RIN 0648–XD975

Nominations to the Marine Fisheries Advisory Committee

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for nominations.

SUMMARY: Nominations are being sought for appointment by the Secretary of Commerce to fill vacancy openings on the Marine Fisheries Advisory Committee (MAFAC or Committee) pending late October 2015. MAFAC is the only Federal advisory committee with the responsibility to advise the Secretary of Commerce (Secretary) on all matters concerning living marine resources that are the responsibility of the Department of Commerce. The Committee makes recommendations to the Secretary to assist in the development and implementation of Departmental regulations, policies, and programs critical to the mission and goals of NMFS. Nominations are encouraged from all interested parties involved with or representing interests affected by NMFS actions in managing living marine resources. Nominees should possess demonstrable expertise in a field related to the management of living marine resources and be able to fulfill the time commitments required for two annual meetings and year round subcommittee work. Individuals serve for a term of three years for no more than two consecutive terms if re-appointed. NMFS is seeking qualified nominees to fill upcoming vacancies being created by term limits.

DATES: Nominations must be postmarked or have an email date stamp on or before July 20, 2015.

ADDRESSES: Nominations should be sent to Jennifer Lukens, Executive Director, MAFAC, Office of Policy, NMFS F-14553, 1315 East-West Highway, Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: Jennifer Lukens, MAFAC Executive Director; (301) 427–8004; email: jennifer.lukens@noaa.gov.

SUPPLEMENTARY INFORMATION: The establishment of MAFAC was approved by the Secretary on December 28, 1970, and subsequently chartered under the Federal Advisory Committee Act, 5 U.S.C. App. 2, on February 17, 1971. The Committee meets twice a year with supplementary subcommittee meetings

as determined necessary by the Committee Chair and Subcommittee Chairs. No less than 15 and no more than 21 individuals may serve on the Committee. Membership is comprised of highly qualified, diverse individuals representing commercial, recreational, subsistence, and aquaculture fisheries interests; seafood industry; environmental organizations; academic institutions; tribal and consumer groups; and other living marine resource interest groups from a balance of U.S. geographical regions, including the Western Pacific and Caribbean.

A MAFAC member cannot be a Federal employee, a member of a Regional Fishery Management Council, a registered Federal lobbyist, or a State employee. Selected candidates must pass a security check and submit a financial disclosure form. Membership is voluntary, and except for reimbursable travel and related expenses, service is without pay.

Each nomination submission should include the nominee's name, a cover letter describing the nominee's qualifications and interest in serving on the Committee, curriculum vitae or resume of the nominee, and no more than three supporting letters describing the nominee's qualifications and interest in serving on the Committee. Self-nominations are acceptable. The following contact information should accompany each nominee's submission: Name, address, telephone number, fax number, and email address (if available).

Nominations should be sent to (see **ADDRESSES**) and must be received by July 20, 2015. The full text of the Committee Charter and its current membership can be viewed at the NMFS' Web page at www.nmfs.noaa.gov/mafac.htm.

Dated: May 29, 2015.

Samuel D. Rauch III,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

Atlantic Coastal Fisheries Cooperative Management Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The NMFS Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, has made a preliminary determination that an Exempted Fishing Permit application contains all of the required information and warrants further consideration. This Exempted Fishing Permit would allow eight commercial lobster vessels to participate in a lobster growth and abundance study, under the direction of Massachusetts Division of Marine Fisheries in state and Federal waters off the coast of Massachusetts.

Regulations under the Magnuson-Stevens Fishery Conservation and Management Act and the Atlantic Coastal Fisheries Cooperative Management Act require publication of this notification to provide interested parties the opportunity to comment on Exempted Fishing Permit applications.

DATES: Comments must be received on or before June 19, 2015.

ADDRESSES: You may submit written comments by any of the following methods:

- *Email:* NMFS.GAR.EFP@noaa.gov. Include in the subject line “Comments on MA DMF Lobster Study EFP.”

- *Mail:* John K. Bullard, Regional Administrator, NMFS, Greater Atlantic Regional Fisheries Office, 55 Great Republic Drive, Gloucester, MA 01930. Mark the outside of the envelope “Comments on MA DMF Lobster Study EFP.”

FOR FURTHER INFORMATION CONTACT: Sustainable Fisheries Division, 978–281–9315.

SUPPLEMENTARY INFORMATION: The Massachusetts Division of Marine Fisheries (MA DMF) submitted a complete application for an Exempted Fishing Permit (EFP) to conduct a 2-year lobster abundance survey with modified lobster gear that Federal regulations would otherwise restrict. The purpose of this lobster study is to provide fishery-independent data on lobster

abundance in Massachusetts state waters of statistical area 514, from Ipswich Bay south to Cape Cod Bay; and state and Federal waters of Buzzards Bay, Vineyard Sound, and nearshore portions of Rhode Island Sound, in statistical areas 537 and 538. Currently, lobster abundance and distribution studies are primarily conducted through fishery independent, random stratified bottom-trawl surveys. MA DMF has stated that trawl surveys lack the capability to efficiently target areas with rocky bottom where lobsters also reside, and is seeking an EFP to use fixed lobster gear to sample such areas.

The EFP would authorize commercial lobster vessels to set, haul, and retain on board lobster traps with closed escape vents during sampling activity. Following a soak time ranging from 3 to 5 days, these lobster traps would be hauled twice per month on dedicated sampling trips, with at least one scientist from MA DMF on board during sampling activity. During sampling trips, no catch will be retained for sale or sold.

MA DMF requests exemption from lobster gear regulations to allow for closed escape vents in order to catch lobsters of all sizes. MA DMF is also requesting exemption from lobster trap limits. This would allow participating vessels to retain on-board survey lobster traps that may cause vessels to exceed their permitted allocation for Lobster Management Area (LMA) 1 (800 trap limit) or LMA 2 (historical qualification up to 800 trap limit). Federal lobster regulations require each active lobster trap to have a commercial trap tag permanently affixed. MA DMF is requesting exemption from this requirement because survey traps will be tagged with "MA DMF Research Trap."

MA DMF is also requesting exemption from the management area designation requirement to allow one Federal lobster permit holder to fish experimental traps in LMA 2 while having an LMA 3 designation on his Federal permit. This exemption would allow the vessel to set survey traps in an area not designated on his permit. This exemption would not allow him to commercially fish and/or land lobsters caught with traps in LMA 2.

Site selection would be based on a random stratified sampling design, consistent with standardized methodology used to perform lobster surveys. All catch during dedicated research trips would be retained on-board for a short period of time to allow MA DMF staff to record the following information: Number of lobsters caught; number of traps hauled; set-over days;

trap and bait type; lobster carapace length; sex; shell hardness; culls and other shell damage; external gross pathology including symptoms of shell disease; mortality; and ovigerous status. MA DMF is requesting exemption from management measures of LMA 1 and 2 for lobster size restrictions, v-notch possession, and egg-bearing lobster possession. MA DMF plans on retaining a small amount of lobsters for growth and maturity research purposes.

If approved, MA DMF may request minor modifications and extensions to the EFP throughout the study. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 1, 2015.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Proposed Collection; Comment Request

AGENCY: Deputy Chief of Staff, G-1, Technology and Business Architecture Integration Directorate, Army Library Program, Army, DOD.

ACTION: Notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Deputy Chief of Staff, G-1, Technology and Business Architecture Integration Directorate, Army Library Program announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by August 3, 2015.
