AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an

opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the collection of data for quarterly financial reporting on federally funded programs, on Form ETA-9130 (currently due to expire December 31, 2015).

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Submit written comments to the office listed in the addresses section below on or before October 5, 2015.

SUPPLEMENTARY INFORMATION:

I. Background

ETA awards approximately \$8 billion in formula and discretionary grants each year to an average of 1,000 recipients. Financial reports for each of these grants must be submitted quarterly on the financial report form ETA-9130. Recipients include but are not limited to: State Employment Security Agencies which are comprised of three components: Wagner Peyser Employment Service, Unemployment Insurance program, and Trade Program Grant Agreements; as well as Workforce Innovation and Opportunity Act (WIOA) Youth, Adult, and Dislocated Worker programs; National Dislocated Worker Grants; National Farmworker Jobs Program (NFJP); Indian and Native American programs; the Senior

Community Service Employment Program; Workforce Innovation and Opportunity Act discretionary grants; and H-1B Job Training Grants.

Financial reporting requirements for Federal programs prescribed by the Office of Management and Budget (OMB) have changed with the implementation of the Uniform Guidance, which went into effect on December 26, 2014, replacing numerous previously applicable Circulars. These changes affect both the ETA-9130 reporting form and its instructions. However, they do not affect the collection burden, but instead only update certain key terms and definitions.

Additionally, with the passage of WIOA, there are numerous new statutory requirements that impact financial reporting, including but not limited to new and/or revised limitations and baselines that require the addition of new and modification of existing reporting line items on ETA-9130 Financial Reports, as outlined in this TEGL. Other reporting line items have been added and removed in an effort to streamline Federal financial reporting and make form ETA-9130 more closely resemble the SF-425 (OMB 0348-0061), which is the standard financial reporting form for Federal grant recipients.

ETA has utilized the data collected to assess the effectiveness of ETA programs and to monitor and analyze the financial activity of its grantees. Grantees are provided with pre-designed software to reflect the requirements of ETA Form 9130 so that the required data will be reported electronically. ETA strives to reduce reporting time for our recipients. Several sections of the 9130 have pre-filled line items or automatically calculated line items, which is convenient and time saving for our recipients.

This data collection format permits ETA to evaluate program effectiveness and to monitor and analyze financial activity, while complying with OMB efforts to streamline Federal financial reporting.

II. Review Focus

including the validity of the methodology and assumptions used;

- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Diesel-Powered Equipment in Underground Coal Mines information collection requirements codified in regulations 30 CFR part 75. The MSHA requires a mine operator to provide important safety and health protection to an underground coal miner who works on and around diesel-powered equipment. Engines powering diesel equipment are potential contributors to fires and explosion hazards in the confined environment of an underground coal mine where combustible coal dust and explosive methane gas are present. In addition, diesel equipment operating in an underground coal mine can pose serious health risks to miners from exposure to diesel exhaust emissions, including diesel particulates, oxides of nitrogen,

and carbon monoxide. Diesel exhaust is a lung carcinogen in animals.

This information collection pertains to diesel equipment maintenance and use; tests and maintenance of fire suppression systems on both the equipment and at fueling stations; and exhaust gas sampling. Records are required to document essential testing and maintenance of diesel-powered equipment are conducted regularly by a qualified person; any corrective action is taken; and a person performing covered maintenance, repairs, examinations, or tests is trained and qualified to perform such tasks.

The subject information collection requirements are found in regulations 30 CFR 75.1901(a), Diesel fuel requirements; 75.1904(b)(4)(i), Underground diesel fuel tanks and safety cans; 75.1906(d), Transport of diesel fuel; 75.1911(j), Fire suppression systems for diesel-powered equipment and fuel transportation units; 75.1912(i), Fire suppression systems for permanent underground diesel fuel storage facilities; 75.1914(f)(2), (g), (h)(1), and (h)(2), Maintenance of diesel-powered equipment; sections 75.1915(b)(5), (c)(1), and (c)(2), Training and qualification of persons working on diesel-powered equipment. Federal Mine Safety and Health Act of 1977 sections 801(a) and 803(h) authorize this information collection. *See* 30 U.S.C. 811(a), 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0119.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on August 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information
