

receipt. CBP will validate that information, and electronically transmit entry and release information to agencies (including ATF) for purposes of satisfying CBP's certification requirements. The pilot program seeks to streamline this part of the import process. Interested parties should regularly check the following Web site to confirm the list of participating ports: <http://www.cbp.gov/document/guidance/list-aceitds-pga-message-set-pilot-ports>. Information on ATF's rules and regulations, and answers to commonly asked questions, can be found on the agency's Web site: <http://www.atf.gov>.

**DATES:** Interested parties may submit electronic or written requests to participate in the pilot program throughout the duration of the pilot. This pilot will begin no earlier than August 19, 2015, and will continue until concluded by publication of a notice ending it. Requests to participate in the pilot program should be submitted to William E. Majors, whose contact information can be found below.

For technical questions regarding ACE or ABI transmissions, or the PGA message set data transmission, please contact your assigned CBP client representative. Interested parties without an assigned client representative should submit an email to Steven Zaccaro at [steven.j.zaccaro@cbp.dhs.gov](mailto:steven.j.zaccaro@cbp.dhs.gov).

**SUPPLEMENTARY INFORMATION:** ATF intends to join CBP's pilot program no earlier than August 19, 2015. Like other agencies, it encourages the voluntary participation of U.S. importers. Importers or their licensed customs broker who wish to participate in this test must have the capability to file the relevant data through the ACE using a software program that has completed ACE certification testing for the PGA message set. Instead of using the existing process, participating U.S. importers will use the PGA Message Set to send pertinent information through ACE for CBP release and receipt. These data elements include Agency Program Codes, Category Type Codes, ATF Category Code, Type Codes, and Exemption Codes. CBP will validate that information, and electronically transmit

entry and release information to ATF for purposes of satisfying CBP's certification requirements.

All data submitted and entered into ACE is subject to the Trade Secrets Act (18 U.S.C. 1905) and is considered confidential, except to the extent as otherwise provided by law. As stated in previous notices, however, the submitter's participation in this or any of the previous ACE tests is not confidential and upon a written Freedom of Information Act request, the name(s) of an approved participant(s) will be disclosed by CBP in accordance with 5 U.S.C. 552.

A list of participating ports is available at <http://www.cbp.gov/document/guidance/list-aceitds-pga-message-set-pilot-ports>. Interested parties should regularly check the Web site for updates to the list of ports where this pilot is effective. This pilot program will begin no earlier than August 19, 2015, and will continue until concluded by publication of a notice ending it. Interested parties may submit requests to participate through the duration of the program.

**BILLING CODE P**

**DEPARTMENT OF JUSTICE**

**Drug Enforcement Administration**

**[Docket No. DEA-392]**

**Manufacturer of Controlled Substances Registration: Apertus Pharmaceuticals**

**ACTION:** Notice of registration.

**SUMMARY:** Apertus Pharmaceuticals applied to be registered as a manufacturer of certain basic classes of controlled substances. The Drug Enforcement Administration (DEA) grants Apertus Pharmaceuticals registration as a manufacturer of those controlled substances.

**SUPPLEMENTARY INFORMATION:** By notice dated March 20, 2015, and published in the **Federal Register** on March 27, 2015, 80 FR 16440, Apertus Pharmaceuticals, 331 Consort Drive, St. Louis, Missouri 63011 applied to be registered as a manufacturer of certain basic classes of controlled substances. No comments or objections were submitted to this notice.

The DEA has considered the factors in 21 U.S.C. 823(a) and determined that the registration of Apertus Pharmaceuticals to manufacture the basic classes of controlled substances is consistent with the public interest and with United States obligations under international treaties, conventions, or

protocols in effect on May 1, 1971. The DEA investigated the company's maintenance of effective controls against diversion by inspecting and testing the company's physical security systems, verifying the company's compliance with state and local laws, and reviewing the company's background and history.

Therefore, pursuant to 21 U.S.C. 823(a), and in accordance with 21 CFR 1301.33, the above-named company is granted registration as a bulk manufacturer of the basic classes of controlled substances listed:

Controlled substance	Schedule
Marihuana (7360) .....	I
Tetrahydrocannabinols (7370) .....	I

The company plans to divide the synthesized cannabidiol, with a portion going for sale as an API in nabiximol. The raw material will be used to synthesize dronabinol. Therefore, they anticipate consuming and purchasing small quantities of CS for generating data to support the Drug Master File with the FDA including validation batches, standards and stability studies.

No other activity for this drug code is authorized for this registration.

Dated: July 23, 2015.
