

previous submissions. It should be noted, however, that two workshops involving multiple safari outfitters and leaseholders are scheduled for the beginning of 2015 to identify and address outstanding issues faced by the safari outfitters. It is the hope of the Service that these workshops are successful and can act as a springboard for similar workshops throughout Zimbabwe.

Therefore, based on the information currently available to the Service on government efforts to manage elephant populations, efforts to address human-elephant conflicts and poaching, and the state of the hunting program within the country, and without current data on population numbers and trends being incorporated into a national management strategy or plan, the Service is unable to make a finding that sport-hunting in Zimbabwe is enhancing the survival of the species and that imports of trophies would meet the criteria established under the Act for African elephants. The March 26, 2015, enhancement finding has been posted at <http://www.fws.gov/international/pdf/enhancement-finding-March-2015-elephant-Zimbabwe.pdf>. In addition, the press release announcing the suspension and frequently asked questions is available on the Service's Web page (www.fws.gov/international).

This suspension does not prohibit U.S. hunters from traveling to Zimbabwe and participating in an elephant hunt. The Act does not prohibit take (e.g., hunting) outside the United States; it only prohibits import of trophies taken during such hunts without authorization under the Act.

Dated: July 2, 2015.

Timothy J. Van Norman,

Chief, Branch of Permits, Division of Management Authority, U.S. Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[15X L1109AF LLUTC03000.161000000. DP0000.LXSS004J0000 24-1A]

Notice of Availability of the Draft Resource Management Plans for the Beaver Dam Wash and Red Cliffs National Conservation Areas; a Draft Amendment to the St. George Field Office Resource Management Plan; and Draft Environmental Impact Statement, Utah

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, the Federal Land Policy and Management Act of 1976, as amended, and the Omnibus Public Lands Management Act of 2009, the Bureau of Land Management (BLM) has prepared Draft Resource Management Plans (RMPs) for the Beaver Dam Wash National Conservation Area and the Red Cliffs National Conservation Area and a Draft Amendment to the St. George Field Office RMP. The three planning efforts were initiated concurrently and are supported by a single Environmental Impact Statement (EIS). By this notice; the BLM announces the opening of the public comment period.

DATES: To ensure that comments will be considered, the BLM must receive written comments on the Draft RMPs/Draft RMP Amendment and Draft EIS within 90 days following the date that the Environmental Protection Agency publishes its Notice of Availability of the Draft RMPs/Draft RMP Amendment and Draft EIS in the **Federal Register**. The BLM will announce future meetings or hearings and any other public participation activities at least 15 days in advance through public notices, media releases, and/or mailings.

ADDRESSES: You may submit comments related to the Draft RMPs/Draft RMP Amendment and Draft EIS by any of the following methods:

- *Email:* utsgrp@blm.gov.
- *Fax:* 435-688-3252.
- *Mail:* St. George Field Office, Bureau of Land Management, 345 East Riverside Drive, St. George, Utah 84790.

Copies of the Draft RMPs/Draft RMP Amendment and Draft EIS are available in the BLM St. George Field Office, at the above address and the BLM Utah State Office Public Room, 440 West 200 South, Suite 500, Salt Lake City, Utah 84101 during business hours (8:00 a.m. to 4:30 p.m.), Monday through Friday, except holidays. The Draft RMPs/Draft RMP Amendment and Draft EIS is also available on the following Web site: http://www.blm.gov/ut/st/en/fo/st_george.html.

FOR FURTHER INFORMATION CONTACT:

Keith Rigrup, RMP Planner, telephone 435-865-3000; address: 345 East Riverside Drive, St. George, Utah 84790; email: krigrup@blm.gov.

Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FIRS is

available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The purpose of this planning process is to satisfy specific mandates from the Omnibus Public Land Management Act of 2009 (Pub. L. 111-11, at Title 1, Subtitle O, hereinafter OPLMA) that directed the Secretary of the Interior, through the BLM, to develop comprehensive management plans for the Beaver Dam Wash National Conservation Area (63,480 acres of public land) and the Red Cliffs National Conservation Area (44,859 acres of public land), located in Washington County, Utah. Both National Conservation Areas (NCAs) were established on March 30, 2009, when President Barack Obama signed OPLMA into law. The decisions contained within the Draft RMPs/Draft EIS do not pertain to private and State lands within the boundaries of the NCAs.

