

DEPARTMENT OF TRANSPORTATION**Federal Railroad Administration****[Docket Number FRA–2015–0044]****Petition for Waiver of Compliance**

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), this provides the public notice that by a document dated May 4, 2015, Siemens Industry, Inc. has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 232.409(d). FRA assigned the petition docket number FRA–2015–0044.

Siemens Industry, Inc. (Siemens) is submitting a request for a waiver of compliance from 49 CFR 232.409(d)—Inspection and Testing of End-of-Train Devices. Siemens manufactures railroad electronics, including end-of-train (EOT) devices. In its waiver request, Siemens states that thousands of its EOT devices are deployed by Class 1 and short line railroads.

Specifically, Siemens is seeking the waiver for two EOT models: Q3920 and R3930 (the dual air pipe version of Q3920). The Q3920 and R3930 EOT devices use a Ritron DTX–445 radio. Previously, Ritron has received a waiver of compliance from 49 CFR 232.409(d) for their DTX–445 radio (see Docket Number FRA–2009–0015). Siemens requests a waiver from 49 CFR 232.409(d), similar to the waiver granted to Ritron in Docket Number FRA–2009–0015. Siemens asserts that as long as the waiver in FRA–2009–0015 is valid, Siemens EOT devices using the Ritron DTX–445 radio should also be permitted to take advantage of the waiver since there are no components in the EOT device with an annual calibration requirement and there are no adjustable components that can affect radio performance.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave. SE., W12–140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a

hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- *Web site:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 202–493–2251.
- *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., W12–140, Washington, DC 20590.
- *Hand Delivery:* 1200 New Jersey Avenue SE., Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by August 3, 2015 will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy. See also <http://www.regulations.gov/#/privacyNotice> for the privacy notice of regulations.gov.

Issued in Washington, DC, on June 11, 2015.

Ron Hynes,

Director of Technical Oversight.

BILLING CODE 4910–06–P

DEPARTMENT OF TRANSPORTATION**National Highway Traffic Safety Administration****[Docket No. DOT–NHTSA–2015–0051]****Notice and Request for Comments**

AGENCY: National Highway Traffic Safety Administration (NHTSA), U.S. Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: The DOT invites public comments about our intention to request the Office of Management and Budget (OMB) approval for new information collection. Before a Federal agency can collect certain information from the public, it must receive approval from OMB. Under procedures established by the Paperwork Reduction Act of 1995, before seeking OMB approval, Federal agencies must solicit public comment on proposed collections of information, including extensions and reinstatement of previously approved collections.

DATES: Written comments should be submitted by August 17, 2015.

ADDRESSES: You may submit comments (identified by Docket No. DOT–NHTSA–2015–0051) through one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- *Fax:* 1 (202) 493–2251.
- *Mail or Hand Delivery:* Docket Management Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building, Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except on Federal holidays.

FOR FURTHER INFORMATION CONTACT: Susan McHenry, (202) 366–6540, Office of Emergency Medical Services, National Highway Traffic Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue SE., Washington, DC 20590.

SUPPLEMENTARY INFORMATION:
OMB Control Number: New.
Title: National Emergency Medical Services Information System (NEMSIS)—State Submission to National Emergency Medical Services (EMS) Database.

Type of Review: New Information Collection.
Abstract: NHTSA supports and funds NEMSIS to further its goal of reducing death and disability on the Nation's roadways. The NEMSIS Technical Assistance Center (TAC) assists State and local EMS agencies and software vendors in implementing NEMSIS Version 3.0 (and higher)-compliant EMS data systems and the corresponding XML standard to support data transmission and interoperability. NHTSA also maintains the National EMS Database and a national reporting system. NHTSA supported the initial development of the National EMS Information System, including the supporting Data Dictionary and technology infrastructure, at the request

of the National Association of State EMS Officials. This effort developed the first-ever standardized EMS patient care reporting mechanism, which would provide essential information that could lead to improved patient care at local, State and national levels. Both the Senate and House included NEMSIS language in FY05 NHTSA Appropriations, directing NHTSA to continue implementation of NEMSIS and the National EMS Database. Congress has continued to support funding for the NEMSIS TAC and the National EMS Database. The information collected in the National EMS Database will be used to: (1) Better describe EMS across the country, (2) provide information that will help NHTSA better understand the serious injuries sustained as a result of motor vehicle crashes, (3) inform the NHTSA Office of EMS on changes in clinical practices/protocols, medications and other factors that impact National EMS Education Standards, developed by NHTSA, (4) support EMS research, and (5) support a comprehensive set of local and State EMS Performance Measures that are currently under development, with support of NHTSA.

