There will be a lunch break from 12:00 p.m. to 1:00 p.m. (local time) and a dinner break from 5:00 p.m. to 6:00 p.m. (local time). To register to speak at the hearings, please use the online registration form available at <http://www.epa.gov/airquality/oilandgas/registration.html>. For questions regarding registration, please contact Aimee St. Clair at (919) 541-1063. The last day to pre-register to

speaking at the Denver, CO, and Dallas, TX, hearings will be September 18, 2015. The last day to pre-register to speak at the Pittsburgh, PA, hearing will be September 23, 2015. Additionally, requests to speak will be taken the day of the hearings at the hearings registration desk, although preferences on speaking times may not be able to be fulfilled. Please note that registration requests received before the hearings will be confirmed by the EPA via email. We cannot guarantee that we can accommodate all timing requests and will provide requestors with the next available speaking time, in the event that their requested time is taken. Please note that the time outlined in the confirmation email will be the scheduled speaking time. Depending on the flow of the day, times may fluctuate. If you require the service of a translator or special accommodations such as audio description, we ask that you pre-register for the Denver, CO, and Dallas, TX, hearings no later than September 18, 2015, and the Pittsburgh, PA, hearing no later than September 23, 2015, as we may not be able to arrange such accommodations without advance notice. Please note that any updates made to any aspect of the hearing will be posted online at <http://www.epa.gov/airquality/oilandgas/>. While the EPA expects the hearings to go forward as set forth above, we ask that you monitor our Web site or contact Aimee St. Clair at (919) 541-1063 to determine if there are any updates to the information on the hearings. The EPA does not intend to publish a document in the **Federal Register** announcing any such updates.

Oral testimony will be limited to 5 minutes for each commenter. The EPA encourages commenters to provide the EPA with a copy of their oral testimony electronically (via email) before the hearings and in hard copy form at the hearings.

The hearings will provide interested parties the opportunity to present data, views, or arguments concerning the proposed actions. The EPA will make every effort to accommodate all speakers who wish to register to speak at the hearing venues on the day of the hearings. The EPA may ask clarifying questions during the oral presentations, but will not respond to the presentations at that time. Written statements and supporting information submitted during the comment period will be considered with the same weight as oral comments and supporting information presented at the public hearings. Verbatim transcripts of the hearings and written statements will be included in the dockets for each rulemaking. The EPA plans for the

hearings to run on schedule; however, due to on-site schedule fluctuations, actual speaking times may shift slightly.

Because the Denver, CO, and Pittsburgh, PA, hearings are being held at United States government facilities, individuals planning to attend these hearings should be prepared to show valid picture identification to the security staff in order to gain access to the meeting room. Please note that the REAL ID Act, passed by Congress in 2005, established new requirements for entering federal facilities. If your driver's license is issued by American Samoa, Louisiana, Minnesota, New Hampshire or New York, you must present an additional form of identification to enter the federal building. Acceptable alternative forms of identification include: Federal employee badges, passports, enhanced driver's licenses, and military identification cards. For additional information for the status of your state regarding REAL ID, go to <http://www.dhs.gov/real-id-enforcement-brief>. In addition, you will need to obtain a property pass for any personal belongings you bring with you. Upon leaving the buildings, you will be required to return this property pass to the security desk. No large signs will be allowed in the buildings, cameras may only be used outside of the buildings, and demonstrations will not be allowed on federal property for security reasons.

At all of the hearing locations, attendees will be asked to go through metal detectors. To help facilitate this process, please be advised that you will be asked to remove all items from all pockets and place them in provided bins for screening; remove laptops, phones, or other electronic devices from their carrying case and place in provided bins for screening; avoid shoes with metal shanks, toe guards, or supports as a part of their construction; remove any metal belts, metal belt buckles, large jewelry, watches; and follow the instructions of the guard if identified for secondary screening. Additionally, no weapons (e.g., pocket knives) or drugs or drug paraphernalia (e.g., marijuana) will be allowed in the buildings. We recommend that you arrive 20 minutes in advance of your speaking time in Denver, CO, Dallas, TX, and Pittsburgh, PA, to allow time to go through security and to check in with the registration desk.

Determinations of Attainment by the Attainment Date, Extensions of the Attainment Date, and Reclassification of Several Areas Classified as Marginal for the 2008 Ozone National Ambient Air Quality Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing three separate and independent determinations related to the 36 areas that are currently classified as "Marginal" for the 2008 ozone National Ambient Air Quality Standards (NAAQS). First, the EPA is proposing to determine that 17 areas attained the 2008 ozone NAAQS by the applicable attainment date of July 20, 2015, based on complete, quality-assured and certified ozone monitoring data for 2012-2014. Second, the EPA is proposing to grant 1-year attainment date extensions for eight areas on the

basis that the requirements for such extensions under the Clean Air Act (CAA or Act) have been met. Third, the EPA is proposing to determine that 11 areas failed to attain the 2008 ozone NAAQS by the applicable attainment date of July 20, 2015, and that they are not eligible for an extension, and to reclassify these areas as "Moderate" for the 2008 ozone NAAQS. Once reclassified as Moderate, states must submit State Implementation Plan (SIP) revisions that meet the statutory and regulatory requirements that apply to 2008 ozone NAAQS nonattainment areas classified as Moderate. In this action, the EPA is proposing and taking comment on two options for the deadline by which states would need to submit to the EPA for review and approval the SIP revisions required for Moderate areas once their areas are reclassified.