The need to amend the St. George Field Office RMP (approved in 1999) is also derived from OPLMA. Section 1979 (a)(1) and (2) directed the Secretary, through the BLM, to identify areas located in the County where biological conservation is a priority; and undertake activities to conserve and restore plant and animal species and natural communities within such areas. The administrative designation of new areas of critical environmental concern (ACECs) to provide special management attention to biological resources, as well as the identification of priority biological conservation areas, will satisfy this legislative mandate, and will be accomplished through an amendment to the St. George Field Office RMP.

Section 1977 (b)(1) of OPLMA, directed the BLM to develop a comprehensive travel management plan for public lands in Washington County. The St. George Field Office RMP must be amended to modify certain existing off-highway vehicle (OHV) area designations (open, limited or closed), to be in compliance with the Code of Federal Regulations (CFR) at 43 CFR 8340.0-5, (f), (g), and (h) respectively and 43 CFR 8342.1 (a-d) and related agency policies, before this comprehensive travel management plan can be developed.

Draft RMPs for the Beaver Dam Wash and Red Cliffs NCAs

The Draft RMPs/Draft EIS include goals, objectives, and management actions for conserving, protecting, and enhancing the natural and cultural resource values of the Beaver Dam Wash

and Red Cliffs NCAs. Multiple resource uses are also addressed, including lands available for livestock grazing; recreation and visitor services; and management of lands and realty actions, including delineation of rights-of-way avoidance and exclusion areas. This planning effort considers the establishment of a trail management corridor for the congressionally-designated Old Spanish Trail National Historic Trail through the Beaver Dam Wash NCA.

The Draft RMPs/DEIS analyzes four alternatives for the long term management of resource values and land uses in the two NCAs. Alternative A is the No Action alternative and would continue management of the public lands under current goals, objectives, and management decisions from the 1999 St. George Field Office RMP, as modified by congressional designations pursuant to OPLMA.

Alternative B emphasizes resource protection while allowing land uses and developments that are consistent with the NCA purposes, current laws, regulations, and policies.

Management actions would strive to protect ecologically important areas, native vegetation communities, habitats for wildlife, including special status species, cultural resources, and the scenic qualities of each NCA from natural and human-caused impacts. Intensive management of land uses and authorizations would avoid or lessen resource impacts.

Alternative C emphasizes the conservation and protection of resource values and the restoration of damaged lands, through the use of native species. This alternative would also implement higher levels of restrictions on land uses and developments to achieve conservation objectives.

Alternative D emphasizes a broader array and higher level of public use and access, while still meeting the congressionally-defined purpose of conservation and protection of resource values and scenic qualities in the two NCAs. This alternative would provide the greatest management flexibility relating to land uses and authorizations.

Alternative B has been identified as the BLM's preferred alternative in the Draft RMPs/Draft EIS but does not represent the final agency direction for the two NCAs. The Proposed RMPs, developed as a result of public comment on the Draft RMPs, may include objectives and actions analyzed in the other alternatives and reflect changes or adjustments based on new information or changes in BLM policies or priorities.

Draft RMP Amendment

The Draft EIS also analyzes four alternatives to amend the St. George Field Office RMP to address biological conservation and travel management issues on public lands outside of the two NCAs.

Alternative A (No Action) would continue to manage public lands under the goals, objectives, and decisions of the St. George Field Office RMP. Eight existing ACECs would continue to be managed, under current management prescriptions from that RMP. Area designations for motorized vehicle travel would continue to manage a majority of the public lands as limited to existing roads and trails.

Alternative B (the BLM's preferred alternative) addresses biological conservation through the proposed designation of three new ACECs (South Hills (1,950 acres), State Line (1,410 acres), and Webb Hill (520 acres)) to provide special management for native plant and animal species and natural systems; 8 existing ACECs would be retained, with no changes to the current management prescriptions. A Bull Valley Multi-Species Management Area (87,031 acres) is identified as a priority biological conservation area and management decisions are proposed to protect wildlife habitats and migration corridors. This alternative includes a proposal to identify specific routes for motorized vehicle travel in the St. George Field Office planning area. Route designations and use-limitations will be further developed in a comprehensive travel management plan to be created after the record of decision for these RMPs has been signed.

