petitioners ''consciously chose to limit the *Order's* reach to certain steel products 5.00 mm or more, but less than 19.00 mm in solid cross-sectional diameter.'' [5] On remand, based on the Court's reasoning, the Department found that there is no alternative but to change the results of the anti-circumvention determination and find on remand that 4.75 mm wire rod is not within the scope of the *Order*.[6] In *Deacero II,* the Court held that although the Department ultimately reached a supportable result in the First Remand Results, remand was nonetheless necessary because the Department arrived at the result by misinterpreting *Deacero I*.[7] Therefore, in *Deacero II,* the Court instructed the Department to explain whether it seeks the Court's leave to revisit the issue of commercial availability.[8] In the Second Remand Results, the Department continued to respectfully disagree with the Court that the ''commercial availability'' of a product in the country in question, in a third country or in the United States bars the Department from reaching an affirmative anti-circumvention determination under the minor alteration provision of the statute.[9] For these same reasons, the Department did not request a remand to further consider ''commercial availability'' in the context of this minor alteration proceeding. On December 22, 2014, the CIT entered final judgment sustaining the First Remand Results.[10]

Timken Notice

In its decision in *Timken,* 893 F.2d at 341, as clarified by *Diamond Sawblades,* the CAFC held that, pursuant to section 516A(e) of the Tariff Act of 1930, as amended (the Act), the Department must publish a notice of a court decision that is not ''in harmony'' with a Department determination and must suspend liquidation of entries pending a ''conclusive'' court decision. The CIT's December 22, 2014 judgment sustaining the Department's First Remand Results with respect to Deacero's shipments of wire rod with an actual diameter of 4.75 mm to 5.00 mm not constituting a circumventing minor alteration of the *Order* constitutes a final decision of the Court that is not in harmony with the Department's *Final Determination.* This notice is published in fulfillment of the publication requirements of *Timken.*

Amended Final Determination

Because there is now a final court decision, we are amending the *Final Determination* with respect to Deacero's shipments of wire rod with an actual diameter of 4.75 mm to 5.00 mm. Based on the negative circumvention determination, Deacero's 4.75 mm wire rod is not subject to antidumping duties.

Accordingly, the Department will continue the suspension of liquidation of the subject merchandise, but set the cash deposit rate for the 4.75 mm up to 5 mm diameter wire rod to zero pending a final and conclusive court decision. For any antidumping duties which have been deposited for 4.75 up to 5mm diameter wire rod entered from January 1, 2015 to the date of this notice, we will instruct Customs and Border Protection to refund the cash deposit upon request but continue to suspend the entries at a zero cash deposit rate.

Notification to Interested Parties

This notice is issued and published in accordance with sections 516A(e)(1), 751(a)(1), and 777(i)(1) of the Act.

Dated: July 20, 2015.
