

potential predictors of injury and illness WC claim rates and duration in a stratified sample of OBWC-insured WRT firms in Ohio. There are expected to be up to 4,404 participants per year; surveys will administered twice to the same firms in successive years (e.g. from January–December 2014 and again from January–December 2015).

An individual responsible for the OSH program at each firm will be asked to complete survey that include a background section related to respondent and company demographics and a main section where individuals will be asked to evaluate organizational metrics related to their firm’s OSH program. The firm-level survey data will

be linked to five years of retrospective injury and illness WC claims data and two years of prospective injury and illness WC claims data from OBWC to determine which organizational metrics are related to firm-level injury and illness WC claim rates. A nested study will ask multiple respondents at a subset of 60 firms to participate by completing surveys. A five-minute interview will be conducted with a 10% sample of non-responders (up to 792 individuals).

In order to maximize efficiency and reduce burden, a web-based survey is proposed for the majority (95%) of survey data collection. Collected information will be used to determine

whether a significant relationship exists between self-reported firm OSH elements and firm WC outcomes while controlling for covariates. Once the study is completed, benchmarking reports about OSH elements that have the highest impact on WC losses in the WRT sector will be made available through the NIOSH–OBWC internet sites and peer-reviewed publications.

In summary, this study will determine the effectiveness of OSH program elements in the WRT sector and enable evidence-based prevention practices to be shared with the greatest audience possible. NIOSH expects to complete data collection in 2015. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Safety and Health Managers in Wholesale/Retail Trade (WRT) Firms in Ohio.	Occupational Safety and Health Program Survey.	4,404	1	20/60	1,468
	Informed Consent Form .....	4,404	1	2/60	147
	Non Responder Interview .....	792	1	5/60	66
Total Hours .....	.....	.....	.....	.....	1,681

**Determining Mental Health Professional Shortage Areas of Greatest Need; Correction**

**AGENCY:** Health Resources and Services Administration, HHS.

**ACTION:** Notice; correction.

**SUMMARY:** In accordance with the requirements of section 333A(b)(1) of the Public Health Service (PHS) Act, as amended by the Health Care Safety Net Amendments of 2002, 42 U.S.C. 254f–1(b)(1), the Secretary of HHS shall establish the criteria which she will use to make determinations under section 333A(a)(1)(A) of the Health Professional Shortage Areas (HPSAs) with the greatest shortages. The Health Resources and Services Administration published

a notice in the **Federal Register**, FR 2015–00398 (January 14, 2015), which sets forth revised criteria for determining mental health HPSAs with the greatest shortage.

**FOR FURTHER INFORMATION CONTACT:** Kae Brickerd, Chief, Shortage Designation Branch, Bureau of Health Workforce, Division of Policy and Shortage Designation, Health Resources and Services Administration, 11W14 Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857, 301 945–0828, [kbrickerd@hrsa.gov](mailto:kbrickerd@hrsa.gov).

*Correction:*

In the **Federal Register**, FR 2015–00398 (January 14, 2015), please make the following corrections:

In the section For Geographic High Need and Population HPSAs, the table for Core Mental Health (Geographic High Need and Population), should read as follows below.

**CORE MENTAL HEALTH (GEOGRAPHIC HIGH NEED AND POPULATION)**

Ratio	Score
≥6K and <7.5K:1 .....	1
≥7.5K and <9K:1 .....	2
≥9K and <12K:1 .....	3
≥12K and <15K:1 .....	4
≥15K and <18K:1 .....	5
≥18K and <24K:1 .....	6

**CORE MENTAL HEALTH (GEOGRAPHIC HIGH NEED AND POPULATION)—Continued**

Ratio	Score
≥24K:1 .....	7

Dated: July 1, 2015.
