BILLING CODE P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-522 and 731-TA-1258 (Final)]

Certain Passenger Vehicle and Light Truck Tires From China

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that an industry in the United States is materially injured by reason of imports of certain passenger vehicle and light truck tires from China, provided for in subheadings: 4011.10.10, 4011.10.50, 4011.20.10, and 4011.20.50 of the Harmonized Tariff Schedule of the United States, that have been found by the Department of Commerce to be sold in the United States at less than fair value ("LTFV") and subsidized by the government of China.^{2,3}

Background

The Commission, pursuant to sections 705(b) and 735(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) and (19 U.S.C. 1673d(b)), instituted these investigations effective June 3, 2014, following receipt of petitions filed with the Commission and Commerce by United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers, International Union, Pittsburgh, PA. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of certain passenger vehicle and light truck tires from China were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and dumped within the meaning of 733(b) of the Act (19 U.S.C. 1673b(b)). Notice of the scheduling of the final phase of the Commission's investigations and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S.

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² Vice Chairman Dean A. Pinkert and Commissioners Irving A. Williamson and Rhonda K. Schmittlein voted in the affirmative. They further determine that imports subject to Commerce's affirmative critical circumstances determinations are not likely to undermine seriously the remedial effect of the countervailing and antidumping duty orders on certain passenger vehicle and light truck tires from China.

³ Chairman Meredith M. Broadbent and Commissioners David S. Johanson and F. Scott Kieff dissenting.

International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on February 24, 2015 (80 FR 9744). The hearing was held in Washington, DC, on June 9, 2015, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to sections 705(b) and 735(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) and (19 U.S.C. 1673d(b)). It completed and filed its determinations in these investigations on August 3, 2015. The views of the Commission are contained in USITC Publication 4545 (August 2015), entitled *Certain Passenger Vehicle and Light Truck Tires from China: Investigation Nos. 701-TA-522 and 731-TA-1258 (Final)*.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Independent Contractor Registration and Identification information collection requirements codified in regulation 30 CFR 45.3(a) and 45.4(a) and (b). Regulations 30 CFR part 45, Independent Contractors, sets forth information requirements and procedures for independent contractors to obtain a MSHA identification number and procedures for service of documents upon independent contractors. The subject information collections support the appropriate assessment of fines for violations by independent contractors and the deterrent effect of MSHA enforcement actions on independent contractors. A contractor may use Form MSHA-7000-52 to register. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a), 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB

Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0040.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on August 31, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on May 11, 2015 (80 FR 26953).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0040. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 - Enhance the quality, utility, and clarity of the information to be collected; and
 - Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
