

minimum of two RATAs, you may revise your auditing procedures to use CGA, RAA or DSA each quarter for seven subsequent quarters following a RATA.

5.5.2 You must perform at least one RATA that meets the acceptance criteria every 2 years.

5.5.3 If you fail a RATA, RAA, CGA, or DSA, then the audit schedule in section 5.2

must be followed until the audit results meet the criteria in section 5.3.4 to start requalifying for the optional QA test frequency in section 5.5.

6.0 Calculations for CEMS Data Accuracy

6.1 RATA RA Calculation. Follow Equations 9 through 14 in section 12 of PS-18 in appendix B to this part to calculate the

RA for the RATA. The RATA must be calculated either in units of the applicable emission standard or in concentration units (ppmv).

6.2 RAA Accuracy Calculation. Use Equation 6-2 to calculate the accuracy for the RAA. The RA may be calculated in concentration units (ppmv) or in the units of the applicable emission standard.

$$RA = \frac{[MN_{avg} - RM_{avg}]}{RM_{avg}} * 100 \text{ Eq.} \quad \text{Eq. 6-2}$$

Where:

RA = Accuracy of the CEMS (percent)

MN_{avg} = Average measured CEMS response during the audit in units of applicable standard or appropriate concentration.

RM_{avg} = Average reference method value in units of applicable standard or appropriate concentration.

6.3 CGA Accuracy Calculation. For each gas concentration, determine the average of

the three CEMS responses and subtract the average response from the audit gas value. For extractive CEMS, calculate the ME at each gas level using Equation 3A in section 12.3 of PS-18 in appendix B to this part. For IP-CEMS, calculate the ME at each gas level using Equation 6A in section 12.4.3 of PS-18 in appendix B to this part.

6.4 DSA Accuracy Calculation. DSA accuracy is calculated as a percent of span.

To calculate the DSA accuracy for each upscale spike concentration, first calculate the DSE using Equation A5 in appendix A of PS-18 in appendix B to this part. Then use Equation 6-3 to calculate the average DSA accuracy for each upscale spike concentration. To calculate DSA accuracy at the zero level, use equation 3A in section 12.3 of PS-18 in appendix B to this part.

$$DSA \text{ Accuracy} = \frac{\sum_1^3 \left[\frac{DSE_i}{S} \right]}{3} * 100 \quad \text{Eq. 6-3}$$

7.0 Reporting Requirements

At the reporting interval specified in the applicable regulation or permit, report for each CEMS the quarterly and annual accuracy audit results from section 6 and the daily assessment results from section 4.

Unless otherwise specified in the applicable regulation or permit, include all data sheets, calculations, CEMS data records (*i.e.*, charts, records of CEMS responses), reference gas certifications and reference method results necessary to confirm that the performance of the CEMS met the performance specifications.

7.1 Unless otherwise specified in the applicable regulations or permit, report the daily assessments (CD and beam intensity) and accuracy audit information at the interval for emissions reporting required under the applicable regulations or permits.

7.1.1 At a minimum, the daily assessments and accuracy audit information reporting must contain the following information:

- a. Company name and address.
- b. Identification and location of monitors in the CEMS.
- c. Manufacturer and model number of each monitor in the CEMS.
- d. Assessment of CEMS data accuracy and date of assessment as determined by a RATA, RAA, CGA or DSA described in section 5 including:
 - i. The RA for the RATA;
 - ii. The accuracy for the CGA, RAA, or DSA;
 - iii. Temperature and pressure sensor audit results for IP-CEMS;
 - iv. The RM results, the reference gas certified values;
 - v. The CEMS responses;
 - vi. The calculation results as defined in section 6; and

vii. Results from the performance audit samples described in section 5 and the applicable RMs.

e. Summary of all out-of-control periods including corrective actions taken when CEMS was determined out-of-control, as described in sections 4 and 5.

7.1.2 If the accuracy audit results show the CEMS to be out-of-control, you must report both the audit results showing the CEMS to be out-of-control and the results of the audit following corrective action showing the CEMS to be operating within specifications.

Patient Protection and Affordable Care Act; HHS Notice of Benefit and Payment Parameters for 2016; Correcting Amendment

AGENCY: Centers for Medicare & Medicaid Services (CMS), HHS.

ACTION: Final rule; correcting amendment.

SUMMARY: This document corrects a technical error that appeared in the final rule published in the February 27, 2015 *Federal Register* (80 FR 10749) entitled "Patient Protection and Affordable Care Act; HHS Notice of Benefit and Payment Parameters for 2016."

DATES: *Effective Date:* This correction document is effective July 7, 2015.

Application Date: The correction is applicable as of April 28, 2015.

FOR FURTHER INFORMATION CONTACT: Jeff Wu, (301) 492-4305. Krutika Amin, (301) 492-5153. Lindsey Murtagh, 301-492-4106. Rachel Arguello, 301-492-4263.

SUPPLEMENTARY INFORMATION:

I. Background

In FR Doc. 2015-03751 (80 FR 10749 through 10877), the final rule entitled

“Patient Protection and Affordable Care Act; HHS Notice of Benefit and Payment Parameters for 2016,” there was a technical error in the regulation text that is identified and corrected in this correcting amendment.

II. Summary of Errors in the Regulation Text

On page 10867 of the HHS Notice of Benefit and Payment Parameters for 2016 final rule, there was a technical error in § 155.420(d)(2)(ii). In the preamble, we acknowledged that Exchanges may need more time to implement the necessary functional IT changes, and stated that we were making § 155.420(d)(2)(ii) effective January 1, 2017. However, in the regulatory text, we inadvertently omitted the phrase “Effective January 1, 2017 or earlier . . .” before the phrase “at the option of the Exchange”.

III. Waiver of Proposed Rulemaking and Delay in Effective Date

We ordinarily publish a notice of proposed rulemaking in the **Federal Register** to provide a period for public comment before the provisions of a rule take effect in accordance with section 553(b) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). However, this notice and comment procedure can be waived if the Secretary finds, for good cause, that the notice and comment process is impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and the reasons therefore in the notice.

Section 553(d) of the APA ordinarily requires a 30-day delay in effective date of final rules after the date of their publication in the **Federal Register**. This 30-day delay in effective date can be waived, however, if an agency finds for good cause that the delay is impracticable, unnecessary, or contrary to the public interest, and the agency incorporates a statement of the findings and its reasons in the rule issued.

This document corrects a technical error in the HHS Notice of Benefit and Payment Parameters for 2016 final rule and is not a substantive change to the standards set forth in the final rule. Therefore, we believe that undertaking further notice and comment procedures to incorporate this correction and delay the effective date for this change is unnecessary. In addition, we believe it is important for the public to have the correct information as soon as possible, and believe it is contrary to the public interest to delay when they become effective. For the reasons stated previously, we find there is good cause to waive notice and comment

procedures and the 30-day delay in the effective date for this correction notice.
