

Additional Information: This is a request for an emergency clearance to enable Federal Student Aid (FSA) to ensure that all data collected and managed by Guaranty Agencies (GAs) in support federal student financial aid programs is secure. FSA is initiating a formal assessment program for ensuring the GAs have security protocols in place to protect the confidentiality and integrity of data entrusted to FSA by students and families. This assessment is designed to identify security deficiencies based on the federal standards described in the National Institute of Standards and Technology publications.

Dated: July 13, 2015.

Kate Mullan,

Acting Director, Information Collection Clearance Division, Office of the Chief Privacy Officer (OCPO), Office of Management.

BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Energy Employees Occupational Illness Compensation Program Act of 2000; Revision to the List of Covered Facilities

AGENCY: Department of Energy.

ACTION: Notice of revision of listing of covered facilities.

SUMMARY: The Department of Energy (“Department” or “DOE”) periodically publishes revisions to the list of facilities covered under the Energy Employees Occupational Illness Compensation Program Act of 2000, as amended (“EEOICPA” or “Act”). This Notice amends the list of covered facilities by correcting the location information for Dow Chemical Company in California, and removing the designation of the Ashland Oil site in Tonawanda, New York; the Middlesex Municipal Landfill in Middlesex, New Jersey; the Seaway Industrial Park in Tonawanda, New York; the Shpack Landfill in Norton, Massachusetts; and the Woburn Landfill in Woburn, Massachusetts as atomic weapons employer (“AWE”) facilities.

DATES: Effective July 16, 2015.

ADDRESSES: The Department welcomes comments on this Notice. Comments should be addressed to: Patricia R. Worthington, Ph.D., Director, Office of Health and Safety (AU-10), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

FOR FURTHER INFORMATION CONTACT: Patricia R. Worthington, Ph.D., Director,

Office of Health and Safety (AU-10), (301) 903-5926.

SUPPLEMENTARY INFORMATION: This Notice amends the list of covered facilities by correcting the location information for Dow Chemical Company in California, and removing the designation of the Ashland Oil site in Tonawanda, New York; the Middlesex Municipal Landfill in Middlesex, New Jersey; Seaway Industrial Park in Tonawanda, New York; the Shpack Landfill in Norton, Massachusetts; and the Woburn Landfill in Woburn, Massachusetts as AWE facilities. Previous lists or revisions were published by DOE on February 11, 2013 (78 FR 9678), February 6, 2012 (77 FR 5781); May 26, 2011 (76 FR 30695); August 3, 2010 (75 FR 45608); April 9, 2009 (74 FR 16191); June 28, 2007 (72 FR 35448); November 30, 2005 (70 FR 71815); August 23, 2004 (69 FR 51825); July 21, 2003 (68 FR 43095); December 27, 2002 (67 FR 79068); June 11, 2001 (66 FR 31218); and January 17, 2001 (66 FR 4003).

Purpose

EEOICPA establishes a program to provide compensation to certain employees who develop illnesses as a result of their employment with DOE and its predecessor Agencies, as well as employees of certain of its contractors, subcontractors, beryllium vendors and AWEs. Section 7384l(4) of EEOICPA defines an AWE as “an entity, other than the United States, that—(A) processed or produced, for use by the United States, material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining and milling; and (B) is designated by the Secretary of Energy as an [AWE] for purposes of the compensation program.” Section 7384l(5) defines an AWE facility as “a facility, owned by an [AWE], that is or was used to process or produce, for use by the United States, material that emitted radiation and was used in the production of an atomic weapon, excluding uranium mining or milling.”

It has recently come to the attention of the Department that the location at which the Dow Chemical Company in California performed activities of an AWE for purposes of EEOICPA was in Pittsburg, California, *not* Walnut Creek, California, as previously indicated in the **Federal Register**.

In addition, the Ashland Oil site in Tonawanda, New York; the Middlesex Municipal Landfill in Middlesex, New Jersey; Seaway Industrial Park in Tonawanda, New York; the Shpack Landfill in Norton, Massachusetts; and the Woburn Landfill in Woburn,

Massachusetts, were designated as AWE facilities in the Department’s previous lists even though they did not meet the statutory definition of AWE facilities. Records related to these five locations indicate that these facilities were not owned by an AWE and do not meet the definition of AWE facilities because, as disposal or landfill sites, they did not “process” or “produce,” for use by the United States, material that emitted radiation and was used in the production of an atomic weapon. Therefore, the designation of these five locations as AWE facilities was erroneous.

