Title of Collection: NPEFS 2015-2017: Common Core of Data (CCD) National Public Education Financial Survey.

OMB Control Number: 1850-0067.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: SEAs.

Total Estimated Number of Annual Responses: 56.

Total Estimated Number of Annual Burden Hours: 5,264.

Abstract: The National Public Education Financial Survey (NPEFS) is an annual collection of state-level finance data that has been included in the NCES Common Core of Data (CCD) since FY 1982 (school year 1981-82). NPEFS provides function expenditures by salaries, benefits, purchased services, and supplies, and includes federal, state, and local revenues by source. The NPEFS collection includes data on all

state-run schools from the 50 states, the District of Columbia, American Samoa, the Northern Mariana Islands, Guam, Puerto Rico, and the Virgin Islands. NPEFS data are used for a wide variety of purposes, including to calculate federal program allocations such as states' "average per-pupil expenditure" (SPPE) for elementary and secondary education, certain formula grant programs (e.g. Title I, Part A of the Elementary and Secondary Education Act of 1965 (ESEA) as amended, Impact Aid, and Indian Education programs). Furthermore, other federal programs, such as the Educational Technology State Grants program (Title II Part D of the ESEA), the Education for Homeless Children and Youth Program under Title VII of the McKinney-Vento Homeless Assistance Act, and the Teacher Quality State Grants program (Title II Part A of the ESEA) make use of SPPE data indirectly because their formulas are based, in whole or in part, on State Title I Part A allocations. This submission is to conduct the annual collection of state-level finance data for FY 2015–2017.