The National EMS Database is populated by collecting data from State EMS databases. State EMS databases are populated with patient care records from local or regional EMS agencies. The most complete report is the local EMS electronic patient care report completed for each EMS response. A subset of each the local EMS report is submitted electronically to the State EMS database and the State EMS office electronically transmits a smaller subset of all the local data to the NEMSIS TAC for inclusion in the National EMS Database. The data at the national level contains no personally identifiable information, and is reported in the aggregate.

Affected Public: State and territory EMS offices, and, in some cases, EMS software vendors.

Estimated Number of Respondents: 56.

Frequency: Through Web services, within a few hours of when the State receives the local record.

Number of Responses: Depends on each State and how many patient calls are responded to. All transmissions are machine to machine.

Total Annual Burden: Estimate total annual burden to be approximately 12 hours per respondent and cumulative total of 672 hours.

Form Numbers: No forms.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a)

whether the proposed collection of information is necessary for the Department's performance; (b) the accuracy of the estimated burden; (c) ways for the Department to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Jeffrey P. Michael,

Associate Administrator, Research and Program Development.

BILLING CODE 4910-59-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. NHTSA-2014-0094; Notice 1]

Ferrari North America, Inc., Receipt of Petition for Decision of Inconsequential Noncompliance

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Receipt of petition.

SUMMARY: Ferrari North America, Inc. (FNA) has determined that certain model year (MY) 2007-2009 Ferrari F430 passenger cars do not fully comply with paragraph S4.4(c)(2), of Federal Motor Vehicle Safety Standard (FMVSS) No. 138, *Tire Pressure Monitoring Systems*. FNA has filed an appropriate report dated July 16, 2014, pursuant to 49 CFR part 573, *Defect and Noncompliance Responsibility and Reports*.

DATES: The closing date for comments on the petition is July 17, 2015.

ADDRESSES: Interested persons are invited to submit written data, views, and arguments on this petition. Comments must refer to the docket and notice number cited at the beginning of this notice and submitted by any of the following methods:

- **Mail:** Send comments by mail addressed to: U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590.

- **Hand Deliver:** Deliver comments by hand to: U.S. Department of Transportation, Docket Operations, M-

30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590. The Docket Section is open on weekdays from 10 a.m. to 5 p.m. except Federal Holidays.

- **Electronically:** Submit comments electronically by: Logging onto the Federal Docket Management System (FDMS) Web site at <http://www.regulations.gov/>. Follow the online instructions for submitting comments.

Comments may also be faxed to (202) 493-2251.

Comments must be written in the English language, and be no greater than 15 pages in length, although there is no limit to the length of necessary attachments to the comments. If comments are submitted in hard copy form, please ensure that two copies are provided. If you wish to receive confirmation that your comments were received, please enclose a stamped, self-addressed postcard with the comments. Note that all comments received will be posted without change to http://www.regulations.gov, including any personal information provided.

Documents submitted to a docket may be viewed by anyone at the address and times given above. The documents may also be viewed on the Internet at http://www.regulations.gov by following the online instructions for accessing the dockets. DOT's complete Privacy Act Statement is available for review in the **Federal Register** published on April 11, 2000, (65 FR 19477-78).

The petition, supporting materials, and all comments received before the close of business on the closing date indicated below will be filed and will be considered. All comments and supporting materials received after the closing date will also be filed and will be considered to the extent possible. When the petition is granted or denied, notice of the decision will be published in the **Federal Register** pursuant to the authority indicated below.

SUPPLEMENTARY INFORMATION:

I. FNA's Petition: Pursuant to 49 U.S.C. 30118(d) and 30120(h) and the rule implementing those provisions at 49 CFR part 556, FNA submitted a petition for an exemption from the notification and remedy requirements of 49 U.S.C. Chapter 301 on the basis that this noncompliance is inconsequential to motor vehicle safety.

This notice of receipt of FNA's petition is published under 49 U.S.C. 30118 and 30120 and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

II. Vehicles Involved: Affected are approximately 1,975 MY 2007-2009
