SUPPLEMENTARY INFORMATION: *Title:* Reporting Requirements for State Plans of Work for Agricultural Research and Extension Capacity Grants.

Office of Management and Budget (OMB) Number: 0524-0036.

Expiration Date of Current Approval: January 1, 2016.

Type of Request: Notice of intent to extend and revise the submission requirements for a currently approved information collection. The burden for this submission remains unchanged.

Abstract: Type of Request: Intent to seek approval for the extension of a currently approved information collection for three years.

Abstract: The purpose of this collection of information is to continue implementing the requirements of sections 202 and 225 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) which require that a plan of work must be submitted by each institution and approved by the National Institute of Food and Agriculture (NIFA) before

capacity funds may be provided to the 1862 and 1890 land-grant institutions.

The capacity funds are authorized under the Hatch Act for agricultural research activities at the 1862 land-grant institutions, under the Smith-Lever Act for the extension activities at the 1862 land-grant institutions, and under sections 1444 and 1445 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 for research and extension activities at the 1890 land-grant institutions. The plan of work must address critical agricultural issues in the State and describe the programs and projects targeted to address these issues using the NIFA capacity funds. The plan of work also must describe the institution's multistate activities as well as their integrated research and extension activities.

This collection of information also includes the reporting requirements of section 102(c) of AREERA for the 1862 and 1890 land-grant institutions. This section requires the 1862, 1890, and 1994 land-grant institutions receiving agricultural research, education, and extension capacity funds from NIFA of the Department of Agriculture (USDA) to establish and implement processes for obtaining input from persons who conduct or use agricultural research, extension, or education concerning the use of such funds by October 1, 1999.

Section 102(c) further requires that the Secretary of Agriculture promulgate regulations that prescribe what the institutions must do to meet this requirement and the consequences of not complying with this requirement. The Stakeholder Input Requirements for Recipients of Agricultural Research, Education, and Extension Capacity Funds (7 CFR part 3418) final rule (65 FR 5993, Feb. 8, 2000) applies not only to the land-grant institutions receiving capacity funds but also to the veterinary and forestry schools that are not land-grant institutions but receive forestry research funds under the McIntire-Stennis Act of 1962 and animal health and disease research funds under section 1433 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA). Failure to comply with the requirements of this rule may result in the withholding of a recipient institution's capacity funds and redistribution of its share of capacity funds to other eligible institutions. The institutions are required to annually report to NIFA: (1) The actions taken to seek stakeholder input to encourage their participation; (2) a brief statement of the process used by the recipient institution to identify individuals and

groups who are stakeholders and to collect input from them; and (3) a statement of how collected input was considered. There is no legislatively prescribed form or format for this reporting requirement. However, the 1862 and 1890 land-grant institutions are required to report on their Stakeholder Input Process annually as part of their Annual Report of Accomplishments and Results.

Section 103(e) of AREERA requires that the 1862, 1890, and 1994 land-grant institutions establish a merit review process, prior to October 1, 1999, in order to obtain agricultural research and extension funds. Section 104 of AREERA also stipulated that a scientific peer review process be established for research programs funded under section 3(c)(3) of the Hatch Act (commonly referred to as Hatch Multistate Research Funds).

Title: Lien Accommodations and Subordinations, 7 CFR 1717, Subparts R & S.

OMB Control Number: 0572-0100.

Type of Request: Extension of a currently approved collection.

Abstract: The RE Act of 1936, as amended (7 U.S.C. 901 *et seq.*), authorizes and empowers the Administrator of RUS to make loans in the several United States and Territories of the United States for rural Electrification and the furnishing of electric energy to persons in rural areas who are not receiving central station service. The RE Act also authorizes and empowers the Administrator of RUS to provide financial assistance to borrowers for purposes provided in the RE Act by accommodating or subordinating loans made by the national Rural Utilities Cooperative Finance Corporation, the Federal Financing Bank, and other lending agencies. Title 7 CFR part 1717, subparts R & S sets forth policy and procedures to facilitate and support borrowers' efforts to obtain private sector financing of their capital needs, to allow borrowers greater flexibility in the management of their business affairs

without compromising RUS loan security, and to reduce the cost to borrowers, in terms of time, expenses and paperwork, of obtaining lien accommodations and subordinations. The information required to be submitted is limited to necessary information that would allow the Agency to make a determination on the borrower's request to subordinate and accommodate their lien with other lenders.

Estimate of Burden: Public Reporting burden for this collection of information is estimated to average 19 hours per response.

Respondents: Not-for-profit institutions; Business or other for profit.