Alternative C would emphasize the use of special designations to achieve the biological conservation objectives mandated by OPLMA. Under this alternative, 14 new ACECs are proposed for administrative designation: (Dalton Wash (14 acres), Grafton (47 acres), Harrisburg Bench (111 acres), Moody Wash (24 acres), Mosquito Cove (88 acres), North Creek (54 acres), Santa Clara River Baker (32 acres), Santa Clara River Veyo (16 acres), Scarecrow Peak (9,655 acres), Shinob Kibe (70 acres), South Hills (1,950 acres), State Line (1,410 acres), Virgin River (245 acres), and Webb Hill (520 acres)). Eight existing ACECs would be retained. A Bull Valley Multi-Species Management Area (87,031 acres) is identified as a priority biological conservation area and management decisions are proposed to protect wildlife habitats and migration corridors through exclusion of new rights-of-way and closure to fluid leasable and saleable minerals

developments. This alternative includes a proposal to identify specific routes for motorized vehicle travel in the St. George Field Office planning area. Route designations and use-limitations will be further developed in a comprehensive travel management plan to be created after the record of decision for these RMPs has been signed.

Alternative D relies primarily on management decisions from the St. George RMP, current laws, regulations, and policies to satisfy OPLMA's legislative direction relating to biological conservation. No new ACECs would be designated and eight currently designated ACECs would be retained. A Bull Valley Multi-Species Management Area (87,031 acres) is identified for management as a priority biological conservation area and management decisions are proposed to protect wildlife habitats through management of 955 acres as a rights-of-way avoidance area. This alternative includes a proposal to identify specific routes for motorized vehicle travel in the St. George Field Office planning area. Route designations and use-limitations will be further developed in a comprehensive travel management plan to be created after the record of decision for these RMPs has been signed.

Pursuant to 43 CFR 1610.7-2(b), this notice announces a concurrent public comment period on proposed ACECs to protect plant and animal species and natural processes. The following management prescriptions may apply to the individual areas under consideration, if administratively designated as ACECs through the RMP amendment process: Retain public lands in federal ownership; avoid or exclude new rights-of-way; close to the harvesting of native seeds, plants, and plant materials for commercial purposes and personal use; close or place use constraints on fluid leasable and saleable mineral developments; close to dispersed camping and recreational target shooting; exclude competitive, commercial, and organized group events; protections via visual resource management class designation; and close or limit motorized travel to designated roads and trails.

Please note that public comments and information submitted including names, street addresses, and email addresses of persons who submit comments will be available for public review and disclosure at the above address during regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your

comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Authority: 40 CFR 1506.6, 40 CFR 1506.10, 43 CFR 1610.2.

Jenna Whitlock,

Acting State Director.

BILLING CODE 4310-DQ-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

Western Gulf of Mexico Planning Area (WPA) Outer Continental Shelf (OCS) Oil and Gas Lease Sale 246 (WPA Sale 246); MMAA104000

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Final notice of sale.

SUMMARY: On Wednesday, August 19, 2015, the Bureau of Ocean Energy Management (BOEM) will open and publicly announce bids for blocks offered in the Western Gulf of Mexico Planning Area (WPA) Lease Sale 246 (WPA Sale 246), in accordance with the provisions of the Outer Continental Shelf Lands Act (OCSLA) (43 U.S.C. 1331-1356, as amended) and the implementing regulations issued pursuant thereto (30 CFR parts 550 and 556). The WPA Sale 246 Final Notice of Sale (NOS) Package (Final NOS Package) contains information essential to potential bidders. Bidders are charged with knowing the contents of the documents contained in the Final NOS Package.

Date and Time: Public bid reading for WPA Sale 246 will begin at 9:00 a.m. on Wednesday, August 19, 2015. All times referred to in this document are local time in New Orleans, unless otherwise specified.

Location: The Mercedes-Benz Superdome, 1500 Sugarbowl Drive, New Orleans, Louisiana 70112. The lease sale will be held in the St. Charles Club Room on the second floor (Loge Level). Entry to the Superdome will be on the Poydras Street side of the building through Gate A on the Ground Level; parking will be available at Garage 6.

Bid Submission Deadline: BOEM must receive all sealed bids between 8:00 a.m. and 4:00 p.m. on normal working days, and from 8:00 a.m. to the Bid Submission Deadline of 10:00 a.m.

on Tuesday, August 18, 2015, the day before the lease sale. For more information on bid submission, see Section VII, "Bidding Instructions," of this document.

