The Institute of Museum and Library Services is the primary source of federal support for the Nation's 123,000 libraries and 35,000 museums. The Institute's mission is to inspire libraries and museums to advance innovation, learning, and civic engagement. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development. IMLS is responsible for identifying national needs for and trends in museum, library, and information services; measuring and reporting on the impact and effectiveness of museum, library and information services throughout the United States, including programs conducted with funds made available by IMLS; identifying, and disseminating information on, the best practices of such programs; and developing plans to improve museum, library, and information services of the United States and strengthen national, State, local, regional, and international communications and cooperative networks (20 U.S.C. 72, 20 U.S.C. 9108).

II. Current Actions

The purpose of this survey is to gauge the effect of the Museum Assessment

Program (MAP) on participating museums and the museum field at large. The survey will be used to measure the degree to which the program is meeting the needs and building the institutional capacity of individual museums, and its overall impact on the museum field nationwide. Methods will include web surveys, telephone interviews, and focus group meetings.

The web survey will consist of approximately 40 questions that will examine the participating museums' experience with the MAP program and the subsequent changes in its operations that can be attributed to the program, as well as basic institutional profile information. The web survey will require an average of 60 minutes to complete. The telephone interview guide will be organized into approximately four sections (*e.g.* institutional changes resulting from MAP participation; funding; professionalization; and future expectations) and is projected to average 30 minutes to complete. Focus groups will be organized to generate shared experiences and discussion relating to overall impact on the museum field at large. No more than six focus groups will be organized, each involving 10–12 persons for a period of approximately one hour.
