BJS uses the information gathered in NCRP in published reports and statistics. The reports will be made available to the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, others interested in criminal justice statistics, and the general public via the BJS Web site.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* BJS anticipates 57 respondents to NCRP for report year 2015: 50 state respondents and seven separate state parole boards. Each respondent currently submitting NCRP prison and post-custody community supervision data will require an estimated 27 hours of time to supply the information for their annual caseload and an additional 3 hours documenting or explaining the data for a total of 1,317 hours. For the one state which has not submitted prison data since 2004, and the 19 states that do not currently submit post-custody community supervision data, the total first year's burden estimate is 510 hours, which includes the time required for developing or modifying computer programs to extract the data, performing and checking the extracted data, and submitting it electronically to BJS' data collection agency via SFTP. The total burden for all 57 NCRP data providers, including the pilot probation data, is 1,827 hours for report year 2015. In report year 2017, 5 states will be asked to pilot test the provision of probation data during report year 2015. BJS estimates that this new extraction of data will take 24 hours per state, or 120 hours total. The total burden estimate for report year 2017 including the collection of probation data from 5 states is 1,628 hours. All states submit data via a secure file transfer protocol (SFTP) electronic upload.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 1,827 total burden hours associated with this collection for report year 2015.

On May 19, 2015, the Department of Justice lodged a proposed First Amendment to Consent Decree with the United States District Court for the District of Columbia, in the lawsuit entitled *United States of America v. District of Columbia Water and Sewer Authority, et al., and the District of Columbia*, Civil Action No. 1:00-cv-00183 (TFH).

The proposed First Amendment to Consent Decree, if approved, will amend and supersede the 2005 Clean Water Act Consent Decree in the same action. Construction of the Anacostia tunnel has begun according to schedule and will not be affected by this proposed Amendment. The final compliance date of 2025 imposed in the 2005 Consent Decree would be extended to 2030.
