

collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The OSPP allows OSHA to enter into an extended, voluntary, cooperative relationship with groups of employers, employees, and representatives (sometimes including other stakeholders, and sometimes involving only one employer) to encourage, assist and recognize their efforts to eliminate serious hazards and to achieve a high level of worker safety and health that goes beyond what historically has been achieved from traditional enforcement methods. Each OSHA Strategic Partnership (OSP) determines what information will be needed, determining the best collection method, and clarifying how the information will be used. At a minimum, each OSP must identify baseline injury and illness data corresponding to all summary line items on the OSHA 300 logs, and must track changes at either the worksite level or participant-aggregate level. An OSP may also include other measures of success, such as training activity, self-inspections, and/or workers' compensation data. In this regard, the information collection requirements for the OSPP are used by the Agency to gauge the effectiveness of its programs, identify needed improvements, and ensure that its resources are being used for good and effective purposes.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other

technological information collection and transmission techniques.

III. Proposed Actions

OSHA is proposing to adjust the information collection burden hour requirements contained in the Agency's Strategic Partnership Program for Worker Safety and Health (5 CFR 1320.5). The Agency is requesting to decrease its current burden hour total from 108,702 to 67,697 hours for a total decrease of 41,005 hours. The decrease is a result of a decrease in the number of employers and participants. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

Type of Review: Extension of a currently approved collection.

Title: OSHA Strategic Partnership Program (OSPP) for Worker Safety and Health.

OMB Control Number: 1218-0244.

Affected Public: Businesses or other for-profits; Federal Government; State, Local or Tribal Government.

Number of Respondents: 93.

Frequency of Responses: On occasion.

Average Time per Response: Eleven (11) hours to develop the partnership requirements, craft agreement language, and conduct an internal review process.

Estimated Total Burden Hours: 67,697.

Estimated Cost (Operation and Maintenance): \$7,790.

SUPPLEMENTARY INFORMATION:

Background

Section 111 of the Copyright Act grants a statutory copyright license to cable television systems for the retransmission of over-the-air television and radio broadcast stations to their subscribers. 17 U.S.C. 111(c). In exchange for the license, cable operators submit royalty payments and statements of account detailing their retransmissions semiannually to the Copyright Office. 17 U.S.C. 111(d)(1). The Copyright Office deposits the royalties into the United States Treasury for later distribution to copyright owners of the broadcast programming that the cable systems retransmit. 17 U.S.C. 111(d)(2).

A cable system calculates its royalty payments in accordance with the statutory formula described in 17 U.S.C. 111(d)(1). Royalty rates are based upon a cable system's gross receipts from subscribers who receive retransmitted broadcast signals. For rate calculation purposes, cable systems are divided into three tiers based on their gross receipts (small, medium, and large). 17 U.S.C. 111(d)(1)(B) through (F). Both the applicable rates and the tiers are subject to adjustment. 17 U.S.C. 801(b)(2). Every five years persons with a significant interest in the royalty rates may file petitions to initiate a proceeding to adjust the rates. 17 U.S.C. 804(a) and (b). No person with a significant interest has filed a petition to initiate a proceeding in 2015.¹ The Judges must, therefore, publish notice in the **Federal Register**

¹ The cable rates were last adjusted in 2005. Although the Judges commenced a rate proceeding relating to the 2010 rate adjustment, the Judges terminated it when passage of the Satellite Television Extension and Localism Act of 2010, Public Law 111-175, rendered the proceeding unnecessary. *Order Granting Request to Terminate Proceeding*, Docket No. 2010-1 CRB Cable Rate (July 13, 2010).

MERIT SYSTEMS PROTECTION BOARD

Agency Information Collection Activities; Proposed Collection

AGENCY: Merit Systems Protection Board.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), the U.S. Merit Systems Protection Board

(MSPB) announces that it is planning to submit a request for a three-year extension of an Information Collection Request (ICR) to the Office of Management and Budget (OMB). Before submitting this ICR to OMB for review and approval, MSPB is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Written comments must be received on or before August 18, 2015.

ADDRESSES: Submit written comments on the collection of information to William D. Spencer, Merit Systems Protection Board, 1615 M Street NW., Washington, DC 20419; by fax: (202) 653-7130; or by email: mspb@mspb.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information should be directed to Dr. DeeAnn Batten at (202) 254-4495 or deeann.batten@mspb.gov.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501-3520), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor. The MSPB intends to ask for a three-year renewal of its Generic Clearance Request for Voluntary Customer Surveys, OMB Control No. 3124-0012. Executive Order 12862, "Setting Customer Service Standards," mandates that agencies identify their customers and survey them to determine the kind and quality of services they want and their level of satisfaction with existing services.

In this regard, we are soliciting comments on the public reporting burden. The reporting burden for the collection of information on this request is estimated to vary from 5 minutes to 45 minutes, with an average of 30 minutes, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. In the estimated annual reporting burden listed below, the reason that the annual number of respondents differs from the number of total annual responses is that our experience shows that only about 50% of those invited to participate in our voluntary customer surveys avail themselves of that opportunity.

In addition, MSPB invites comments on (1) whether the proposed collection of information is necessary for the proper performance of MSPB's functions, including whether the information will have practical utility; (2) the accuracy of MSPB's estimate of burden of the proposed collection of information, including the validity of the methodology and assumptions used;
