Title of Collection: Natural Experiments and Model Career-Focused Schools: An Environmental Scan.

OMB Control Number: 1830-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: State, Local and Tribal Governments.

Total Estimated Number of Annual Responses: 100.

Total Estimated Number of Annual Burden Hours: 25.

Abstract: The purpose of this collection is to determine the extent to

which there are natural circumstances that approximate random assignment among a group of college- and career-focused schools that belong to one or more school reform networks. A survey will be administered to principals of these schools to determine if they are oversubscribed and use lotteries for student admission. If a sufficient number of schools with such practices are identified, future research could use these naturally occurring experimental conditions to investigate differences in the outcomes achieved by students who attend these types of schools.
