

§ 552.11 Searches of inmates.

(a) *Electronic devices.* Inspection of an inmate's person using electronic devices (for example, metal detector, ion spectrometry device, or body imaging search device) does not require the inmate to remove clothing. The inspection may also include a search of the inmate's clothing and personal effects. Staff may conduct an electronic device search of an inmate on a routine or random basis to control contraband.

■ 3. Revise § 552.13 to read as follows:

§ 552.13 Medical x-ray device, major instrument, or surgical intrusion.

(a) The institution physician may authorize use of a major instrument (including anoscope or vaginal speculum) or surgical intrusion for medical reasons only, with the inmate's consent.

(b) The institution physician may authorize use of a medical x-ray device for medical reasons and only with the consent of the inmate. When there exists no reasonable alternative, and an examination using a medical x-ray device is determined necessary for the security, good order, or discipline of the institution, the Warden, upon approval of the Regional Director, may authorize the institution physician to order a non-repetitive examination using a medical x-ray device for the purpose of determining if contraband is concealed in or on the inmate (for example: In a cast or body cavity). The examination using a medical x-ray device may not be performed if it is determined by the institution physician that it is likely to result in serious or lasting medical injury or harm to the inmate. Staff shall place documentation of the examination and the reasons for the examination in the inmate's central file and medical file.

(1) The Warden and Regional Director or persons officially acting in that capacity may not redelegate the authority to approve an examination using medical x-ray device for the purpose of determining if contraband is present. An Acting Warden or Acting Regional Director may, however, perform this function.

(2) Staff shall solicit the inmate's consent prior to an examination using a

medical x-ray device. However, the inmate's consent is not required.

(c) The Warden may direct searches of inanimate objects using a medical x-ray device where the inmate is not exposed.

DEPARTMENT OF DEFENSE**Department of the Navy****32 CFR Part 706****Certifications and Exemptions Under the International Regulations for Preventing Collisions at Sea, 1972**

AGENCY: Department of the Navy, DoD.
ACTION: Final rule.

SUMMARY: The Department of the Navy (DoN) is amending its certifications and exemptions under the International Regulations for Preventing Collisions at Sea, 1972, as amended (72 COLREGS), to reflect that the Deputy Assistant Judge Advocate General (DAJAG) (Admiralty and Maritime Law) has determined that USS DETROIT (LCS 7) is a vessel of the Navy which, due to its special construction and purpose, cannot fully comply with certain provisions of the 72 COLREGS without interfering with its special function as a naval ship. The intended effect of this rule is to warn mariners in waters where 72 COLREGS apply.

DATES: This rule is effective June 5, 2015 and is applicable beginning May 13, 2015.

FOR FURTHER INFORMATION CONTACT:

Commander Theron R. Korsak, (Admiralty and Maritime Law), Office of the Judge Advocate General, Department of the Navy, 1322 Patterson Ave. SE., Suite 3000, Washington Navy Yard, DC 20374-5066, telephone number: 202-685-5040.

SUPPLEMENTARY INFORMATION: Pursuant to the authority granted in 33 U.S.C. 1605, the DoN amends 32 CFR part 706.

This amendment provides notice that the DAJAG (Admiralty and Maritime Law), of the DoN, under authority delegated by the Secretary of the Navy, has certified that USS DETROIT (LCS 7) is a vessel of the Navy which, due to its special construction and purpose,

cannot fully comply with the following specific provisions of 72 COLREGS without interfering with its special function as a naval ship: Annex I paragraph 2(a)(i), pertaining to the location of the forward masthead light at a height not less than 12 meters above the hull; Annex I, paragraph 3(a), pertaining to the location of the forward masthead light in the forward quarter of the ship, and the horizontal distance between the forward and after masthead lights. The DAJAG (Admiralty and Maritime Law) has also certified that the lights involved are located in closest possible compliance with the applicable 72 COLREGS requirements.

Moreover, it has been determined, in accordance with 32 CFR parts 296 and 701, that publication of this amendment for public comment prior to adoption is impracticable, unnecessary, and contrary to public interest since it is based on technical findings that the placement of lights on this vessel in a manner differently from that prescribed herein will adversely affect the vessel's ability to perform its military functions.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is promulgating significant new use rules (SNURs) under the Toxic Substances Control Act (TSCA) for 22 chemical substances which were the subject of premanufacture notices (PMNs). Two of these chemical substances are subject to TSCA section 5(e) consent orders issued by EPA. This action requires persons

who intend to manufacture (including import) or process any of these 22 chemical substances for an activity that is designated as a significant new use by this rule to notify EPA at least 90 days before commencing that activity. The required notification will provide EPA with the opportunity to evaluate the intended use and, if necessary, to prohibit or limit that activity before it occurs.

Written adverse or critical comments, or notice of intent to submit adverse or critical comments, on one or more of these SNURs must be received on or before July 6, 2015 (see Unit VI. of the **SUPPLEMENTARY INFORMATION**). If EPA receives written adverse or critical comments, or notice of intent to submit adverse or critical comments, on one or more of these SNURs before July 6, 2015, EPA will withdraw the relevant sections of this direct final rule before its effective date.
