Appendix: Questions To Address

- How should segments be defined for purposes of disaggregation?
- Are there scenarios in which pipelines should be required to file disaggregated information and scenarios in which they should not? List specific scenarios.
- What would be the additional cost to report disaggregated information on the Form 6 page 700?
- What are the potential benefits of requiring disaggregated information?
- Do pipelines currently track their revenues and operating expenses by segment?
- If pipelines are required to provide cost information by segments, should they also be required to provide volumes and revenues by segments?
- What allocation methods do pipelines use to determine the share of overhead and shared costs associated with each segment? Would this have to change if the information is broken down by segment, and if so, how?
- What, if any, are the drawbacks of the current process of providing workpapers to parties once a proceeding has been initiated?
- In addition to shippers, which “interested persons” should be entitled to request workpapers?
- How frequently should shippers and other interested persons be entitled to access workpapers?
- Do workpapers need to be provided in electronic form to be useful? Should the Commission standardize the manner in which workpapers are presented?
- What process and protections should be required in connection with making workpapers available on request?
- What additional costs are associated with making workpapers available upon request as compared to the current process of making them available once a trial-type hearing has been initiated?

BILLING CODE 6717-01-P

PEACE CORPS

22 CFR Part 305

RIN 0420-AA26

Eligibility and Standards for Peace Corps Volunteer Service

AGENCY: Peace Corps.

ACTION: Proposed rule.

SUMMARY: This proposed regulation would restate and update the requirements for eligibility for Peace Corps Volunteer service, and the factors considered in the assessment and selection of eligible applicants for training and service. The requirements and factors for eligibility and selection were last published in 1984. A revision of the regulation is necessary to conform to changes in Federal laws and regulations, particularly with respect to those prohibiting discrimination on the basis of disability, and to reflect policy changes made by the Peace Corps.

DATES: Comments due on or before August 31, 2015.

ADDRESSES: Address all comments to Anthony F. Marra, Associate General Counsel, Peace Corps, 1111 20th Street NW., Washington, DC 20526. Comments may also be sent electronically to the following email address: pcfr@peacecorps.gov.

FOR FURTHER INFORMATION CONTACT:

Colin Jones, Office of the General Counsel, Policy and Program Analyst, 1111 20th Street NW., Washington, DC 20526, and 202-692-2164.

SUPPLEMENTARY INFORMATION: Under the Peace Corps Act (22 U.S.C. 2501 *et seq.*), the Peace Corps is authorized to enroll qualified US citizens and nationals as Volunteers to serve abroad, under conditions of hardship if necessary, (i) to help the people of interested countries meet their need for trained personnel, particularly in meeting the basic needs of those living in the poorest areas of such countries, (ii) to help promote a better understanding of the American people on the part of the people served, and (iii) to help promote a better understanding of other peoples on the part of the American people. The Peace Corps is authorized to establish the terms and conditions of enrollment of Volunteers, as well as the terms and conditions of service. The proposed rule would revise and update rules concerning eligibility and selection standards for Peace Corps Volunteer service, which were last published in the *Federal Register* over 30 years ago (49 FR 38939, October 2, 1984), and entered into effect November 1, 1984, and currently appear at 22 CFR part 305.

Request for Comments

The Peace Corps invites public comment on all aspects of this proposed rule and will take those comments into account before publishing a final rule.

The proposed rule would make the following changes:

(1) *Introduction.* The current introductory section (22 CFR 305.1) would be revised to provide new definitions for the three stages (Applicant, Trainee, and Volunteer) that an individual who is interested in service as a Volunteer passes through. It would also provide a definition of the term “enrollment”, which is used in connection with an individual’s service as a Volunteer. The section would include a general statement explaining the process the Peace Corps follows in the selection of Volunteers, as well as to provide notice to applicants regarding the importance of submitting complete and accurate information in the application process. The section would eliminate the recitation of the various anti-discrimination statutes that the Peace Corps is obligated to follow and replace it with a clear statement that the Peace Corps does not discriminate on various grounds in the selection of Volunteers. The section advises that applicants may be disqualified, and Volunteers and Trainees may be separated, if the Peace Corps determines they provided materially false, misleading, inaccurate or incomplete information during the Peace Corps application process.

(2) *Eligibility.* The eligibility section (22 CFR 305.2) would be simplified to cover only the existing citizenship and age criteria for Volunteer applicants. Other eligibility factors in the current § 305.2 would be moved to succeeding sections, where they would be updated and expanded.

(3) *Selection Standards.* A revised § 305.3 would incorporate the selection factors that currently appear in § 305.4. The revision would restate the current attributes that an applicant must meet for Volunteer service, with a little more detail. It would also revise the description of the various personal attributes that are taken into account when evaluating applicants. The revised § 305.3 would explain that the Peace Corps assesses each applicant’s personal, professional, educational, and legal qualifications in order to select those applicants most likely to be successful in a Peace Corps assignment, serving under conditions of hardship if necessary, to achieve the goals of the Peace Corps. Meeting the several qualifications would not in and of itself entitle any individual to serve in the
