

approve Missouri's SIP revision because it meets the requirements of the CAA and the CSAPR requirements to replace EPA's allowance allocations for the 2016 control periods. This action is being proposed pursuant to the CAA and its implementing regulations. EPA's allocations of CSAPR trading program allowances for Missouri for control periods in 2017 and beyond remain in place until the State submits and EPA approves state-determined allocations for those control periods through another SIP revision. The CSAPR FIPs for Missouri remain in place until such time as the State decides to replace the FIPs with a SIP revision.

DATES: Comments on this proposed action must be received in writing by September 23, 2015.

SUPPLEMENTARY INFORMATION: In the final rules section of this **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; correction.

SUMMARY: This document contains a correction to the proposed rulemaking, which was published on July 14, 2015. The proposal contained an error that is identified and corrected in this action.

DATES: This document is effective August 24, 2015.

SUPPLEMENTARY INFORMATION:

Background

In a proposed rule published July 14, 2015 (80 FR 40952), EPA proposed to approve updates to Administrative Rules of South Dakota (ARSD) into the South Dakota State Implementation Plan (SIP). Among the updates EPA proposed to approve was Article 74:36:05, "Operating Permits for Part 70 Sources" which details South Dakota's Clean Air Act Title V program. Clean Air Act Title V requirements are not subject to Section 110 of the Clean Air Act and are thus not required to be incorporated into SIPs. Therefore, EPA is issuing this correction document to remove the proposed approval of ARSD 74:36:05

from our July 14, 2015 action. EPA is instead proposing not to take action on South Dakota's updates to this provision.

Air Plan Approval; IL; MN; Determinations of Attainment of the 2008 Lead Standard for Chicago and Eagan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to make determinations under the Clean Air Act (CAA) that the Chicago, Illinois and Eagan, Minnesota nonattainment areas (hereafter also referred to, respectively, as the "Chicago area," "Eagan area," or "areas") have attained the 2008 lead (Pb) national ambient air quality standard (NAAQS or standard). These determinations of attainment are based upon complete, quality-assured, and certified ambient air monitoring data for the 2012-2014 design period showing that the areas have achieved attainment of the 2008 Pb NAAQS. Additionally, as a result of these determinations, EPA proposes to suspend the requirements for the areas to submit attainment demonstrations, and associated reasonably available control measures (RACM), reasonable further progress (RFP) plans, contingency measures for failure to meet RFP, and attainment deadlines, for as long as the areas continue to attain the 2008 Pb NAAQS. In this action EPA is not proposing a redesignation of the areas to attainment of the 2008 Pb NAAQS; the areas remain designated nonattainment until such

time as EPA determines that the areas meet the CAA requirements for redesignation to attainment and takes action to redesignate the areas.

DATES: Comments must be received on or before September 23, 2015.
