

PUMS be incorporated into the MSP guidelines as an alternative to certain requirements in 46 CFR part 62. The Coast Guard agrees with this comment and has incorporated a general alternative provision into the NVIC change. Additionally, the interim provisions provide for continual MAMS/PUMS operation until the next credit dry dock (not including UWILD) one year from the publication date of Change-1 to NVIC 01-13.

The remainder of comments received were technical in nature, and are discussed in the comment matrix available in the docket. Upon reviewing these specific comments, the Coast Guard has included additional guidance that maximizes flexibility by promoting alternative inspection programs. Principally, revisions were made to streamline the automation approval process, provide a standardized equivalency for design and technical specifications under ACP supplements, and clarify the provisions for servicing certain firefighting equipment and liferafts.

This notice is issued under authority of 5 U.S.C. 552(a).

Dated: May 26, 2015.

Paul F. Thomas,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Prevention Policy.

BILLING CODE 9110-04-P

CBPL No.	ASTM	Title
27-08	D86	Standard Test Method for Distillation of Petroleum Products.
27-48	D4052	Standard Test Method for Density and Relative Density of Liquids by Digital Density Meter.
N/A	D1364	Standard Test Method for Water in Volatile Solvents (Karl Fischer Reagent Titration Method).

Anyone wishing to employ this entity to conduct laboratory analyses and gauger services should request and receive written assurances from the entity that it is accredited or approved by the U.S. Customs and Border Protection to conduct the specific test or gauger service requested. Alternatively, inquiries regarding the specific test or gauger service this entity is accredited or approved to perform may be directed to the U.S. Customs and Border Protection by calling (202) 344-1060. The inquiry may also be sent to CBPGaugersLabs@cbp.dhs.gov. Please reference the Web site listed below for a complete listing of CBP approved gaugers and accredited laboratories. <http://www.cbp.gov/about/labs-scientific/commercial-gaugers-and-laboratories>.

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Accreditation and Approval of Laboratory Service, Inc., as a Commercial Gauger and Laboratory

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of accreditation and approval of Laboratory Service, Inc., as a commercial gauger and laboratory.

SUMMARY: Notice is hereby given, pursuant to CBP regulations, that Laboratory Service, Inc., has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes for the next three years as of November 6, 2014.

DATES: The accreditation and approval of Laboratory Service, Inc., as commercial gauger and laboratory became effective on November 6, 2014. The next triennial inspection date will be scheduled for November 2017.

FOR FURTHER INFORMATION CONTACT: Approved Gauger and Accredited Laboratories Manager, Laboratories and Scientific Services Directorate, U.S. Customs and Border Protection, 1300 Pennsylvania Avenue NW., Suite

1500N, Washington, DC 20229, tel. 202-344-1060.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to 19 CFR 151.12 and 19 CFR 151.13, that Laboratory Service, Inc., 11731 Port Rd., Seabrook, TX 77586, has been approved to gauge petroleum and certain petroleum products and accredited to test petroleum and certain petroleum products for customs purposes, in accordance with the provisions of 19 CFR 151.12 and 19 CFR 151.13. Laboratory Service, Inc., is approved for the following gauging procedures for petroleum and certain petroleum products from the American Petroleum Institute (API):

API chapters	Title
3	Tank gauging.
7	Temperature determination.
8	Sampling.
12	Calculations.
17	Maritime measurement.

Laboratory Service, Inc., is accredited for the following laboratory analysis procedures and methods for petroleum and certain petroleum products set forth by the U.S. Customs and Border Protection Laboratory Methods (CBPL) and American Society for Testing and Materials (ASTM):

Dated: May 26, 2015.

Ira S. Reese,

Executive Director, Laboratories and Scientific Services Directorate.
