on facts available to establish Dubai Wire’s weighted-average dumping margin and we have continued to rely on facts available with an adverse inference to establish Precision’s weighted-average dumping margin in these final results. Therefore, we will instruct CBP to apply *ad valorem* assessment rates of 18.13 percent, and 184.41 percent to all entries of subject merchandise during the POR which were produced and/or exported by Dubai Wire and Precision, respectively.

We intend to issue instructions to CBP 15 days after publication of the final results of this review.

The following deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of certain steel nails from the UAE entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) the cash deposit rate for Dubai Wire and Precision will be the rates established in the final results of this administrative review; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation but the manufacturer is, the cash deposit rate will be the rate established for the manufacturer of the merchandise for the most recently completed segment of this proceeding; (4) the cash deposit rate for all other manufacturers or exporters will continue to be 4.30 percent.<sup>4</sup> These cash deposit requirements, when imposed, shall remain in effect until further notice.

**Notification to Importers**

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Department’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

**Methodology**

The Department conducted this review in accordance with section 751(a)(1)(A) of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, we preliminarily find that there is a subsidy, *i.e.*, a government-provided financial contribution that gives rise to a benefit to the recipient, and that the subsidy is specific.<sup>7</sup> For a full description of the methodology underlying all of the Department's conclusions, including our reliance, in part, on adverse facts available pursuant to sections 776(a) and (b) of the Act, *see* the Preliminary Decision Memorandum.

A list of topics discussed in the Preliminary Decision Memorandum is provided as an Appendix to the notice. The Preliminary Decision Memorandum is a public document and is on file electronically *via* Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and in the Central Records Unit, room 7046 of the main Department of Commerce building. (Beijing Jangho); and Shanghai Jangho Curtain Wall System Engineering Co., Ltd., (Shanghai Jangho).

We were not able to make a preliminary determination concerning the countervailability of certain programs because we require additional information and/or need more time to consider information that was received close to the date of these preliminary results.<sup>8</sup> We intend to address these programs in a post-preliminary analysis memorandum.

**Partial Rescission of Review**

For those companies named in the *Initiation Notice*<sup>9</sup> for which all review requests have been timely withdrawn, we are rescinding this administrative review in accordance with 19 CFR 351.213(d)(1). These companies are listed at Appendix II to this notice. For these companies, countervailing duties shall be assessed at rates equal to the rates of the cash deposits for estimated countervailing duties required at the time of entry, or withdrawal from warehouse, for consumption, during the period January 1, 2013 through

December 31, 2013, in accordance with 19 CFR 351.212(c)(2).

**Intent To Rescind Administrative Review, In Part**

Between August 1, 2014 and September 5, 2014, the Department received timely no-shipment certifications from certain companies.<sup>10</sup> Because there is no evidence on the record to indicate that these companies had entries of subject merchandise during the POR, pursuant to 19 CFR 351.213(d)(3), we intend to rescind the review with respect to these companies. A final decision regarding whether to rescind the review of these companies will be made in the final results of this review.

**Preliminary Rate for Non-Selected Companies Under Review**

There are 37 companies for which a review was requested and not rescinded, but were not selected as mandatory respondents. For these companies, we preliminarily did not calculate the non-selected rate using a methodology of weight-averaging rates of the Guang Ya Group and Jangho Group because doing so risks disclosure

of proprietary information. Instead, we calculated an average rate using the mandatory respondents' publicly-ranked sales data for 2013. For further information on the calculation of the non-selected rate, refer to the section in the Preliminary Decision Memorandum entitled, "Preliminary *Ad Valorem* Rate for Non-Selected Companies Under Review."

For those companies that failed to respond to the Department's quantity and value questionnaire, we have relied on facts available, determined that those companies are non-cooperative and, on that basis, we found that application of adverse facts available is warranted in determining the subsidy rate for those companies. For further discussion of this determination, refer to the section in the Preliminary Decision Memorandum entitled, "Use of Facts Otherwise Available and Adverse Inferences."
