BILLING CODE 7020-02-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Safe Drinking Water Act

On May 21, 2015, the Department of Justice lodged a proposed consent decree with the United States District Court for the Southern District of New York in the lawsuit entitled *United States v. County of Westchester, New York*, Civil Action No. 13 Civ. 5475 (NSR).

The United States filed this lawsuit under the Safe Drinking Water Act (the "Act"). The complaint alleges that the County of Westchester, New York (the "Defendant") violated the Act by failing to ensure that Westchester County Water District No. 1 ("Water District No. 1") was in compliance with the Long Term 2 Enhanced Surface Water Treatment Rule (the "Enhanced Water Treatment Rule"), a regulation promulgated pursuant to the Act. The

Enhanced Water Treatment Rule required certain public water systems, including Water District No. 1, to implement measures by April 1, 2012 to treat water to prevent *Cryptosporidium* contamination.

The proposed consent decree requires Defendant to perform injunctive relief to bring Water District No. 1 into compliance with the Enhanced Water Treatment Rule. While the injunctive relief is being completed, the proposed consent decree requires Defendant to perform interim measures to provide water that is in compliance with the Enhanced Water Treatment Rule to portions of Water District No. 1 for portions of each year. In addition, the proposed consent decree requires Defendant to pay a civil penalty of \$1,108,771, and to perform three supplemental environmental projects ("SEPs") for the benefit of the residents of Water District No. 1. The SEPs, which have a combined value of \$691,229, require Defendant to: (i) Increase the number of days during which the unused pharmaceuticals of residents of Water District No. 1 will be accepted at Defendant's Household Materials Recovery Facility or at other designated sites; (ii) increase the number of days during which the unused hazardous household chemicals of residents of Water District No. 1 will be accepted at Defendant's Household Materials Recovery Facility or at other designated sites; and (iii) purchase at least \$100,000 worth of 55-gallon rain barrels for residential collection and storage of roof rainwater runoff, to be distributed to residents of Water District No. 1. The Consent Decree resolves the claims of the United States for the violations alleged in the complaint through the date of lodging of the proposed consent decree.

The publication of this notice opens a period for public comment on the proposed consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. County of Westchester, New York*, 13 Civ. 5475 (NSR), D.J. Ref. No. 90-5-1-1-10536. All comments must be submitted no later than thirty (30) days after the publication date of this notice. The current expiration date for OMB authorization for this information collection is October 31, 2015.

ADDRESSES: Written comments regarding the burden-hour estimates or other aspects of the information collection requirements contained in 20 CFR part 655, subpart A may be submitted to: William W. Thompson, II, Acting Administrator, Office of Foreign Labor Certification, Room C-4312, 200 Constitution Avenue NW., Washington DC 20210.

FOR FURTHER INFORMATION CONTACT: Brian Pasternak, National Director of Temporary Programs, Office of Foreign Labor Certification, Room C-4312, Employment & Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. SUPPLEMENTARY INFORMATION: OMB has approved the information collection requirements under the PRA contained in two recently revised final regulations in the H-2B Temporary Non-Agricultural Employment Programs published by the Department of Labor in the **Federal Register** on April 29, 2015 at 80 FR 24042 and 80 FR 24146. The preamble to the new regulations stated an effective date of April 29, 2015; however, the regulations were published without specific information about the exact expiration dates or the new control number for the ETA-9165. An agency may not conduct an information collection unless it has a currently valid OMB approval. 44 U.S.C. 3506(c)(1)(B)(iii)(V). OMB issued a formal Notice of Approval on April 29, 2015 after the rules had already been placed on the **Federal Register's** Electronic Public Inspection Desk and could not be edited to include the OMB control number and exact expiration dates. This is a notice to the public to

inform it of the approval of the forms and information collections on the effective date of the rules and to provide the OMB control numbers and expiration dates. The expiration date for OMB authorization for both OMB control numbers 1205-0509 and 1205-0516 and the information collections found therein is October 31, 2015. Because the information collections were approved under PRA emergency procedures codified in 5 CFR 1320.13, the Department will be publishing Notices in the **Federal Register** that invite public comment on the collection requirements as required under 5 CFR 1320.8 in anticipation of extending the information collection requests.