This Notice formally makes the changes to the listing of covered facilities as indicated below:

- The site location for Dow Chemical Company is changed from Walnut Creek, California, to Pittsburg, California.
- The Ashland Oil site in Tonawanda, New York, is no longer designated as an AWE facility.
- The Middlesex Municipal Landfill in Middlesex, New Jersey, is no longer designated as an AWE facility. This action has no effect on the separate status of this worksite as a DOE facility in 1984 and 1986 when environmental remediation services were conducted by Bechtel National Inc., pursuant to a contract with DOE.
- Seaway Industrial Park in Tonawanda, New York, is no longer designated as an AWE facility.
- The Shpack Landfill in Norton, Massachusetts, is no longer designated as an AWE facility.
- The Woburn Landfill in Woburn, Massachusetts, is no longer designated as an AWE facility.

Issued in Washington, DC, on July 9, 2015.

Matthew B. Moury,

Associate Under Secretary for Environment, Health, Safety and Security.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collection Extension With Changes

AGENCY: U.S. Energy Information Administration, Department of Energy.

ACTION: Notice and Request for OMB Review and Comment.

SUMMARY: The Energy Information Administration (EIA) has submitted an information collection request to the OMB for extension under the provisions of the Paperwork Reduction Act of 1995.

The information collection requests a three-year extension of its Quarterly Electricity Imports and Exports Report, OMB Control Number 1905–0208. The proposed collection is a census of companies that (1) import or export electricity, (2) operate electric systems to cause the flow of electricity, or (3) own transmission facilities that make possible the flow of electricity across U.S. international borders. The volume of physical electricity imports and exports is reported as transaction volumes, implemented and actual interchange, and metered flow. Transaction volumes are reported with their associated transaction characteristics and payments or receipts. The collection supports the U.S. Department of Energy's regulation of cross border transmission/distribution facilities and electricity exports.

DATES: Comments regarding this proposed information collection must be received on or before August 17, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, please advise the DOE Desk Officer at OMB of your intention to make a submission as soon as possible. The Desk Officer may be telephoned at 202–395–4718.

ADDRESSES: Written comments should be sent to the DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503.

And to William Booth by fax at (202) 287–1960, or by email at William.booth@eia.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to William Booth at William.booth@eia.gov. The draft form and instructions are available at <http://www.eia.gov/survey/changes/electricity/>.

SUPPLEMENTARY INFORMATION:

This information collection request contains:

- (1) *OMB No. 1905–0208;*
- (2) *Information Collection Request Title:* Quarterly Electricity Imports and Exports Report;
- (3) *Type of Request:* Revision of a currently approved collection;
- (4) *Purpose:* Form EIA–111 collects U.S. electricity import and export data. The data are used to get an accurate measure of the flow of electricity into and out of the United States. The import and export data are reported by U.S.

purchasers, sellers and transmitters of electricity, including persons authorized by Order to export electric energy from the United States to foreign countries, persons authorized by Presidential Permit to construct, operate, maintain, or connect electric power transmission lines that cross the U.S. international border, and U.S. Balancing Authorities that are directly interconnected with foreign Balancing Authorities. Such entities are to report monthly data on aggregate flows of electric energy received and delivered across the border, the cost associated with the transactions, metered flows over transfer facilities and actual and implemented interchange on a quarterly reporting cycle. The data collected on this form may appear in various EIA publications;

(4a) *Proposed Changes to Information Collection:* The data element “Transfer Facility’s Presidential Permit numbers” is changed to “Transmission Provider/Transfer Facility(ies)” in the sections “Imports into the U.S. from Canada or Mexico,” “Exports from the U.S. to Canada or Mexico,” and “Implemented Interchange.” A new section for reporting “Metered Flow on Transfer Facilities” is added to collect monthly metered cross border flow over Presidential Permit holders and other transfer facilities;

(5) *Annual Estimated Number of Respondents:* 176;

(6) *Annual Estimated Number of Total Responses:* 704;

(7) *Annual Estimated Number of Burden Hours:* 1056;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* EIA estimates that there are no additional costs to respondents associated with the surveys other than the costs associated with the burden hours. The information is maintained in the normal course of business. The cost of burden hours to the respondents is estimated to be \$76,000 (1,056 burden hours times \$71.97 per hour). Therefore, other than the cost of burden hours, EIA estimates that there are no additional costs for generating, maintaining and providing the information.

Statutory Authority: Section 13(b) of the Federal Energy Administration Act of 1974, Public Law 93–275, codified at 15 U.S.C. 772(b).

Issued in Washington, DC, on July 10, 2015.

Nanda Srinivasan,

Director, Office of Survey Development and Statistical Integration, U.S. Energy Information Administration.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL15–29–003]

PJM Interconnection, LLC; Notice of Filing

Take notice that on July 9, 2015, PJM Interconnection, L.L.C. submitted revisions to the its Open Access Transmission Tariff and Amended and Restated Operating Agreement, pursuant to the Federal Energy Regulatory Commission’s June 9, 2015 Order.¹

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the “eLibrary” link and is available for electronic review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Comment Date: 5:00 p.m. Eastern Time on July 20, 2015.

Dated: July 10, 2015.

Kimberly D. Bose,
Secretary.
