine Act. NSF will continue to review the agenda and merits of each meeting for overall compliance of the Federal Advisory Committee Act.

These closed proposal review meetings will not be announced on an individual basis in the **Federal Register**. NSF intends to publish a notice similar to this on a quarterly basis. For an advance listing of the closed proposal review meetings that include the names of the proposal review panel and the

time, date, place, and any information on changes, corrections, or cancellations, please visit the NSF Web site: <http://www.nsf.gov/events/>. This information may also be requested by telephoning, 703/292-8687.

Dated: May 26, 2015.

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Grantees of SEES and Comparable Non-SEES Programs.

OMB Number: 3145-NEW.

Type of request: Intent to seek approval for ICR.

Abstract

In 2010, NSF established the SEES Portfolio as a multi-year effort to coordinate Agency research and education activities related to the environment, energy and sustainability. The overarching goals of the SEES portfolio are to (1) support interdisciplinary research and education that can facilitate the move towards global sustainability; (2) build linkages among existing projects and partners and add new participants in the sustainability research enterprise; and (3) develop a workforce trained in the interdisciplinary scholarship needed to understand and address the complex issues of sustainability.

NSF is supporting an evaluation of the SEES portfolio to determine the extent to which it has achieved its program- and portfolio-level goals. Specifically, the evaluation seeks to measure the output and outcomes of SEES in terms of the development of new knowledge and concepts that advance the overarching goal of a sustainable human future, new and productive connections made between researchers in a range of disciplines, and the development of a workforce capable of meeting sustainability challenges.

This comment request relates to a proposed *survey of NSF grant recipients*. The survey respondents are principal investigators (PIs) in NSF-funded SEES and comparable non-SEES projects. The survey will collect information on respondents' career pathways, NSF grant activities, and the development of interdisciplinary networks of scholars among researchers.

I. Review Focus

NSF is interested in comments on the practical utility of the survey in view of the project goals and the study approach, the burden on respondents and potential ways to minimize it.
