II. What Information Collection Activity or ICR Does this Action Apply to?

Title: TSCA Section 8(a) Preliminary Assessment Information Rule (PAIR).

ICR number: EPA ICR No. 0586.13.

OMB control number: OMB Control No. 2070–0054.

ICR status: This ICR is currently scheduled to expire on March 31, 2016. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA’s regulations in title 40 of the Code of Federal Regulations (CFR), after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: Section 8(a) of the Toxic Substances Control Act (TSCA) authorizes EPA to promulgate rules under which manufacturers, importers and processors of chemical substances and mixtures must maintain records and submit reports to EPA. EPA has promulgated the Preliminary Assessment Information Rule (PAIR) under TSCA section 8(a). EPA uses PAIR to collect information to identify, assess and manage human health and environmental risks from chemical substances, mixtures and categories. PAIR requires chemical manufacturers and importers to complete a standardized reporting form to help evaluate the potential for adverse human health and environmental effects caused by the manufacture or importation of identified chemical substances, mixtures or categories. Chemicals identified by EPA or any other federal agency, for which a justifiable information need for production, use or exposure-related data can be satisfied by the use of the PAIR are proper subjects for TSCA section 8(a) PAIR rulemaking. In most instances the information that EPA receives from a PAIR report is sufficient to satisfy the information need in question. This information collection addresses the reporting and recordkeeping requirements associated with TSCA section 8(a).

Responses to the collection of information are mandatory (see 40 CFR parts 712, 766, and 792). Respondents
