

DEPARTMENT OF JUSTICE**Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)**

On June 16, 2015, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the District of Arizona in the lawsuit entitled *United States v. Burr-Brown Corporation (now Texas Instruments Tucson Corporation)*, Civil Action No. 89-594-TUC-RMB. On the same date, the State of Arizona lodged the same proposed Consent Decree with the United States District Court for the District of Arizona in the lawsuit entitled *State of Arizona v. Texas Instruments Tucson Corporation*, Civil Action No. 4:15-cv-00257-DCB. The United States has filed a motion to consolidate the two actions, and the State of Arizona and Texas Instruments Tucson Corporation (“TI”) have consented to that motion.

TI is working under an existing consent decree, entered in 1990 in Civil Action No. 89-594-TUC-RMB (“1990 Decree”), to perform a CERCLA response action to address contaminated groundwater on part of the Tucson International Airport Authority Superfund Site (“TIAA Site”) in Tucson, Arizona. The TIAA Site includes the Tucson International Airport, Air Force Plant 44, and several other adjacent areas. The proposed Consent Decree addresses only the TI portion of Area “B” of the TIAA Site (“Project Area”). Other areas of the TIAA Site are being addressed under separate federal facility agreements, consent decrees and fund-lead remedial actions. The Project Area was operated by TI’s predecessor-in-interest, Burr-Brown Corporation. Operations included microchip manufacturing and involved chemical storage and disposal. In 2013, TI sold the Project Area to HSL TI Properties, which does not use it for industrial purposes.

The 1990 Decree contains provisions that the parties would like to amend as TI begins to implement an amended Record of Decision (“Amended ROD”). At the same time, the Arizona Department of Environmental Quality (“ADEQ”) would like to resolve its claims under state law with TI, and to participate in oversight of the remedy.

The proposed Consent Decree, which would supersede the 1990 Decree, would implement the Amended ROD, add the State of Arizona as a party, and resolve its claims under state law. Under the Consent Decree, TI commits

to perform the work set out in the Amended ROD, and to pay the United States its Response Costs and the State its State Future Response Costs, as those terms are defined in the Consent Decree. The Consent Decree contains covenants not to sue by the United States and the State for the performance of the Work and for recovery of Response Costs and State Future Response Costs, and by TI for all claims related to the Project Area and the Consent Decree. The Consent Decree provides TI with the standard contribution protection for “matters addressed” in the Consent Decree: Work, Response Costs, and State Future Response Costs.

The publication of this notice opens a period for public comment on the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. Burr-Brown Corporation (now Texas Instruments Tucson Corporation)*, D.J. Ref. No. 90-11-3-369. All comments must be submitted no later than thirty (30) days after the publication date of this notice. SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the Occupational Requirements Survey (ORS) information collection. The ORS will be a nationwide survey that the BLS will conduct at the request of the Social Security Administration (SSA). The first three years of data collection and capture for the ORS will start in 2015 and end in mid-2018. The SSA, Members of the Congress, and representatives of the disability community have all identified the collection of updated information on the requirements of work in today's economy as crucial to the equitable and efficient operation of the Social Security Disability Insurance (SSDI) program. The information currently available is more than twenty (20) years old. Estimates produced from the data collected by the ORS will be used by the SSA to update occupational requirements data in administering the SSDI and Supplemental Security Income SSI programs. The ORS will collect data from a sample of employers. These requirements of work data will consist of information about the duties, responsibilities, and job tasks for a sample of occupations for each sampled employer. The BLS Authorizing Statute and the Economy Act authorize this information collection. See 29 U.S.C. 9, 9(a) and 31 U.S.C. 1535.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB
