

will spend more time using media features than text-based content.

All information will be collected electronically. This study will collect data through two mechanisms: (1) Self-administered online surveys, and (2) the Crush enrollment database. Participants will complete a total of three self-administered online surveys at baseline, three and six month follow-up. Survey questions will assess behavior, attitudes, social norms about sexual behavior, contraception and clinic utilization, and satisfaction with Crush.

The mobile response surveys will be sent to participants via text message which they can complete on a smartphone. The estimated burden per response is 13–20 minutes. Survey

responses will be matched by each participant’s unique identifying number. Each participant will receive up to two survey reminders starting one week after the initial survey link is sent, for two consecutive weeks. There are minor differences in survey content for the control and intervention groups.

Each participant will create a profile in the database upon enrollment. This database will collect initial demographic and contact information, informed consent signatures, and information about the participant’s navigation pattern through Crush. Any information entered directly into Crush interactive features will not be stored in the system. The database only collects web analytics data about page visited

and duration of each visit by User ID and IP address. Web analytics are generated for any Web site and are a standard evaluation mechanism for assessing the traffic patterns on Web pages. This technology permits development of an objective and quantifiable measure that tracks and records participants’ exposure to Crush. This study component does not entail any response burden to participants.

Findings will be used to inform the development and delivery of effective health communications.

OMB approval is requested for one year. Participation is voluntary and there are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondent	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs.)	Total burden (in hrs.)
Girls Ages 14–18 Years	Enrollment	1,200	1	5/60	100
	Consent	1,200	1	5/60	100
Control Group	Baseline Survey	600	1	13/60	130
	3-Month Follow-up Survey	600	1	20/60	200
	6-Month Follow-up Survey	600	1	20/60	200
Intervention Group	Baseline Survey	600	1	13	130
	3-Month Follow-up Survey	600	1	20	200
	6-Month Follow-up Survey	600	1	20	200
Total	1,260

Submission for OMB Review; Comment Request

Title: Youth Education and Relationship Services (YEARS) Descriptive Study.

OMB No.: New Collection,

Description: Since 2006, Congress has authorized dedicated funding (currently at the level of \$75 million annually) to support programs providing healthy marriage and relationship education (HMRE). In order to better understand the services that federally-funded HMRE programs are providing to youth and the populations the programs are reaching, The Office of Planning, Research and Evaluation (OPRE), within ACF/HHS, is proposing data collection activity as part of the Youth Education and Relationship Services (YEARS) descriptive study. The data that ACF proposes to collect includes information on funding spent serving youth, the number of youth being served, youth demographic characteristics, characteristics of the organizations or programs serving youth, information on program curricula and contents, and

program implementation information. This data is to be collected through a web-based survey that is to be completed by HMRE grantee program staff. This information will be critical to inform future efforts to improve HMRE programs serving youth.

Respondents: Healthy marriage and relationship education (HMRE) grantee program staff.

Note: To fully address the objectives outlined for this project, it was determined that additional information collection beyond what was proposed in the 60 day **Federal Register** notice is necessary. Therefore, the proposed semi-structured interviews submitted with this request (including the site visit screener and semi structured interviews with Program directors/ Administrators, Facilitators, and Partner organizations/providers) require additional burden beyond that originally estimated in the 60 day **Federal Register** notice.

ANNUAL BURDEN ESTIMATES

Instrument	Total/annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
YEARS Web-based staff survey (Program director/Administrator)	44	1	0.5	22
YEARS Web-based staff survey (Facilitator)	44	1	0.5	22
Site visit screener (Program director/Administrator)	12	1	0.083	1

ANNUAL BURDEN ESTIMATES—Continued

Instrument	Total/annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Semi-structured interview (Program director/Administrator)	6	1	1.5	9
Semi-structured interview (Facilitator)	6	1	1.5	9
Semi-structured interview (Partner organization/provider)	3	1	1.5	5

Estimated Total Annual Burden Hours: 68.

Additional Information: Copies of the proposed collection may be obtained by writing to the Administration for Children and Families, Office of Planning, Research and Evaluation, 370 L'Enfant Promenade SW., Washington, DC 20447, Attn: OPRE Reports Clearance Officer. All requests should be identified by the title of the information collection. Email address: OPREinfocollection@acf.hhs.gov.

OMB Comment: OMB is required to make a decision concerning the collection of information between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication. Written comments and recommendations for the proposed information collection should be sent directly to the following: Office of Management and Budget, Paperwork Reduction Project, Email: OIRA_SUBMISSION@OMB.EOP.GOV, Attn: Desk Officer for the Administration for Children and Families.

Robert Sargis,

ACF Reports Clearance Officer.

Administration for Children and Families

Submission for OMB Review; Comment Request

Title: Understanding the Intersection Between TANF and Refugee Cash Assistance Services.

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS) is proposing data collection activities as part of a project to understand the intersection between Temporary Assistance for Needy Families (TANF) and Refugee Cash Assistance (RCA) programs. The goal of this project is to help ACF better understand how the variety of systems that assist refugees collaborate to promote common goals of self-sufficiency and employment, and how refugees' experiences might differ depending on the structure of the state (or local) program arrangements. To achieve this goal, this study aims to document what states are doing to help refugees gain self-sufficiency; if and how states are integrating RCA, TANF, and associated services to better meet the needs of refugees; and what data is collected currently, or might be collected in the future, to better understand refugee resettlement services and suggest future areas for inquiry.

The proposed data collection activities described in this notice will collect data about state policies and practices; how TANF, RCA, and associated services are provided; the respective roles of the various agencies and organizations in serving participants; how the agencies and organizations integrate services internally and/or collaborate with other organizations; refugee populations served; approaches to addressing the particular barriers refugees face; promising practices and strategies for assisting refugees; gaps in services; local labor market conditions; and experiences of refugees accessing services through these programs.

This **Federal Register** Notice provides the opportunity to comment on

proposed new information collection activities for this study: (1) The *survey of state refugee coordinators and Wilson-Fish program coordinators* will be administered to state refugee coordinators in each state and the District of Columbia. The survey will collect information about state policies and practices.

(2) The four *site visit interview guides* will collect information about how TANF, RCA, and associated services are provided; the respective roles of the various agencies and organizations in serving participants; how the agencies and organizations integrate services internally and/or collaborate with other organizations; approaches to addressing the particular barriers refugees face; promising practices and strategies for assisting refugees; gaps in services; data maintained by programs serving refugees; and local labor market conditions.

(3) The *focus group guide* will collect information from program participants about the services they received, how they were delivered, their experiences attempting to achieve self-sufficiency within a rapid timeframe, and the challenges they have faced.

Respondents: Individuals receiving RCA, TANF, and related services; State Refugee Coordinators/Wilson-Fish Program Coordinators; Managers and staff at local TANF offices; local resettlement agency staff; community-based organization staff providing services to refugees; staff operating alternative cash assistance programs for refugees such as Public/Private Partnerships(s) and Wilson-Fish programs (if different from the local resettlement agency); and staff from other programs providing employability and social adjustment and cultural orientation services to refugees.

ANNUAL BURDEN ESTIMATES

Instrument	Total number of respondents	Annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Survey of State Refugee Coordinators and Wilson-Fish Program Coordinators	51	26	1	.5	13