ADDRESSES: Interested parties, upon request, may obtain a compact disc (CD-ROM) containing the Final NOS Package by contacting the BOEM Gulf of Mexico (GOM) Region at the following address: Gulf of Mexico Region Public Information Office, Bureau of Ocean Energy Management, 1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394, (504) 736-2519 or (800) 200-GULF, or by visiting the BOEM Web site at <http://www.boem.gov/Sale-246/>.

Table of Contents

This Final NOS includes the following sections:

- I. Lease Sale Area
- II. Statutes and Regulations
- III. Lease Terms and Economic Conditions
- IV. Lease Stipulations
- V. Information to Lessees
- VI. Maps
- VII. Bidding Instructions
- VIII. Bidding Rules and Restrictions
- IX. Forms
- X. The Lease Sale
- XI. Delay of Sale

I. Lease Sale Area

Blocks Offered for Leasing

In WPA Sale 246, BOEM is offering for lease all blocks and partial blocks listed in the document "List of Blocks Available for Leasing" included in this Final NOS Package. All of these blocks are shown on the following leasing maps and Official Protraction Diagrams (OPDs):

Outer Continental Shelf Leasing Maps—Texas Map Numbers 1 Through 8

- TX1 South Padre Island Area (revised October 1, 2014)
- TX1A South Padre Island Area, East Addition (revised October 1, 2014)
- TX2 North Padre Island Area (revised November 1, 2000)
- TX2A North Padre Island Area, East Addition (revised November 1, 2000)
- TX3 Mustang Island Area (revised November 1, 2000)
- TX3A Mustang Island Area, East Addition (revised September 3, 2002)
- TX4 Matagorda Island Area (revised November 1, 2000)
- TX5 Brazos Area (revised November 1, 2000)
- TX5B Brazos Area, South Addition (revised November 1, 2000)
- TX6 Galveston Area (revised November 1, 2000)
- TX6A Galveston Area, South Addition (revised November 1, 2000)
- TX7 High Island Area (revised November 1, 2000)

- TX7A High Island Area, East Addition (revised November 1, 2000)
- TX7B High Island Area, South Addition (revised November 1, 2000)
- TX7C High Island Area, East Addition, South Extension (revised November 1, 2000)
- TX8 Sabine Pass Area (revised November 1, 2000)

Outer Continental Shelf Leasing Maps—Louisiana Map Numbers 1A, 1B, and 12

- LA1A West Cameron Area, West Addition (revised February 28, 2007)
- LA1B West Cameron Area, South Addition (revised February 28, 2007)
- LA12 Sabine Pass Area (revised July 1, 2011)

Outer Continental Shelf Official Protraction Diagrams

- NG14-03 Corpus Christi (revised November 1, 2000)
- NG14-06 Port Isabel (revised October 1, 2014)
- NG15-01 East Breaks (revised November 1, 2000)
- NG15-02 Garden Banks (revised February 28, 2007)
- NG15-04 Alaminos Canyon (revised October 1, 2014)
- NG15-05 Keathley Canyon (revised October 1, 2014)
- NG15-08 Sigsbee Escarpment (revised October 1, 2014)

Please Note: A CD-ROM (in ArcGIS and Acrobat (.pdf) format) containing all of the GOM Region leasing maps and OPDs, is available from the BOEM Gulf of Mexico Region Public Information Office for a price of \$15.00. These GOM Region leasing maps and OPDs also are available online for free in .pdf and .gra formats at <http://www.boem.gov/Official-Protraction-Diagrams>.

For the current status of all WPA leasing maps and OPDs, please refer to 66 FR 28002 (May 21, 2001), 67 FR 60701 (September 26, 2002), 72 FR 27590 (May 16, 2007), 76 FR 54787 (September 2, 2011), 79 FR 32572 (June 5, 2014), and 80 FR 3251 (January 22, 2015). In addition, Supplemental Official OCS Block Diagrams (SOBDs) for blocks containing the U.S. 200-Nautical Mile Limit line and the U.S.-Mexico Maritime and Continental Shelf Boundary line are available. These SOBDs are available from the BOEM Gulf of Mexico Region Public Information Office and on BOEM's Web site at <http://www.boem.gov/Supplemental-Official-OCS-Block-Diagrams-SOBDs/>. For additional information, or to order the above referenced maps or diagrams, please call the Mapping and Automation Section at (504) 731-1457.

All blocks being offered in the lease sale are shown on these leasing maps and OPDs. The available Federal acreage of each whole and partial block in this lease sale is shown in the document
