Abstract: The Higher Education Act of 1965, as amended (HEA), established the Federal Family Education Loan (FFEL) Program under title IV, part B. Section 493C (20 U.S.C. 1098e) of the HEA authorizes income based repayment for part B borrowers who have a partial financial hardship. The regulations in 34 CFR 682.215(e)(2) require notifications to borrowers from the loan holders once a borrower establishes a partial financial hardship and is placed in an income based repayment (IBR) plan by the loan holder. The regulations identify

information the loan holder must provide to the borrower to continue to participate in IBR plan. This is a request for an extension of the current information collection #1845–0114 since there has been no change to the collection.

Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission’s (Commission or FERC) regulations, 18 Code of Federal Regulations Part 380, the Office of Energy Projects has reviewed the applications for original licenses for the Beverly Lock and Dam Water Power Project (FERC Project No. 13404-002),

Devola Lock and Dam Water Power Project (FERC Project No. 13405-002), Malta/McConnellsville Lock and Dam Water Power Project (FERC Project No. 13406-002), Lowell Lock and Dam Water Power Project (FERC Project No. 13407-002), Philo Lock and Dam Water Power Project (FERC Project No. 13408-002), and Rokeby Lock and Dam Water Power Project (FERC Project No. 13411-002). The proposed projects would be located on the Muskingum River in Ohio. The Philo Lock and Dam Water Power Project would be located north of Philo, Ohio, in Muskingum County at river mile (RM) 68.3. The Rokeby Lock and Dam Water Power Project would be located in Rokeby, Ohio, in Morgan and Muskingum Counties at RM 57.4. The Malta/McConnellsville Lock and Dam Water Power Project would be located in McConnellsville, Ohio, in Morgan County at RM 49.4. The Beverly Lock and Dam Water Power Project would be located upstream of Beverly, Ohio, in Washington and Morgan Counties at RM 25.1. The Lowell Lock and Dam Water Power Project would be located west of Lowell, Ohio, in Washington County at RM 14.2. The Devola Lock and Dam Water Power Project would be located near Devola, Ohio, in Washington County at RM 5.8. The projects would be located at existing dams owned by the Ohio Department of Natural Resources. The projects would not occupy federal land.

Staff prepared a multi-project environmental assessment (EA) in cooperation with the U.S. Army Corps of Engineers, which analyzes the potential environmental effects of licensing the six projects, and concludes that licensing the projects, with appropriate environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission’s Web site at www.ferc.gov using the “eLibrary” link. Enter the docket number, excluding the last three digits, in the docket number field to access the document.
