Abstract: The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60, subpart OOO. Owners or operators of the affected facilities must submit initial notification, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative.

Form Numbers: None.

Respondents/affected entities: Nonmetallic mineral processing facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subpart OOO).

Estimated number of respondents: 4,896 (total).

Frequency of response: Initially and occasionally.

Total estimated burden: 14,120 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,648,000 (per year), includes \$228,000 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase in the respondent burden from the most recently approved ICR. This increase is not due to any program changes. The previous ICR reflected burdens and costs associated with initial activities for subject facilities, including performance testing and establishing recordkeeping systems. This ICR accounts for the additional burden incurred by existing sources that must conduct five-year performance testing during this ICR period. This ICR also reflects an increase in the total number of respondents due to industry growth. The overall result is an increase in total burden hours and costs.

EPA has also updated the capital/startup and O&M costs to reflect the additional costs incurred by existing sources that must conduct five year performance tests. This adjustment resulted in an overall increase in the total capital/startup and O&M cost.

There is a decrease in Agency burden from the most recently approved ICR. The previous ICR's burden calculations largely overestimated the number of existing sources submitting performance test reports to EPA. We have adjusted the number of sources accordingly. This adjustment resulted in the overall decrease in the Agency burden.

SUPPLEMENTARY INFORMATION:

Docket: Supporting documents, including the ICR that explains in detail the information collection activities and the related burden and cost estimates that are summarized in this document, are available in the docket for this ICR. The docket can be viewed online at <http://www.regulations.gov> or in person at the EPA Docket Center, West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is (202) 566-1744. For additional information about EPA's

public docket, visit <http://www.epa.gov/dockets>.

ICR status: This ICR is for a new information collection activity.

Under PRA, 44 U.S.C. 3501 *et seq.*, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers for certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This ICR documents the Paperwork burden of the electronic collection of information for the pre-award burden activity for creating a work plan and the post-award and after-the-grant award activities related to reporting accomplishments to implement EPA's Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) State and Tribal Assistance Grant (STAG) program (7 U.S.C. 136u). This ICR augments the ICR entitled "EPA's General Regulation for Assistance Programs ICR" (EPA No. 0938.18; OMB No. 2030-0020) which accounts for the current PRA burden for the minimum management requirements for all recipients of EPA grants or cooperative agreements (assistance agreements). This new ICR provides OMB the burden assessment for collecting the same information in a different standardized electronic format for only the STAG grant program.

Respondents/Affected Entities: State, local governments, tribes and U.S. territories. Entities potentially affected by this ICR are grantees of Federal funds participating in the FIFRA and STAG program.

Respondent's obligation to respond: Mandatory (7 U.S.C. 136u and 40 CFR parts 30 and 31).

Estimated total number of potential respondents: 81.

Frequency of response: On occasion.

Estimated total burden: 6,318 hours (per year). Burden is defined as 5 CFR 1320.3(b).

Estimated total costs: \$233,280 (per year), includes no annualized capital investment or maintenance and operational costs.

Changes in the estimates: This is a new ICR. Relative to the baseline annual burden for reporting general management grant reporting requirements approved under EPA ICR No. 0938.18; OMB No. 2030-0020, the overall annual burden increase for FIFRA program specific activities is 6,318 hours, or 78 hours per respondent

annually. This change documents the incremental burden for reporting FIFRA grant program specific activities (*e.g.*, 5,700 environmental enforcement and endangered species activities) and provides conservative projection for program growth. This is a program change.

Authority: 44 U.S.C. 3501 *et seq.*
