SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Permit-Required Confined Spaces in General Industry Standard information collection requirements codified in regulations 29 CFR 1910.146. The purpose of the information collection is to ensure an Occupational Safety and Health Act (OSH Act) covered employer subject to the Standard systematically evaluates the dangers in permit spaces before entry is attempted and takes adequate measures to make the spaces safe for entry. The major information collection requirements in this Standard require the employer to: Post danger signs; develop and implement a written permit-space program; verify the space is safe for entry with a written certification; exchange information with employees, authorized entrants, attendants, contractors, and rescue services or teams; document the completion of measures the Standard requires by preparing an entry permit; make the completed permit available at the time of entry to all authorized

entrants by posting the permit at the entry portal or by any other equally effective means; retain each canceled entry permit for at least one year; prepare training certification records; make the Safety Data Sheet (SDS) or written information available to the treating medical facility, if an injured entrant is exposed to a substance for which a SDS or other similar written information is required to be kept at the worksite; consult with affected employees and their authorized representatives on the development and implementation of all aspects of the permit space program; and make records developed under standard, including the results of any testing, available for inspection by employees and their authorized representatives. OSH Act sections 2(b)(9), 6, and 8(c) authorize this information collection. See 29 U.S.C. 651(b)(9), 655, and 657(c).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0203.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on June 30, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 27, 2015 (80 FR 23297).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by July 30, 2015. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0203. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
