SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Bureau of Reclamation is requesting approval for the collection of data from well and river-pump owners and operators along the lower Colorado River in Arizona, California, and Nevada.

I. Abstract

Pursuant to the Boulder Canyon Project Act (Public Law 70–642, 45 Stat. 1057), all diversions of mainstream Colorado River water must be in accordance with a Colorado River water entitlement. The Consolidated Decree of the United States Supreme Court in *Arizona v. California*, 547 U.S. 150 (2006) requires the Secretary of the Interior to account for all diversions of mainstream Colorado River water along the lower Colorado River, including water drawn from the mainstream by underground pumping. To meet the water entitlement and accounting obligations, an inventory of wells and river pumps is required along the lower Colorado River, and the gathering of specific information concerning these wells.

II. Data

OMB Control Number: 1006–0014.

Title: Lower Colorado River Well Inventory.

Form Number: LC–25.

Frequency: These data are collected only once for each well or river-pump owner or operator as long as changes in water use, or other changes that would impact contractual or administrative requirements, are not made. A respondent may request that the data for its well or river pump be updated after the initial inventory.

Respondents: Well and river-pump owners and operators along the lower Colorado River in Arizona, California, and Nevada. Each diverter (including well pumpers) must be identified and their diversion locations and water use determined.

Estimated Completion Time: An average of 20 minutes is required to interview individual well and river-pump owners or operators.

Estimated Annual Total Number of Respondents: 300.

Estimated Number of Responses per Respondent: 1.0.

Estimated Total Number of Annual Responses: 300.

Estimated Total Annual Burden on Respondents: 100 hours.

III. Request for Comments

A **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published on February 3, 2015 (80 FR 5786). No comments were received.

We again invite comments concerning this information collection on:

(a) Whether the proposed collection of information is necessary for the proper performance of our functions, including whether the information will have practical use;

(b) the accuracy of our burden estimate for the proposed collection of information, including the validity of the methodology and assumptions used;

(c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and

(d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Reclamation will display a valid OMB control number on the form.

IV. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks OMB approval under the PRA for revisions to the National Agriculture Workers Survey (NAWS)—an employment-based survey of the demographic, employment, and health characteristics of hired crop farm workers, including workers brought to farms by labor intermediaries. In addition, point of contact information is obtained from farms. Interviews are conducted three times per year, in order to account for the seasonality of agricultural production and employment. This information collection has been classified as a revision, because the ETA seeks approval to add new questions to the NAWS on farm workers' education and training program participation; digital information devices access and use; acute, preventive, and dental health care utilization; living quarters location in relation to production agriculture; and housing type. Proposed changes also include: temporarily discontinuing questions on occupational injuries, musculoskeletal problems, and potential exposure to pesticides that have fulfilled their current purpose; deleting 17 other questions that either had too few responses to be useful for analysis,

would be redundant with the addition of proposed questions, or are no longer valid; and modifying the stem and/or response options of six (6) questions to make them more useful. Wagner-Peyser Act section 15 authorizes this information collection. See 29 U.S.C. 491-2(a).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0453. The current approval is scheduled to expire on August 31, 2015; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on June 26, 2015 (80 FR 36853).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by September 30, 2015. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0453. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses.
