

resolution, frequency of image collection) of Landsat imagery for use in water resource management, and the benefits and challenges of using Landsat imagery in water resource management. The results will be aggregated to provide a more holistic assessment of the use of Landsat in water resource management in the Western U.S., including characterizations of use by sector (*i.e.*, private, government, academic, non-profit) and geographic region (*i.e.*, ecoregions, states). The overall goal of the survey is to provide a more complete understanding of Landsat use in water resource management in the Western U.S. in order to assist LRS in meeting the needs of these users. The survey will be conducted entirely online. As no comprehensive list of water resources managers, researchers, and professionals who use Landsat is available, a list of email addresses will be compiled through a robust online search followed by snowball sampling during survey administration. To protect the confidentiality and privacy of survey respondents, email addresses will not be associated with the data collected on the survey and all analyses will be conducted and reported on in aggregate. All files containing email addresses will be password-protected and encrypted, housed on secure USGS servers, and only accessible to the research team. No PII will be collected on the survey itself.

SUPPLEMENTARY INFORMATION: The Secretary of the Interior, through the BIE, is soliciting grant proposals from federally recognized tribes and their TEDs for projects defined by 25 U.S.C. 2020. These funds will assist tribes in the development and operation of TEDs for the purpose of planning and coordinating all educational programs of the tribe. These funds will support the development of TEDs to improve educational outcomes for students and improve efficiencies and effectiveness in the operation of BIE-funded schools. Grant awards are subject to the availability of funds as appropriated by Congress.

Under 25 U.S.C. 2020, funds will support the program goals for the following areas that promote tribal education capacity building:

1. To provide for the development and enforcement of tribal educational codes, including tribal educational policies and tribal standards applicable to curriculum, personnel, students, facilities, and support programs;

2. To facilitate tribal control in all matters relating to the education of Indian children on reservations (and on former Indian reservations in Oklahoma);

3. To provide for the development of coordinated educational programs (including all preschool, elementary, secondary, and higher or vocational educational programs funded by tribal, Federal, or other sources) on reservations (and on former Indian reservations in Oklahoma) by encouraging tribal administrative support of all Bureau-funded educational programs as well as encouraging tribal cooperation and coordination with entities carrying out all educational programs receiving financial support from other Federal

agencies, State agencies, or private entities.

Grant awards will range from \$25,000 to \$150,000 per fiscal year depending on the project, number of educational programs impacted, project design and expected outcomes. Subject to the availability of appropriated funds, a grant provided under this section shall be provided for a period of three years. If the performance of the grant recipient is satisfactory to the Secretary, the grant may be renewed for an additional two-year term. As prescribed by 25 U.S.C. 2020, top priority will be given to applications that meet the following:

- Plans to monitor and audit these grant funds by or through the TED; and/or

- Provides a plan and schedule that:
 - Provides for:
 - The assumption, by the TED, of all assets and functions of the BIE agency office associated with the tribe, to the extent the assets and functions relate to education; and
 - the termination by the BIE of such functions and office at the time of such assumption; and
 - Provides that the assumption will occur over the term of the grant, unless mutually agreeable to the tribal governing body and the Assistant Secretary—Indian Affairs, the period in which such assumption is to occur may be modified, reduced, or extended after the initial year of the grant.

The BIE is seeking proposals from tribes that support the development and operation of TEDs for the purpose of planning and coordinating all educational programs of the tribe. Each proposal must include a project narrative, a budget narrative, a work plan outline, and a project coordinator, preferably the tribal education director

or tribal council education committee member, to serve as the point of contact for the program. The project coordinator will: participate in monthly collaboration and update meetings, submit quarterly budget updates, ensure an annual report is submitted at the end of each project year, and ensure that the TED fulfills the obligations of the grant.
